WHITTAKER-BERMITE REMEDIATION PROJECT MULTI-JURISDICTIONAL TASK FORCE MEETING
Wednesday, Nov 7, 2018, 3:30 PM
Santa Clarita City Hall, 1st Floor, Century Room

Meeting lead by Laurene Weste, about 30 people in attendance, including representatives from DTCS, Whittiker, James Leserman, Kathy Martin, City Staff, and members of the general public.

STATUS REPORT – SOIL AND GROUNDWATER INVESTIGATION AND REMEDIATION WORK (Hassan Amini) and DTSC REPORT (Jose Diaz) – Soil is nearly completed; water will take up to 40 years. Maps were passed out indicating areas that have been cleared and those that still need to be cleaned up. They have been updated to the DTSC website along with the most recent quarterly report. SCVWA's James Leserman - update and discussion of VOC's in various wells (Saugus 1 and 2 , V201 and 205)

Several questions from the public regarding status of wells, spread of pollution in Orofino Cyn (none) streambed alteration mitigation.

NEXT MEETING – March 6th, 2019, 3:30 P.M. – Santa Clarita City Hall, 1st Floor, Century Conference Room
