**NEWS RELEASE**

**DATE: May 9, 2022**

**FOR IMMEDIATE RELEASE**

## **SIGN UP FOR IRRIGATION BASICS FOR A SUSTAINABLE LANDSCAPE CLASS SET FOR MAY 14**

Even though the mega-drought is here, you can still effectively irrigate your landscape. Join our FREE virtual gardening class, Irrigation Basics for a Sustainable Landscape, on Sat., May 14, at 9 a.m. This class focuses on drip irrigation, its uses, components, and how to install a drip system in your landscape.

For many, landscape irrigation can seem tricky, but it doesn't have to be. Register to learn why switching to a more sustainable way to irrigate your landscape is water-wise and accessible from our expert teacher, John Windsor, a Certified Arborist and California Certified Nurseryman.

"Irrigation basics emphasizes irrigation system anatomy, troubleshooting, and efficiency," said Tim Wheeler, owner and head instructor of The Wheeler Company. "It has never been more important than now, with the persistent drought, to ensure that water being used to irrigate the landscape is used efficiently."

Attendees can expect the class to last about an hour, followed by a question and answer session. And don't worry if you missed the live course – all presentations are recorded and available for viewing on our website one week after the class.

The gardening classes are free, but attendees must register before the event. To register for the Irrigation Basics for a Sustainable Landscape class or to view our 2022 class schedule, visit: [yourscvwater.com/gardening-classes/](http://yourscvwater.com/gardening-classes/).

###

**About SCV Water:**

The Santa Clarita Valley Water Agency (SCV Water) is a full-service regional water agency located in the Santa Clarita Valley. SCV Water provides water service to approximately 75,000 business and residential customers. It was formed on January 1, 2018, when local water suppliers combined into one integrated, regional water provider. More information can be found at [www.yourSCVwater.com](http://www.yourSCVwater.com).
