

# Self-Guided Landscapes Tour

## Peggy H. Castaic, CA

**Favorite Plant:** Lavender (*Lavandula*)

**Project Size / Amount of Grass**

**Removed:** We removed 600 square feet of grass from our front yard.

**Materials Used:** We used a variety of plants including: Kangaroo Paw (*Anigozanthos*), Lavender (*Lavandula*), Paddle Plant (*Kalanchoe luciae*), Amazing Red New Zealand Flax (*Phormium 'Amazing Red'*), Autumn Moor Grass (*Sesleria autumnalis*), Melaleuca Tree (*Melaleuca quinquenervia*), Germander (*Teucrium chamaedrys*), Dymondia (*Dymondia margaretae*), Golden Breath of Heaven (*Coleonema pulchellum 'Sunset Gold'*), Red Yucca (*Hesperaloe parviflora*), Northern Lights Tufted Hair Grass (*Deschampsia cespitosa 'Northern Lights'*), mulch and pavers.

**What I like most about my updated landscape and what I learned while completing my project:** My landscape requires very little maintenance – I just pull weeds and trim when necessary. I learned that it was best to hire other people to do the manual labor.

**Tips for someone considering updating their landscape:** Don't be afraid to start with the smallest size plants, because they will be full size before you know it and your yard will be beautiful.

**Before**

**After**
