

AB 1234 Report

Director Ed Colley

30 March 2023

23 March 2023 – I met with lawyers from BB&K (virtually) to discuss the land transfer to Woodside Limited Partnership. We discussed my legal concerns as well as my concerns with the open session presentation to the board. We concluded that some improvements could be made.

29 March 2023 – I attended a tour of the United Water Conservation District facilities in Ventura County. We toured the Lake Piru recreation area, spillway, and dam. We also visited their diversion project and spreading ponds as well as their well field and treatment projects.
