CAUTION - EXTERNAL SENDER

---

Hello April,

Please convey the following message to the board before tonight's meeting:

Regarding the proposal to resume in-person board and committee meetings, I request that the board continue to allow remote attendance. Though restrictions are being lifted, there are many people who for various reasons, do not feel comfortable gathering with others. Even if that weren't the case, remote attendance allows a greater number of the agency's clients to tune in and follow presentations and the board's discussions. That would be in keeping with your other efforts at community outreach.

Please continue to use the available technology to serve your constituents through remote attendance.

Thank you.

Regards,

Diane Trautman
