

**Date:** March 12, 2020

**To:** **Public Outreach and Legislation Committee**

Jerry Gladbach, Chair

B.J. Atkins

Kathy Colley

R.J. Kelly

Gary Martin

Lynne Plambeck

**From:** Steve Cole, Assistant General Manager

The **Public Outreach and Legislation Committee** is scheduled to meet on **Thursday, March 19, 2020 at 5:30 PM at Summit Circle** located at 26521 Summit Circle, Santa Clarita, CA. 91350 in the Training Room.

## MEETING AGENDA

<u>ITEM</u>		<u>PAGE</u>
1.	Public Comments – Members of the public may comment as to items not on the Agenda at this time. Members of the public wishing to comment on items covered in this Agenda may do so now or at the time each item is considered. Please complete and return a comment request form to the Committee Chair. (Comments may, at the discretion of the Committee Chair, be limited to three minutes for each speaker.)	
2.	Legislative Consultant Report:	
*	2.1 Van Scoyoc Associates	1
*	2.2 California Advocates	5
*	2.3 Poole & Shaffery	43
3.	Public Information Officer Activities:	
	3.1 SCV Water Agency – Water Summit Update	
*	3.2 Monthly Outreach Matrix	45
*	3.3 Legislative Tracking	47
*	3.4 Sponsorship Tracking FY 2019/20 and FY 2020/21	49
*	3.5 Public Outreach Event Calendar 2020	53
*	3.6 Committee Planning Calendar 2020	57

March 12, 2020

4. Adjournment

\* Indicates attachments

● To be distributed

**NOTICES:**

Any person may make a request for a disability-related modification or accommodation needed for that person to be able to participate in the public meeting by telephoning (661) 297-1600, or writing to Santa Clarita Valley Water Agency at 27234 Bouquet Canyon Road, Santa Clarita, CA 91350. Requests must specify the nature of the disability and the type of accommodation requested. A telephone number or other contact information should be included so that Agency staff may discuss appropriate arrangements. Persons requesting a disability-related accommodation should make the request with adequate time before the meeting for the Agency to provide the requested accommodation.

Pursuant to Government Code Section 54957.5, non-exempt public records that relate to open session agenda items and are distributed to a majority of the Board less than seventy-two (72) hours prior to the meeting will be available for public inspection at the Santa Clarita Valley Water Agency, located at 27234 Bouquet Canyon Road, Santa Clarita, California 91350, during regular business hours. When practical, these public records will also be made available on the Agency's Internet Website, accessible at <http://www.yourscvwater.com>.

### **FY 2021 White House Budget Released**

On February 10, the White House released its budget request for Fiscal Year (FY) 2021. The request outlines the Administration's spending priorities for the upcoming FY2021 that begins on October 1, 2020. Traditionally, Congress acknowledges budget requests, but ultimately determines spending levels, independent of the budget request.

The \$4.8 trillion budget request would reduce all non-defense discretionary spending by 5% over enacted FY2020 levels and increase defense spending by 0.5% over enacted FY2020 spending levels. However, in a sign of ultimate rejection of the cuts, the Senate Majority Leader, Mitch McConnell (R-KY), stated that Congress will abide by last year's overall budget agreement that increased spending. Below, is a summary of the budget request's allocations for key environmental and infrastructure agencies pertinent to Santa Clarita Valley Water priorities.

#### U.S. Bureau of Reclamation (USBR)

WaterSMART Program drops from \$134.2 million to \$18 million. The justification is grounded in the fact that Congress provided \$60 plus million in 2020. (Title XVI: \$3 Million compared with \$63 million in current year.)

- Bay Delta Program would receive \$33 million and is identical to current year
- Focus of USBR's California budget request is implementation of WIIN Storage program, streamline Endangered Species Act (ESA) and National Environmental Policy Act compliance process while protecting environment under "existing" BIOPs
- \$677 Million to support ESA compliance with 2019 BIOPs for Coordinated Long Term Operation of CVP/SWP
- Complete negotiations on all repayment contracts for 70 contracts within FY 20, but notes that deadline is December 16, 2021

#### U.S. Environmental Protection Agency (USEPA)

- Clean Water SRF: \$1.1 Billion compared with \$1.6 billion in current year
- Drinking Water SRF: \$863 Million compared with \$1.1 billion

- Maintains up to 20% for subsidies under the SRF program for disadvantaged community assistance

### **Water Reuse Action Plan**

On February 27, the U.S. Environmental Protection Agency (EPA), alongside federal partners, released the finalized National Water Reuse Action Plan, a collection of actions developed in collaboration with water sector organizations that will reshape the way communities around the nation manage water. The plan identifies 37 actions across 11 strategic themes to give communities tools to consider and adopt water reuse as part of an integrated water resources plan.

EPA announced its intent to facilitate the development of the National Water Reuse Action Plan (WRAP) one year ago on February 27, 2019. National water organizations including the WaterReuse Association, American Water Works Association (AWWA), Association of Metropolitan Water Agencies (AMWA), National Association of Clean Water Agencies (NACWA), Water Environment Federation (WEF), and The Water Research Foundation (WRF) worked in partnership with utilities, businesses, and government to develop recommendations for the plan.

The WRAP identifies tools related to education, policy, technology development, research, and a variety of other mechanisms to increase the likelihood that more cities and States will consider incorporating water reuse into their water management strategy. In the United States about 340 billion gallons of water per day are discharged from sources including municipal wastewater, industry process water, and agriculture runoff. Water recycling captures water from a variety of sources and cleans it for a designated beneficial freshwater purpose such as drinking, industrial processes, surface or ground water replenishment, and watershed restoration.

EPA along with other federal agencies such as the U.S. Departments of Energy and State and the U.S. Geological Survey, as well as national water associations will lead actions and collaborate on others to ensure implementation. Actions led by national water sector organizations include developing a database to track and report state-level policies and regulations, coordinating research, and workforce development.

### **Oroville Dam Reimbursement**

On February 18<sup>th</sup> the Federal Emergency Management Agency (FEMA) reversed course and told California officials that it will contribute an additional \$113 million for repair costs of the Oroville Dam. California has sparred with FEMA over reimbursements for more than \$1 billion for the cost of fixing the damaged spillway, which triggered the evacuation of almost 200,000 residents in February 2017.

FEMA informed the State's Department of Water Resources that it approved an appeal for additional funds for the Oroville spillway reconstruction work. That decision will allow

reimbursement for work on both the upper and lower portions of the main spillway, as well as some of the emergency spillway.

DWR estimates that approximately \$750 million of the \$1.1 billion in project costs are eligible for federal reimbursement, and has estimated repair costs to the spillway at more than \$615 million and \$193 million for the emergency spillway.

FEMA has now approved more than \$318 million for costs related to the spillway and emergency spillway repairs, along with \$159 million for emergency protective measures and debris removal.

### **EPA and PFAS Action Plan**

On February 20<sup>th</sup>, the U.S. Environmental Protection Agency (EPA) provided advance notice in implementing the Agency's PFAS Action Plan by proposing regulatory determinations for perfluorooctanesulfonic acid (PFOS) and perfluorooctanoic acid (PFOA) in drinking water.

Though still not formally proposed through a Federal Register Notice (FRN), EPA will seek public comment on its proposed regulatory determinations for eight contaminants listed on the fourth Contaminant Candidate List. The Agency is proposing to regulate two contaminants, PFOS and PFOA. EPA is also asking for information and data on other PFAS substances, as well as seeking comment on potential monitoring requirements and regulatory approaches EPA is considering for PFAS chemicals. The Agency is proposing to not regulate six contaminants: 1,1-dichloroethane, acetochlor, methyl bromide, metolachlor, nitrobenzene, and RDX.

Every five years, EPA must publish a list of contaminants, known as the Contaminant Candidate List or CCL, that are known or anticipated to occur in public water systems and are not currently subject to EPA drinking water regulations. The EPA publishes draft CCLs for public comment and considers those comments prior to issuing final lists.

After issuing the final CCL, the EPA determines whether to regulate no fewer than five contaminants on the CCL through a process known as a Regulatory Determination. The EPA publishes preliminary regulatory determinations for public comment and considers those comments prior to making final regulatory determinations. If the EPA makes a positive regulatory determination for any contaminant, it will begin the process to establish a national primary drinking water regulation for that contaminant.

EPA will seek comment on these preliminary determinations for 60 days after the notice is published in the Federal Register.

EPA has also initiated the regulatory development process for listing PFOA and PFOS as hazardous substances under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA).

In addition, on September 25, 2019, EPA issued an advanced notice of proposed rulemaking that would allow the public to provide input on adding PFAS to the Toxics Release Inventory toxic chemical list. This was followed up on the February 20<sup>th</sup> announcement that EPA has issued a supplemental proposal to ensure that new uses of certain persistent long-chain PFAS chemicals in surface coatings cannot be manufactured or imported into the United States without notification and review under TSCA.

Lastly, EPA released an updated list of 172 PFAS chemicals subject to Toxics Release Inventory reporting as required by the National Defense Authorization Act for Fiscal Year 2020.

March 5, 2019

MEMORANDUM

TO: Steve Cole, Santa Clarita Valley Water Agency

FROM: Dennis K. Albiani, Anthony Molina, California Advocates, Inc.

SUBJECT: March Report

The legislative session is at full-speed! February 21<sup>st</sup> was the “Bill Introduction” deadline and number of bills introduced was 2,203 – this does not include two-year active bills. Specifically, there were 1,527 Assembly Bills and 676 Senate Bill introduced this session. To note, committees can still introduce bills past the deadline. Also, this count does not reflect resolutions and constitutional amendments.

Furthermore, budget sub-committees and policy committees have begun their hearings. Many of the issues working their way through the legislative process thus far, are non-controversial or have double-referrals. Although SCVWA has yet to take formal positions on bills, we are continuing to monitor all water, resources, and governance issues.

Additionally, March 3<sup>rd</sup> was the California Primary. There was a lot of action taking place in Santa Clarita. The biggest news in all of the races was Assembly District 38 being flipped from Democratic back to Republican. The top-two vote getters who will battle it out in the November 3<sup>rd</sup> General Election are Suzette Martinez Valladares (Rep.) and Lucie Lapointe Volotzky (Rep.). In the Senate races, Senator Scott Wilk (Rep.) is expected to face Kipp Mueller (Dem.) for Senate District 21. In Senate District 27, Senator Henry Stern (Dem.) will face Houman Salem (Rep.). And finally, for the United States House of Representatives 25<sup>th</sup> District race, current Assemblymember Christy Smith (Dem.) will face off against Mike Garcia (Rep.) in both the May 12<sup>th</sup> “Special Election Runoff,” as well as the November 3<sup>rd</sup> General Election. Stay tuned for updates and the races continue to heat up.

### **Climate Resiliency/Water Bonds**

As of the bill introduction deadline, there are now four “Climate Resiliency/Water Bonds” in play this legislative session. Each plan covers watershed, resource conservation, fire resiliency, and water infrastructure. Should one pass the legislature, it will be placed on the ballot for the voters to approve or disapprove at the November 3<sup>rd</sup> General Election.

As of today, it’s anyone’s guess which, if any, of the proposals will prevail or how lawmakers will ultimately determine the critical elements of what voters will see. Please see below for the details, status, and position on each proposal.

**Governor’s Climate Resiliency Bond “Safe Drinking Water, Wildfire Prevention, and Natural Resources Protection Bond Act of 2020”**

The Governor and his administration are proposing a \$4.75 billion climate resilience bond for the November 2020 ballot to support investments over the next five years to reduce specific climate risks across California through long-term investment in natural and built infrastructure, especially in the state's most climate-vulnerable communities. The bond is structured based on climate risks, and approximately 80 percent of the funds are allocated to address immediate, near-term risks (floods, drought, and wildfires), while the remaining funds lay the groundwork for addressing long-term climate risk (sea level rise and extreme heat). The bond aligns with the Administration's draft Water Resilience Portfolio in addressing drought and flood risks, and also makes strategic investments in community resilience. A link to the released budget trailer bill language can be found below:

**Bond Language:** <https://esd.dof.ca.gov/dofpublic/public/trailerBill/pdf/25>

**Status:** Currently apart of the Budget negotiations with the Legislature.

**Position:** Watch

**AB 352 (E. Garcia) Wildfire Prevention, Safe Drinking Water, Drought Preparation, and Flood Protection Bond Act of 2020.**

This bill would enact the Wildfire Prevention, Safe Drinking Water, Drought Preparation, and Flood Protection Bond Act of 2020, which, if approved by the voters, would authorize the issuance of bonds in the amount of \$3,920,000,000 pursuant to the State General Obligation Bond Law to finance a wildfire prevention, safe drinking water, drought preparation, and flood protection program. The bill would provide for the submission of these provisions to the voters at the November 3, 2020, statewide general election.

**Status:** This bill was referred to the Senate Environmental Quality Committee. This is a two-year bill.

**Position:** Watch

**AB 3256 (E. Garcia) Climate risks: bond measure.**

This bill would state the intent of the Legislature to enact a bond measure that would address climate risks to the State of California.

**Status:** Assembly Rules, pending referral.

**Position:** Watch

**SB 45 (Allen) Wildfire Prevention, Safe Drinking Water, Drought Preparation, and Flood Protection Bond Act of 2020.**

This bill would This bill would enact the Wildfire Prevention, Safe Drinking Water, Drought Preparation, and Flood Protection Bond Act of 2020, which, if approved by the voters, would authorize the issuance of bonds in the amount of \$ 5,510,000,000 pursuant to the State General Obligation Bond Law to finance projects for a wildfire prevention, safe drinking water, drought preparation, and flood protection program. This bill would provide for the submission of these provisions to the voters at the November 3, 2020, statewide general election.

**Status:** Assembly Rules, pending referral.

**Position:** Watch

## **Public Safety Power Shutoffs**

### **AB 2182 (Rubio) Emergency backup generators: water and wastewater facilities: exemption.**

This bill would provide flexibility for all critical service providers to use and maintain emergency power generators for Public Safety Power Shutoff (PSPS) events. This flexibility would be accomplished by: (1) confirming that backup power generation during PSPS events is considered emergency use of generators; (2) ensuring that generator use for PSPS events is not limited by any time constraints; and, (3) by providing testing and maintenance flexibility for these backup generators due to the strenuous nature of their use during PSPS events.

**Status: Double referred to Assembly Energy and Utilities Committee and Natural Resources Committee.**

**Position: None**

### **SB 1099 (Dodd) Emergency backup generators: critical facilities: exemption.**

This bill would require air districts to adopt a rule, or revise its existing rules, to allow critical facilities with a permitted emergency backup generator to use that emergency backup generator during a deenergization event or other loss of power, and to test and maintain that emergency backup generator, without having the usage, testing, or maintenance count toward that emergency backup generator's time limitation on actual usage and routine testing and maintenance. The bill would also prohibit air districts from imposing a fee on the issuance or renewal of a permit issued for those critical facility emergency backup generators.

**Status: Referred to Senate Environmental Quality Committee.**

**Position: None**

## **Water Quality**

### **SB 996 (Portantino) State Water Resources Control Board: Constituents of Emerging Concern Program.**

This bill would establish a "Constituent of Emerging Concern" (CEC) Drinking Water Program at the State Water Board that would identify, evaluate, and prioritize actions for CECs in drinking water sources. A dedicated funding source would be created to establish and maintain the program in the State Treasury. This fund would additionally support the creation of a Science Advisory Panel to assist the State Water Board in its considerations when prioritizing and making regulatory determinations for CECs, as well as a Stakeholder Advisory Group that would advise the State Water Board in meeting the purposes of the CEC program.

**Status: Senate Rules, pending referral.**

**Position: None**

### **SB 1056 (Portantino) Drinking water: testing: perfluoroalkyl and polyfluoroalkyl substances.**

This bill would require the SWRCB, on or before January 1, 2022, to validate and certify a method or methodologies to measure perfluoroalkyl and polyfluoroalkyl (PFAS) substances in drinking water, groundwater, surface water and wastewater.

**Status: Referred to Senate Environmental Quality Committee.**

**Position: None**

## Governance

### **AB 2560 (Quirk) Water quality: notification and response levels: procedures.**

This bill would require the SWRCB to comply with public notice, comment, and peer review procedures, when establishing or revising notification or response levels.

**Status: Assembly Rules, pending referral.**

**Position: None**

### **SB 797 (Wilk) Water resources: permit to appropriate: application procedure.**

This bill requires the publication of a “new notice of application” by the SWRCB, if the SWRCB has not rendered a final determination on an application for a permit to appropriate water within 30 years from its original filing date. The new notice would re-open the protest period other administrative processes, as if it were being undertaken for the first time.

**Status: Senate Natural Resources and Water Committee**

**Position: None**

## California Advocates, Inc. Activity Report

- Attended ACWA MMLG meetings.
- Participated in the Southern California Water Coalition (SCWC) Legislative Task Force calls.
- Participated in the State Water Contractors Advocate call for an update on the Voluntary Agreements; federal BiOps; Section 2081 permit for long-term SWP operations; Delta conveyance; and FEMA reimbursement for Oroville.
- Drafted budget proposal bill language for PFAS pilot project proposal. Submitted language to Legislative Counsel.
- Shared and discussed the budget PFAS language for feedback with the following individuals:
  - Kathy Viatella, Executive Legislative Representative, Metropolitan Water District of Southern California
  - Jason Ikerd, Legislative Advocate, Orange County Water District
- Meet with Kathy Viatella, Executive Legislative Representative, Metropolitan Water District of Southern California to discuss 2020 water priorities for the year.
- Reviewed introduced legislation and tagged bills for SCVWA to monitor and take bill positions on for the year.

## Regulatory

- The Department of the Interior and the Bureau of Reclamation announced its decision to maximize water deliveries and optimize power generation for communities and farms in California and implement improved measures to protect endangered species and their habitats. In achieving this, the Bureau of Reclamation issued a Record of Decision (ROD) on the re-initiation of consultation on the coordinated long-term operations of the Central Valley Project and State Water Project. The ROD signed modernizes CVP and State Water Project (SWP) operations based on the latest scientific information and uses real-time monitoring to improve

operation decision-making. This will result in a more flexible and efficient operation that balances the need to provide a safe and reliable water supply to farms, families and communities with protections for critical species.

- California filed a lawsuit in the U.S. District Court in San Francisco challenging the federal Biological Opinions covering the coordinated long-term operations of the Central Valley Project (CVP) and State Water Project (SWP). The lawsuit was filed within hours of the completed National Environmental Protection Act (NEPA) process to update the CVP and SWP Biological Opinions for federal Endangered Species Act compliance. The complaint alleges that the Biological Opinions are unlawful in that they do not provide adequate protection for several endangered or threatened fish species in the Sacramento-San Joaquin Delta.
- The Trump administration (FEMA) reversed its decision and agreed to pay California for Oroville Dam fixes. Specifically, this will cover approximately \$300 million in repair costs the agency had previously denied. All told, the state now expects to be reimbursed for approximately \$750 million of the \$1.1 billion cost of the crisis.

## **Important Dates and Deadlines for 2020**

### **March Deadlines:**

- Mar. 27<sup>th</sup>, Cesar Chavez Day (Observed Holiday)

### **April Deadlines:**

- Apr. 2<sup>nd</sup>, Spring Recess begins.
- Apr. 13<sup>th</sup>, Legislature reconvenes from Spring Recess.
- Apr. 24<sup>th</sup>, Last day for policy committees to hear and report fiscal bills to fiscal committees introduced in their house.

### **May Deadlines:**

- May 1<sup>st</sup>, Last day for policy committees to meet and report nonfiscal bills to the floor.
- May 8<sup>th</sup>, Last day for policy committees to meeting prior to June 1<sup>st</sup>.
- May 15<sup>th</sup>, Fiscal policy deadline to report bills to the floor.
- May 25<sup>th</sup>, Memorial Day (Observed Holiday)
- May 26<sup>th</sup> – 29<sup>th</sup>, Floor Session only “House of Origin” deadline.

### **June Deadlines:**

- June 1<sup>st</sup>, Committee meetings may resume.
- June 15<sup>th</sup>, Budget bill must be passed by midnight.
- June 25<sup>th</sup>, Last day for a measure to qualify for the November 3<sup>rd</sup> General Election Ballot.
- June 26<sup>th</sup>, Last day for policy committees to hear and report fiscal bills to fiscal committees introduced in their house.

Santa Clarita Valley Water Agency  
Legislative Status Report 3/5/2020

---

**[AB 56](#) (Garcia, Eduardo D) Electricity: procurement by the California Alternative Energy and Advanced Transportation Financing Authority. ( Amended: 7/3/2019 [html](#) [pdf](#) )**

**Status:** 9/15/2019-Failed Deadline pursuant to Rule 61(a)(15). (Last location was E. U., & C. on 8/28/2019)(May be acted upon Jan 2020)

**Location:** 9/15/2019-S. 2 YEAR

**Summary:** Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including electrical corporations. The California Renewables Portfolio Standard Program requires the commission to establish a renewables portfolio standard requiring all retail sellers, defined as including electrical corporations, electric service providers, and community choice aggregators, to procure a minimum quantity of electricity products from eligible renewable energy resources, as defined, so that the total kilowatthours of those products sold to their retail end-use customers achieves 25% of retail sales by December 31, 2016, 33% by December 31, 2020, 44% by December 31, 2024, 52% by December 31, 2027, and 60% by December 31, 2030. Existing law establishes a policy of the state that eligible renewable energy resources and zero-carbon resources supply 100% of retail sales of electricity to California end-use customers and 100% of electricity procured to serve all state agencies by December 31, 2045. Existing law requires the commission, in consultation with the Independent System Operator, to establish resource adequacy requirements for all load-serving entities, as defined, and requires each load-serving entity to maintain physical generating capacity and electrical demand response adequate to meet its load requirements, including peak demand and planning and operating reserves, deliverable to locations and at times as may be necessary to provide reliable electric service. This bill would require the commission to empower the California Alternative Energy and Advanced Transportation Financing Authority to undertake backstop procurement of electricity that would otherwise be performed by an electrical corporation to meet the state resource adequacy, integrated resource planning, and renewable portfolio standard goals not satisfied by retail sellers or load-serving entities. The bill would authorize the authority to undertake backstop procurement consistent with specified objectives and to manage the resale of electricity for its contracted resources. The bill would require the commission to periodically review the need for, and the benefits of, continuing to empower the authority to undertake backstop procurement responsibilities. The bill would provide for the reduction in procurement compliance obligations for load-serving entities and retail sellers for the electricity procured by the authority. The bill would require the authority to develop and submit annual revenue requirements for review, modification, and approval by the commission to recover specified costs, would provide that the authority is entitled to recover revenue requirements approved by the commission for costs incurred on behalf of retail customers of a load-serving entity or retail seller, and would provide that those costs are a direct obligation of the retail end-use customers of load-serving entities or retail sellers or a direct obligation of the load-serving entity or retail seller on whose behalf the procurement was undertaken. The bill would require the commission to approve a method for recovering revenue requirements from retail end-use customers of load-serving entities or retail sellers or from load-serving entities or retail sellers themselves, as specified.

This bill contains other related provisions and other existing laws.

Organization	Assigned	Position	Priority	Subject	Group
SCV Water Agency	DKA ANTHONY				

**Notes 1:**

**[AB 100](#) (Committee on Budget) Drinking water.** ( Amended: 6/21/2019 [html](#) [pdf](#) )

**Status:** 9/13/2019-Re-referred to Com. on B. & F.R.

**Location:** 9/13/2019-S. BUDGET & F.R.

**Summary:** (1)Existing law, the California Safe Drinking Water Act, requires the State Water Resources Control Board to administer provisions relating to the regulation of drinking water to protect public health. Existing law declares it to be the established policy of the state that every human being has the right to safe, clean, affordable, and accessible water adequate for human consumption, cooking, and sanitary purposes. This bill would establish the Safe and Affordable Drinking Water Fund in the State Treasury to help water systems provide an adequate and affordable supply of safe drinking water in both the near and the long terms. The bill would authorize the state board to provide for the deposit into the fund of federal contributions, voluntary contributions, gifts, grants, and bequests and would continuously appropriate the moneys in the fund to the state board for grants, loans, contracts, or services to assist eligible recipients. The bill would require the state board to adopt a fund implementation plan with specified contents and would require, on and after July 1, 2020, expenditures of the fund to be consistent with the plan. The bill would require, by January 1, 2021, the state board, in consultation with local health officers and other relevant stakeholders, to make publicly available, as specified, a map of aquifers that are used or likely to be used as a source of drinking water that are at high risk of containing contaminants that exceed safe drinking water standards. For purposes of the map, the bill would require local health officers and other relevant local agencies to provide all results of, and data associated with, water quality testing performed by certified laboratories to the state board, as specified. By imposing additional duties on local health officers and local agencies, the bill would impose a state-mandated local program.

This bill contains other related provisions and other existing laws.

**Notes 1:**

**[AB 134](#) (Bloom D) Safe Drinking Water Restoration.** ( Amended: 5/20/2019 [html](#) [pdf](#) )

**Status:** 7/10/2019-Failed Deadline pursuant to Rule 61(a)(10). (Last location was E.Q. on 6/12/2019)(May be acted upon Jan 2020)

**Location:** 7/10/2019-S. 2 YEAR

**Summary:** (1)Existing law, the California Safe Drinking Water Act, requires the State Water Resources Control Board to administer provisions relating to the regulation of drinking water to

protect public health. The act authorizes the board to order consolidation with a receiving water system where a public water system or a state small water system, serving a disadvantaged community, consistently fails to provide an adequate supply of safe drinking water. The act, if consolidation is either not appropriate or not technically and economically feasible, authorizes the board to contract with an administrator to provide administrative and managerial services to designated public water systems and to order the designated public water system to accept administrative and managerial services, as specified. Existing law declares it to be the established policy of the state that every human being has the right to safe, clean, affordable, and accessible water adequate for human consumption, cooking, and sanitary purposes. Assembly Bill 217 of the 2019–20 Regular Session of the Legislature, if enacted, would require the board to adopt an assessment of funding need that identifies systems and populations potentially in need of assistance and an analysis of anticipated funding needed based on the amount available in the Safe and Affordable Drinking Water Fund. This bill would require the board to report to the Legislature by July 1, 2025, on its progress in restoring safe drinking water to all California communities and to create an internet website that provides data transparency for all of the board’s activities described in this measure. The bill would require the board to develop metrics to measure the efficacy of the fund in ensuring safe and affordable drinking water for all Californians. The bill would require the Legislative Analyst’s Office, at least every 5 years, to provide an assessment of the effectiveness of expenditures from the Safe and Affordable Drinking Water Fund proposed by AB 217 of the 2019–20 Regular Session.

This bill contains other related provisions and other existing laws.

**[AB 292](#) (Quirk D) Recycled water: raw water and groundwater augmentation.** ( Amended: 6/20/2019 [html](#) [pdf](#).)

**Status:** 9/15/2019-Failed Deadline pursuant to Rule 61(a)(15). (Last location was INACTIVE FILE on 8/30/2019)(May be acted upon Jan 2020)

**Location:** 9/15/2019-S. 2 YEAR

**Summary:** Existing law requires the State Water Resources Control Board, on or before December 31, 2023, to adopt uniform water recycling criteria for direct potable reuse through raw water augmentation, as specified. Existing law defines “direct potable reuse” and “indirect potable reuse for groundwater recharge” for these purposes. This bill would eliminate the definition of “direct potable reuse” and instead would substitute the term “groundwater augmentation” for “indirect potable reuse for groundwater recharge” in these definitions. The bill would revise the definition of “treated drinking water augmentation.” The bill would require, on or before December 31, 2023, the state board to adopt uniform water recycling criteria for raw water augmentation. The bill would make conforming changes in other areas relating to potable reuse.

**[AB 352](#) (Garcia, Eduardo D) Wildfire Prevention, Safe Drinking Water, Drought Preparation, and Flood Protection Bond Act of 2020.** ( Amended: 8/14/2019 [html](#) [pdf](#) )

**Status:** 8/14/2019-From committee chair, with author's amendments: Amend, and re-refer to committee. Read second time, amended, and re-referred to Com. on EQ.

**Location:** 8/14/2019-S. E.Q.

**Summary:** Under existing law, programs have been established pursuant to bond acts for, among other things, drought, water, parks, climate, coastal protection, and outdoor access for all. This bill would enact the Wildfire Prevention, Safe Drinking Water, Drought Preparation, and Flood Protection Bond Act of 2020, which, if approved by the voters, would authorize the issuance of bonds in the amount of \$3,920,000,000 pursuant to the State General Obligation Bond Law to finance a wildfire prevention, safe drinking water, drought preparation, and flood protection program. The bill would provide for the submission of these provisions to the voters at the November 3, 2020, statewide general election. The bill would provide that its provisions are severable.

**[AB 402](#) (Quirk D) State Water Resources Control Board: local primacy delegation: funding stabilization program.** ( Amended: 6/18/2019 [html](#) [pdf](#) )

**Status:** 8/30/2019-Failed Deadline pursuant to Rule 61(a)(12). (Last location was APPR. SUSPENSE FILE on 8/12/2019)(May be acted upon Jan 2020)

**Location:** 8/30/2019-S. 2 YEAR

**Summary:** Existing law, the California Safe Drinking Water Act, requires the State Water Resources Control Board to administer provisions relating to the regulation of drinking water to protect public health, including, but not limited to, conducting research, studies, and demonstration programs relating to the provision of a dependable, safe supply of drinking water, enforcing the federal Safe Drinking Water Act, adopting implementing regulations, and conducting studies and investigations to assess the quality of water in private domestic water supplies. The act authorizes the state board to delegate, through a local primacy delegation agreement, primary responsibility for the act's administration and enforcement within a county to a local health officer, as specified. The act requires that a local primacy delegation remain in effect until specified conditions occur. This bill would authorize the state board to delegate partial responsibility for the act's administration and enforcement by means of a local primacy delegation agreement. The bill would authorize the state board, for counties that have not been delegated primary responsibility as of January 1, 2020, to offer an opportunity for the county to apply for partial or primary responsibility if the state board determines that it needs assistance in performing administrative and enforcement activities, as specified. The bill would authorize the state board to approve the application for delegation if the state board determines that the local health officer is able to sufficiently perform the administrative and enforcement activities and would specify that a local primacy agency has all of the authority over designated public water systems as is granted to the state board by the act.

This bill contains other related provisions and other existing laws.

**AB 552 (Stone, Mark D) Coastal resources: Program for Coastal Resilience, Adaptation, and Access.** ( Amended: 8/12/2019 [html](#) [pdf](#) )

**Status:** 8/30/2019-Failed Deadline pursuant to Rule 61(a)(12). (Last location was APPR. SUSPENSE FILE on 8/19/2019)(May be acted upon Jan 2020)

**Location:** 8/30/2019-S. 2 YEAR

**Summary:** (1)Existing law vests with the State Lands Commission jurisdiction over specified public lands in the state, including tidelands and submerged lands. The California Coastal Act of 1976 also establishes the California Coastal Commission and requires the commission to regulate development in the coastal zone, as defined. Existing law creates the Integrated Climate Adaptation and Resiliency Program to be administered by the Office of Planning and Research, and requires the Director of State Planning and Research, no later than January 1, 2017, to establish the program to coordinate regional and local efforts with state climate adaptation strategies to adapt to the impacts of climate change, as specified. This bill would establish the Program for Coastal Resilience, Adaptation, and Access for the purpose of funding specified activities intended to help the state prepare, plan, and implement actions to address and adapt to sea level rise and coastal climate change. The bill would create the Coastal Resilience, Adaptation, and Access Fund in the State Treasury, and would authorize the California Coastal Commission and specified state agencies to expend moneys in the fund, upon appropriation in the annual Budget Act, to take actions, based upon the best scientific information, that are designed to address and adapt to sea level rise and coastal climate change, as prescribed. The bill would require the Natural Resources Agency to annually make available information regarding any activity funded under the program on a publicly accessible internet website. The bill would also require the Natural Resources Agency, and any other state agency to which funding is allocated, to consider the guidance and resources developed by the Integrated Climate Adaptation and Resiliency Program to help inform decisions relating to activities funded with moneys from the Coastal Resilience, Adaptation, and Access Fund.

This bill contains other related provisions and other existing laws.

**AB 722 (Bigelow R) Water: dams: fees.** ( Amended: 4/2/2019 [html](#) [pdf](#) )

**Status:** 7/10/2019-Failed Deadline pursuant to Rule 61(a)(10). (Last location was N.R. & W. on 5/29/2019)(May be acted upon Jan 2020)

**Location:** 7/10/2019-S. 2 YEAR

**Summary:** Existing law requires the Department of Water Resources to supervise the maintenance

and operation of dams and reservoirs as necessary to safeguard life and property. Existing law requires the department to adopt, by regulation, a schedule of fees to cover the department's costs in carrying out the supervision of dam safety. Existing law limits the total annual fee for a dam or reservoir located on a farm or ranch property or a privately owned dam with less than 100 acre-feet of storage capacity to no more than 20% of the fees assessed pursuant to the schedule of fees. This bill would limit the total annual fee for a dam operated by certain irrigation districts to no more than 20% of the fees assessed pursuant to the schedule of fees.

**Location:** 7/10/2019-S. 2 YEAR

**Summary:** Existing law requires the Department of Water Resources to supervise the maintenance and operation of dams and reservoirs as necessary to safeguard life and property. Existing law requires the department to adopt, by regulation, a schedule of fees to cover the department's costs in carrying out the supervision of dam safety. Existing law excludes certain obstructions from being considered a dam, including a barrier not across a stream channel, watercourse, or natural drainage area and that has the principal purpose of impounding water for agricultural use. This bill would specify that a structure owned or operated by a public entity may have the principal purpose of impounding water for agricultural use for the purposes of an exclusion from being considered a dam, provided the structure is no greater than 20 feet in height.

**Location:** 7/10/2019-S. 2 YEAR

**Summary:** Existing law, the California Safe Drinking Water Act, requires the State Water Resources Control Board to administer provisions relating to the regulation of drinking water to protect public health, including, but not limited to, conducting research, studies, and demonstration programs relating to the provision of a dependable, safe supply of drinking water, enforcing the federal Safe Drinking Water Act, adopting implementing regulations, and conducting studies and investigations to assess the quality of water in private domestic water supplies. The act requires the board to adopt primary drinking water standards for contaminants in drinking water and requires the Office of Environmental Health Hazard Assessment to prepare and publish an assessment of the risks to public health posed by each contaminant for which the board proposes a primary drinking

water standard. This bill would require the office to adopt and complete a work plan within prescribed timeframes to assess which substances in the class of perfluoroalkyl and polyfluoroalkyl substances should be identified as a potential risk to human health, as provided. The bill would require the office, as part of those assessments, to determine which of the substances are appropriate candidates for notification levels to be adopted by the state board. The bill would require the office, by January 1, 2022, to provide to the Legislature an update on the assessment. The bill would require the office to assess annually those substances as new information, scientific research, and detection methodologies become available.

This bill contains other existing laws.

**Location:** 8/30/2019-S. 2 YEAR

**Summary:** Existing law provides that it is the intent of the Legislature that the state should coordinate and integrate its watershed programs and implement those programs by working with diverse interests at the local level. Existing law provides that the state's watershed management goals should include maintaining and restoring healthy watersheds that support thriving communities, provide clean water, and sustain natural habitats for future generations. This bill would require the department, to the extent funds are available, to establish and administer the Ecosystem Resilience Program to fund watershed coordinator positions, as provided, and other necessary costs, throughout the state for the purpose of achieving specified goals, including the goal to develop and implement watershed improvement plans, and other plans to enhance the natural functions of a watershed, aligned with multiple statewide and regional objectives across distinct bioregions. The bill would require the department to develop performance measures and accountability controls to track progress and outcomes of all watershed coordinator grants. The bill would require, on or before January 31, 2022, and every 3 years thereafter, the department to report those outcomes to the appropriate fiscal and policy committees of the Legislature.

This bill contains other existing laws.

**Location:** 8/30/2019-S. 2 YEAR

**Summary:** Existing law, the Water Replenishment District Act, provides for the formation, organization, and functioning of water replenishment districts and authorizes a district to do any act necessary to replenish the groundwater of the district. This bill would authorize a water replenishment district, pursuant to an agreement with the State Water Resources Control Board, to offer to conduct a needs assessment program for water systems serving disadvantaged communities within the district, as specified. The bill would make a water system's participation in the program voluntary. The bill would authorize the district, upon completion of the needs assessment, to develop and evaluate options to address the findings and recommendations in the needs assessment and prepare an implementation plan for recommendation to the water system. The bill would authorize the district, to the extent it receives federal or state grants that may be used for this purpose, to assist the water system in implementing the plan, and would require the participating district to prepare an annual report regarding the services, costs, and sources of funding for all actions taken under this program. The bill would repeal these provisions as of January 1, 2026.

**[AB 975](#) (Calderon D) Environmental protection: California Coastal Resilience and Adaptation Leadership and Coordination Act of 2019. ( Amended: 6/26/2019 [html](#) [pdf](#) )**

**Status:** 8/30/2019-Failed Deadline pursuant to Rule 61(a)(12). (Last location was APPR. SUSPENSE FILE on 8/12/2019)(May be acted upon Jan 2020)

**Location:** 8/30/2019-S. 2 YEAR

**Summary:** Existing law establishes the Integrated Climate Adaptation and Resiliency Program, administered by the Office of Planning and Research, to coordinate regional and local efforts with state climate adaptation strategies to adapt to the impacts of climate change, as specified. This bill would establish the California Coastal Resilience and Adaptation Leadership and Coordination Act of 2019, which would require the Secretary of the Natural Resources Agency, in collaboration with the Director of State Planning and Research and other state entities, to communicate with other countries, states, regional collaboratives, and subnational governments to support and promote the state's goals and policies relating to ocean, coastal, and near-shore terrestrial adaptation and resilience, and would require the secretary to take all action necessary when collaborating with other countries, states, regional collaboratives, and subnational governments related to accomplishing those goals and policies, as prescribed. The bill would also require the secretary, in collaboration with the director, to use quantified risk assessments of the impacts of climate change to establish priorities in carrying out the tasks under the act. The bill would authorize the secretary to appoint a designee to carry out these tasks. The bill would also authorize the secretary, where appropriate, to direct the Ocean Protection Council, or any other board, department, or office within the agency, to support specified actions under the act. The bill would require the secretary to post an annual report on the agency's internet website on the progress made during the preceding year regarding those actions the secretary is required to take under the act and to annually notify specified committees of the Legislature of the availability of the report.

**AB 987** ([Rivas, Robert D](#)) **CalWORKs: special diet and food preparation allowance.** (

Amended: 7/11/2019 [html](#) [pdf](#).)

**Status:** 8/30/2019-Failed Deadline pursuant to Rule 61(a)(12). (Last location was APPR. on 7/8/2019)(May be acted upon Jan 2020)

**Location:** 8/30/2019-S. 2 YEAR

**Summary:** Existing law requires each county to provide cash assistance and other social services to needy families through the California Work Opportunity and Responsibility to Kids (CalWORKs) program using federal Temporary Assistance to Needy Families block grant program, state, and county funds. Existing law specifies the amounts of cash aid to be paid each month to CalWORKs recipients, including a recurring special needs allowance of up to \$10 per month for each eligible recipient. Under existing law, recurring special needs includes special diets upon the recommendation of a physician for circumstances other than pregnancy, and unusual costs of transportation, laundry, housekeeping services, telephone, and utilities. This bill would include food preparation within the list of unusual costs for purposes of the recurring special needs allowance. The bill would provide that the reasons for which a county shall grant a recurring special needs allowance for a special diet include, but are not limited to, verified lack of access to potable water and a child recipient having an elevated blood lead level, as specified. The bill would prohibit a county from requiring the recommendation of a physician regarding a special diet if there is a verified lack of access to potable water, and would authorize a county to waive the requirement if the county has reason to believe that there is a lack of access to potable water. The bill would, commencing on December 1, 2023, or on the date that the Statewide Automated Welfare System can perform the necessary automation for this purpose, whichever date is later, require the recurring special allowance for special diets to be provided in the form of a supplemental food benefit and prohibit the special diets allowance from being considered income for the purposes of determining eligibility or amount of aid for any state or local means-tested public benefit program. By increasing the administrative duties of counties administering the CalWORKs program, the bill would impose a state-mandated local program.

This bill contains other related provisions and other existing laws.

**Status:** 2/24/2020-Referred to Com. on E.S. & T.M.

**Location:** 2/24/2020-A. E.S. & T.M.

**Calendar:** 3/24/2020 1:30 p.m. - State Capitol, Room 444 ASSEMBLY ENVIRONMENTAL SAFETY AND TOXIC MATERIALS, QUIRK, Chair

**Summary:** Existing law, the California Safe Drinking Water Act, requires the State Water Resources Control Board to administer provisions relating to the regulation of drinking water to protect public health, including, but not limited to, conducting research, studies, and demonstration programs relating to the provision of a dependable, safe supply of drinking water, enforcing the federal Safe Drinking Water Act, adopting implementing regulations, and conducting studies and investigations to assess the quality of water in private domestic water supplies. The act authorizes the state board to delegate, through a local primacy delegation agreement, primary responsibility for

the act's administration and enforcement within a county to a local health officer, as specified. The act requires that a local primacy delegation remain in effect until specified conditions occur. This bill would authorize the state board to delegate partial responsibility for the act's administration and enforcement by means of a local primacy delegation agreement. The bill would authorize the state board, for counties that have not been delegated primary responsibility as of January 1, 2021, to offer an opportunity for the county to apply for partial or primary responsibility if the state board determines that it needs assistance in performing administrative and enforcement activities, as specified. The bill would authorize the state board to approve the application for delegation if the state board determines that the local health officer is able to sufficiently perform the administrative and enforcement activities and would specify that a local primacy agency has all of the authority over designated public water systems as is granted to the state board by the act.

This bill contains other related provisions and other existing laws.

**Status:** 2/15/2020-From printer. May be heard in committee March 16.

**Location:** 2/14/2020-A. PRINT

**Summary:** Existing law makes legislative findings and declarations regarding drought planning for small water suppliers and rural communities, and requires the Department of Water Resources, in consultation with the State Water Resources Control Board and other relevant state and local agencies and stakeholders, to use available data to identify, no later than January 1, 2020, small water suppliers and rural communities that may be at risk of drought and water shortage vulnerability and notify counties and groundwater sustainability agencies of those suppliers or communities. Existing law requires the department, in consultation with the state board, to propose to the Governor and the Legislature, by January 1, 2020, recommendations and guidance relating to the development and implementation of countywide drought and water shortage contingency plans to address the planning needs of small water suppliers and rural communities, as provided. This bill would repeal these provisions.

**Location:** 2/19/2020-A. PRINT

**Summary:** The California Safe Drinking Water Act provides for the operation of public water systems and imposes on the State Water Resources Control Board various duties and responsibilities for the regulation and control of drinking water in the state. The act requires the state board to adopt drinking water standards for contaminants in drinking water based upon specified criteria and requires any person who owns a public water system to ensure that the system, among other things, complies with those drinking water standards. The act requires a public water system to provide prescribed notices within 30 days after it is first informed of a confirmed detection of a contaminant found in drinking water delivered by the public water system for human consumption that is in excess of a maximum contaminant level, a notification level, or a response level established by the state board. This bill would require the state board to comply with specified public notice and comment and peer review procedures, as prescribed, when establishing or revising notification or response levels.

**Status:** 2/21/2020-From printer. May be heard in committee March 22.

**Location:** 2/20/2020-A. PRINT

**Summary:** Existing law authorizes the Natural Resources Agency and the California Environmental Protection Agency to jointly develop and submit to the Legislature a specified plan for forest and watershed restoration investments in the drainages that supply the Oroville, Shasta, and Trinity Reservoirs, as prescribed. Existing law authorizes those agencies to jointly develop and propose to the relevant policy committees of the Legislature a pilot project for the coordinated, multiagency permitting of specified watershed restoration activities. Existing law establishes the Headwaters Restoration Account in the General Fund and makes the moneys in the account available, upon appropriation by the Legislature, for those forest and watershed restoration purposes. This bill would establish the Watershed Restoration Administration to coordinate and facilitate the restoration and conservation of the watersheds supplying the Oroville, Shasta, and Trinity Reservoirs and to provide grant funding from the Headwaters Restoration Account for those purposes. The bill would require the administration to consist of a 3-member decisionmaking body made up of the Director of Forestry and Fire Protection, or the director's designee; the Director of Fish and Wildlife, or the director's designee; and a representative appointed by the State Water Resources Control Board. The bill would create an advisory body within the administration to facilitate interagency coordination and advise on project selection, as provided.

**Summary:** (1)Existing law requires the Fish and Game Commission to establish fish hatcheries for the purposes of stocking the waters of California with fish, and requires the Department of Fish and Wildlife to maintain and operate those hatcheries. This bill would require the department to develop and implement a plan, in collaboration with specified scientists, experts, and representatives, as part of its fish hatchery operations for the improvement of the survival of hatchery-produced salmon, and the increased contribution of the hatchery program to commercial and recreational salmon fisheries. The bill would make the requirement to develop and implement the plan operative upon appropriation of funds by the Legislature for this purpose. The bill would require the department to complete the development of the plan no later than 2 years after the operative date of the requirement to develop and implement the plan. The bill would require the department to submit to the Legislature a report no later than one year after that operative date that summarizes the progress in developing the plan and another report no later than 3 years after that operative date summarizing the progress made in implementing the plan. The bill would make these provisions inoperative on July 1, 2028, and would repeal them on January 1, 2029.

**Status:** 8/30/2019-Failed Deadline pursuant to Rule 61(a)(12). (Last location was APPR. SUSPENSE FILE on 8/21/2019)(May be acted upon Jan 2020)

**Location:** 8/30/2019-A. 2 YEAR

**Summary:** Existing law, the California Safe Drinking Water Act, provides for the operation of public water systems and imposes on the State Water Resources Control Board various responsibilities and duties. The act authorizes the state board to order consolidation with a receiving water system where a public water system or a state small water system, serving a disadvantaged community, as defined, consistently fails to provide an adequate supply of safe drinking water. The act, if consolidation is either not appropriate or not technically and economically feasible, authorizes the state board to contract with an administrator to provide administrative and managerial services to designated public water systems and to order the designated public water system to accept administrative and managerial services, as specified. This bill would create the Small System Water Authority Act of 2019 and state legislative findings and declarations relating to authorizing the creation of small system water authorities that will have powers to absorb, improve, and competently operate noncompliant public water systems. The bill, no later than March 1, 2020, would require the state board to provide written notice to cure to all public agencies, private water companies, or mutual water companies that operate a public water system that has either less than 3,000 service connections or that serves less than 10,000 people, and are not in compliance, for the period from July 1, 2018, through December 31, 2019, with one or more state or federal primary drinking water standard maximum contaminant levels, as specified. The bill would require the state board to provide a copy of the notice, in the case of a water corporation, to the Public Utilities Commission and would require the Public Utilities Commission to be responsible with the state board for

ensuring compliance with the provisions of the bill. The bill would require an entity receiving the notice to respond to the state board, and, if appropriate, the Public Utilities Commission, as to whether the violations of drinking water standards are remedied and the basis for that conclusion, as specified. The bill would require an entity reporting a continuing violation of drinking water standards to have 180 days from the date of a specified response filed with the state board to prepare and submit a plan to the state board to permanently remedy a violation of drinking water standards within a reasonable time that is not later than January 1, 2025. The bill would require the state board to review the plan and accept, accept with reasonable conditions, or reject the plan, as prescribed. The bill would require an entity with an accepted plan to provide quarterly reports to the state board on progress towards a permanent remedy for violations of drinking water standards and would require the state board to annually hold a public hearing to consider whether the progress is satisfactory. The bill would require the state board, if it rejects the plan or if a plan is not submitted by the prescribed deadline, to cause, after a certain period to allow for a petition for reconsideration, the formation of an authority by the applicable local agency formation commission to serve the customers of the public water system or to remedy the failure to meet the applicable drinking water standards, as specified.

This bill contains other related provisions and other existing laws.

**Location:** 8/30/2019-A. 2 YEAR

**Summary:** Under existing law, the United States Bureau of Reclamation operates the federal Central Valley Project and the Department of Water Resources operates the State Water Project to supply water to persons and entities in the state. Existing law establishes the California Water Commission, consisting of 9 members appointed by the Governor, in the department. This bill would require the commission to make a grant of \$400,000,000 to a specified joint powers authority to restore the capacity of the Friant-Kern Canal, subject to an appropriation. The bill, among other things, would require the grant to be part of a comprehensive solution to groundwater sustainability and subsidence in the San Joaquin Valley and would require the joint powers authority to demonstrate a funding match of at least 35% from user fees, local sources, federal funding, or a combination of these sources.

**Location:** 9/15/2019-A. 2 YEAR

**Summary:** Existing law requires a public water system with 10,000 or more service connections to undertake specified actions, including, among other things, to review and revise its disaster preparedness plan to ensure that it is sufficient to address possible disaster scenarios and, following a declared state of emergency, to furnish an assessment of its emergency response within 6 months thereafter and implement related recommendations in a timely manner. Existing law also requires the Office of Emergency Services to establish emergency response and recovery plans in coordination with public water systems. This bill would instead require an urban water supplier, as defined, to review and revise its emergency response plan as required by federal law. The bill would require the Office of Emergency Services to establish emergency response and recovery plans in coordination with urban water suppliers. Because the bill would require local agencies to perform additional duties, the bill would impose a state-mandated local program.

This bill contains other related provisions and other existing laws.

**Location:** 1/15/2020-S. N.R. & W.

**Calendar:** 3/24/2020 9:30 a.m. - Room 112 SENATE NATURAL RESOURCES AND WATER, STERN, Chair

**Summary:** Under existing law, the State Water Resources Control Board administers a water rights program pursuant to which the board grants permits and licenses to appropriate water. Existing law requires an application for a permit to appropriate water to include, among other things, sufficient information to demonstrate a reasonable likelihood that unappropriated water is available for the proposed appropriation. Existing law requires the board to issue and deliver a notice of an application as soon as practicable after the receipt of an application for a permit to appropriate water that conforms to the law. Existing law allows interested persons to file a written protest with regard to an application to appropriate water and requires the protestant to set forth the objections to the application. Existing law declares that no hearing is necessary to issue a permit in connection with an unprotested application, or if the undisputed facts support the issuance of the permit and there is no disputed issue of material fact, unless the board elects to hold a hearing. This bill, if the board has not rendered a final determination on an application for a permit to appropriate water within 30 years from the date the application was filed, would require the board to issue a new notice and provide an opportunity for protests before rendering a final determination, with specified exceptions.

Introduced: 2/18/2020 [html](#) [pdf](#))

**Status:** 2/27/2020-Referred to Com. on EQ.

**Location:** 2/27/2020-S. E.Q.

**Summary:** Existing law, the California Safe Drinking Water Act, requires the State Water Resources Control Board to administer provisions relating to the regulation of drinking water to protect public health, including, but not limited to, conducting research, studies, and demonstration programs relating to the provision of a dependable, safe supply of drinking water, enforcing the federal Safe Drinking Water Act, and adopting implementing regulations. The implementing regulations are required to include, but are not limited to, the monitoring of contaminants, including the type of contaminant, the frequency and method of sampling and testing, and the reporting of results. This bill would require the state board, on or before January 1, 2022, to certify a methodology or methodologies for testing drinking water, groundwater, and surface water for perfluoroalkyl and polyfluoroalkyl substances, as provided, and to accredit qualified laboratories in California to analyze perfluoroalkyl and polyfluoroalkyl substances pursuant to the adopted methodology or methodologies.

This bill contains other existing laws.

**SB 1096 (Caballero D) Water and sewer system corporations: consolidation of service. (**

Introduced: 2/19/2020 [html](#) [pdf](#))

**Status:** 2/27/2020-Referred to Coms. on E., U. & C. and EQ.

**Location:** 2/27/2020-S. E. U., & C.

**Summary:** The Public Utilities Act prohibits, with certain exemptions, any public utility from selling, leasing, assigning, mortgaging, or otherwise disposing of or encumbering specified property necessary or useful in the performance of the public utility's duties to the public without first, for qualified transactions valued above \$5,000,000, securing an order from the Public Utilities Commission authorizing it to do so or, for qualified transactions valued at \$5,000,000 or less, filing an advice letter and obtaining approval from the commission. This bill, the Consolidation for Safe Drinking Water Act of 2020, would authorize a water or sewer system corporation to file an application and obtain approval from the commission through an order authorizing the water or sewer system corporation to consolidate with a public water system or state small water system. The bill would require the commission to approve or deny the application within 8 months, except as provided.

This bill contains other existing laws.

**SB 1099 (Dodd D) Emergency backup generators: critical facilities: exemption. (**

Introduced: 2/19/2020 [html](#) [pdf](#) )

**Status:** 2/27/2020-Referred to Com. on EQ.

**Location:** 2/27/2020-S. E.Q.

**Summary:** Existing law imposes various limitations on emissions of air contaminants for the control of air pollution from vehicular and nonvehicular sources. Existing law generally designates air pollution control and air quality management districts with the primary responsibility for the control of air pollution from all sources other than vehicular sources. Existing law requires the State Air Resources Board to identify toxic air contaminants that are emitted into the ambient air of the state and to establish airborne toxic control measures to reduce emissions of toxic air contaminants from nonvehicular sources. This bill, consistent with federal law, would require air districts to adopt a rule, or revise its existing rules, to allow critical facilities with a permitted emergency backup generator to use that emergency backup generator during a deenergization event or other loss of power, and to test and maintain that emergency backup generator, as specified, without having that usage, testing, or maintenance count toward that emergency backup generator's time limitation on actual usage and routine testing and maintenance. The bill would prohibit air districts from imposing a fee on the issuance or renewal of a permit issued for those critical facility emergency backup generators. By requiring air districts to adopt a new permitting program for those critical facility emergency backup generators, the bill would impose a state-mandated local program. The bill also would define certain terms for purposes of these provisions.

This bill contains other related provisions and other existing laws.

**SB 1101 (Caballero D) Water and Climate Science Advisory Board. ( Introduced: 2/19/2020 [html](#) [pdf](#) )**

**Status:** 2/20/2020-From printer. May be acted upon on or after March 21.

**Location:** 2/19/2020-S. RLS.

**Summary:** Existing law establishes the Department of Water Resources within the Natural Resources Agency and prescribes the jurisdiction and various general administrative authorities and duties of the department regarding, among other things, matters pertaining to water resources and dams in the state. This bill would require the department to convene a Water and Climate Science Advisory Board to consist of an unspecified number of members with certain qualifications, appointed by an unspecified method, serving no more than an unspecified number of terms of unspecified length. The bill would require the board to meet an unspecified number of times per year. The bill would require the department to consult with the board when initiating, reviewing, or expanding policies or guidelines regarding impacts of climate change on water resources. The bill would require the department to establish an internal process for department review of and comment

on the work of the board, which shall be made publicly available.

**[SB 1188](#) ([Stern D](#)) **The California Water Plan.** ( Introduced: 2/20/2020 [html](#) [pdf](#) )**

**Status:** 2/21/2020-From printer. May be acted upon on or after March 22.

**Location:** 2/20/2020-S. RLS.

**Summary:** Existing law requires the Department of Water Resources to update every 5 years the plan for the orderly and coordinated control, protection, conservation, development, and use of the water resources of the state, which is known as The California Water Plan. Existing law requires the department to include a discussion of various strategies in the plan update, including, but not limited to, strategies relating to the development of new water storage facilities, water conservation, water recycling, desalination, conjunctive use, water transfers, and alternative pricing policies that may be pursued in order to meet the future needs of the state. This bill would require the department to include in the plan update, instead of a discussion of various strategies, a discussion of various strategies for increasing regional water resilience. The bill would also make nonsubstantive changes.

**[SB 1217](#) ([Dahle R](#)) **Urban water use targets: indoor residential water use.** ( Introduced: 2/20/2020 [html](#) [pdf](#) )**

**Status:** 2/21/2020-From printer. May be acted upon on or after March 22.

**Location:** 2/20/2020-S. RLS.

**Summary:** Existing law requires the state to achieve a 20% reduction in urban per capita water use in California by December 31, 2020. Existing law requires each urban retail water supplier to develop urban water use targets and an interim urban water use target, as specified, and states the intent of the Legislature that the urban water use targets cumulatively result in a 20% reduction from the baseline daily per capita water use by December 31, 2020. Existing law requires an urban retail water supplier to adopt one of specified methods for determining its urban water use target, including estimating the per capita daily water use using the sum of 55 gallons per capita daily for indoor residential water use and a specified water efficiency standard for landscape irrigation use. This bill would revise that method of estimating the per capita daily water use to require an urban retail water supplier to use, instead of 55 gallons per capita daily for indoor residential water use, a standard that complies with the urban retail water supplier's own criteria for indoor residential water use.

**Notes 1:**

**SB 1280 (Monning D) Drinking water: consolidation and extension of service: at-risk water systems.** ( Introduced: 2/21/2020 [html](#) [pdf](#) )

**Status:** 2/24/2020-From printer. May be acted upon on or after March 25. Read first time.

**Location:** 2/21/2020-S. RLS.

**Summary:** Existing law, the California Safe Drinking Water Act, provides for the operation of public water systems and imposes on the State Water Resources Control Board various responsibilities and duties. The act authorizes the state board to contract with, or provide a grant to, an administrator to provide administrative, technical, operational, legal, or managerial services, or any combination of those services, to a designated water system to assist with the provision of an adequate supply of affordable, safe drinking water. The act authorizes the state board to order consolidation with, or extension of service from, a receiving water system if a public water system or state small water system serving a disadvantaged community consistently fails to provide an adequate supply of safe drinking water or if a disadvantaged community is substantially reliant on domestic wells that consistently fail to provide an adequate supply of safe drinking water. The act requires the state board, no later than July 1, 2020, to develop and adopt a policy that provides a process by which members of a disadvantaged community may petition the state board to consider ordering consolidation. This bill would authorize the state board to order consolidation between a receiving water system and an at-risk water system, as defined, upon receipt of a petition that substantially conforms to the above-referenced policy adopted by the state board and that is either approved by the water system's governing body or signed by at least 30% of the households served by the water system. For purposes of that provision, the bill would authorize the state board to contract with a technical assistance provider or appoint an administrator to provide information to a community regarding the petition process, to assist with the preparation of a petition, or to evaluate whether a water system is an at-risk water system.

**Notes 1:**

**[SB 1388](#)** (**Rubio D**) **State Water Resources Control Board: powers.** ( Introduced: 2/21/2020 [html](#) [pdf](#) )

**Status:** 2/24/2020-From printer. May be acted upon on or after March 25. Read first time.

**Location:** 2/21/2020-S. RLS.

**Summary:** The California Constitution declares that the general welfare requires that the water resources of the state be put to beneficial use to the fullest extent of which they are capable, and that the right to the use of water does not extend to the waste or unreasonable use, method of use, or method of diversion of water. Existing law requires the Department of Water Resources and the State Water Resources Control Board to take all appropriate action to prevent waste, unreasonable use, an unreasonable method of use, or an unreasonable method of diversion of water. Existing law authorizes the board to investigate bodies of water, to take testimony in regard to the rights to water or the use of water, and to ascertain whether or not water is appropriated under the law. This bill would make nonsubstantive changes in the provisions relating to the authorization of the board to take that testimony and ascertain whether water has been appropriated.

MEMORANDUM

TO: STEVE COLE, SANTA CLARITA VALLEY WATER AGENCY

FROM: HUNT BRALY

RE: February 2020 Report

DATE: 3-9-2020

I have provided a synopsis of activities performed on behalf of the Agency in February.

1. Continued to work with staff regarding PFAS Contamination issue.
2. Continued to work with staff and Dennis Albiani to discuss our potential projects for funding in Sacramento. Reached out to Legislative offices
3. Continued to participate in efforts with Federal Advocates potential federal legislation and funding opportunities.
4. Continued to work with staff on Groundwater Management Committee.
5. Worked with KHTS and Senator Wilk's office regarding meeting schedule for March Sacramento trip.
6. Worked with staff on April 17 Water Conference.
7. Began initial planning of Legislative Staff Briefing in June.

**RECURRING ACTIVITIES/MEETING ATTENDANCE:**

8. Participated in meeting as a Member of the Safe, Clean Water Program (Measure W) Watershed Area Steering Committee Santa Clara River on February 6.

The meeting primarily focused on the presentation by Richard Watson the consultant preparing the Scientific Study to limit the Health impacts of Bacteriological contamination. There were concerns expressed about the impact of this study in rural communities like Acton and Aqua Dulce and whether the results could be used by regulatory agencies regarding septic tank issues. There was also concern regarding what would happen if not all of the Watersheds participated in this Study. Mr. Richard Watson said the key is finding two or three human markers that is acceptable from the Regional Water Quality Control Board and the community that proves it is contributed to harmful pollutants

Participated in meeting as a Member of the Safe, Clean Water Program (Measure W) Watershed Area Steering Committee Santa Clara River on February 20

It was reported that the Newhall Park project proposed by the City of Santa Clarita had exceeded the scoring threshold by the Scoring Committee and could be considered for funding. Additional information was provided by Bruce Hamamoto with Los Angeles County in response to the Hasley Canyon storm water improvement project questions asked at a previous Committee meeting, stating that the project conducted a modeling exercise involving hydrology, taking into account existing site conditions and any constraints, and what efforts [project size, stormwater improvement type(s)] are required to meet the Total Page 2

Page 2

February 2020 Report

3-9-2020

Maximum Daily Load (TMDL) thresholds. Mr. Hamamoto provided a handout. Ms. Sandra Cattell asked if any DNA testing was done on the bacteria sources, and Mr. Hamamoto stated no DNA testing was done; only fecal indicator bacteria (FIB) testing was done as the Rich Watson bacteria special study would consider bacteria sources. There was also further discussion on the amount of funds available for the two approved projects. Final recommendations will be made at upcoming meetings and is subject to approval by the Board of Supervisors.

#### 9. Monitored City Council Meeting on February 11

Very light agenda with only 5 consent items and the only public item appointing a delegate to the Southern California Association of Governments.

#### Monitored City Council Meeting on February 25.

Also a very light agenda with 8 consent items and the only public items the extension of the moratorium on drive through restaurants and the confirmation of Council Committee appointments. The moratorium had no public speakers and it appears there is limited opposition as the city reviews its planning standards since there remains a process for applicants to show their project will not impact adjoining businesses or public streets through a study.

Finally, the City has received another letter claiming the City is violating the California Voting Rights Act and calling for the City to institute district elections in time for this November's election. The Council will have to respond in March.

#### 10. Monitored and reviewed Agency Board Agendas.

#### 11. Reviewed daily emails regarding articles of interest from Agency.
