

# ENGINEERING AND OPERATIONS COMMITTEE MEETING

# Thursday, September 1, 2022 Meeting Begins at 5:30 PM

Members of the public may attend by the following options:

#### In Person

Santa Clarita Valley Water Agency Engineering Services Section Boardroom 26521 Summit Circle Santa Clarita, CA 91350

#### **By Phone**

Toll Free: 1-(833)-568-8864 Webinar ID: 160 124 7891

#### **Virtually**

Please join the meeting from your computer, tablet or smartphone:

https://scvwa.zoomgov.com/j/1601247891

#### **Have a Public Comment?**

Members of the public unable to attend this meeting may submit comments either in writing to eadler@scvwa.org or by mail to Elizabeth Adler, Executive Assistant, Santa Clarita Valley Water Agency, 26521 Summit Circle, Santa Clarita, CA 91350. All written comments received before 4:00 PM the day of the meeting will be distributed to the Committee members and posted on the Santa Clarita Valley Water Agency website prior to the start of the meeting. Anything received after 4:00 PM the day of the meeting will be made available at the meeting, if practicable, and will be posted on the SCV Water website the following day. All correspondence with comments, including letters or emails, will be posted in their entirety.

(Public comments take place during Item 2 of the Agenda and before each Item is considered. Please see the Agenda for details.)

This meeting will be recorded and the audio recording for all Committee meetings will be posted to <u>yourscvwater.com</u> within 3 business days from the date of the Committee meeting.

Disclaimer: Attendees should be aware that while the Agency is following all applicable requirements and guidelines regarding COVID-19, the Agency cannot ensure the health of anyone attending a Board meeting. Attendees should therefore use their own judgment with respect to protecting themselves from exposure to COVID-19.

**Date:** August 18, 2022

To: Engineering and Operations Committee

William Cooper, Chair

Jeff Ford Gary Martin

Piotr Orzechowski Lynne Plambeck

From: Courtney Mael, Chief Engineer

Keith Abercrombie, Chief Operating Officer

The Engineering and Operations Committee meeting is scheduled on Thursday, September 1, 2022 at 5:30 PM at 26521 Summit Circle, Santa Clarita, CA 91350 in the Engineering Services Section (ESS) Boardroom. Members of the public may attend in person or virtually. To attend this meeting virtually, please see below.

#### **IMPORTANT NOTICES**

This meeting will be conducted in person at the address listed above. As a convenience to the public, members of the public may also participate virtually by using the <u>Agency's Call-In</u> <u>Number 1-(833)-568-8864, Webinar ID: 160 124 7891 or Zoom Webinar by clicking on the link https://scvwa.zoomgov.com/j/1601247891</u>. Any member of the public may listen to the meeting or make comments to the Committee using the call-in number or Zoom Webinar link above. However, in the event there is a disruption of service which prevents the Agency from broadcasting the meeting to members of the public using either the call-in option or internet-based service, this meeting will not be postponed or rescheduled but will continue without remote participation. The remote participation option is being provided as a convenience to the public and is not required. Members of the public are welcome to attend the meeting in person.

Attendees should be aware that while the Agency is following all applicable requirements and guidelines regarding COVID-19, the Agency cannot ensure the health of anyone attending a Committee meeting. Attendees should therefore use their own judgment with respect to protecting themselves from exposure to COVID-19.

Members of the public unable to attend this meeting may submit comments either in writing to eadler@scvwa.org or by mail to Elizabeth Adler, Executive Assistant, Santa Clarita Valley Water Agency, 26521 Summit Circle, Santa Clarita, CA 91350. All written comments received before 4:00 PM the day of the meeting will be distributed to the Committee members and posted on the Santa Clarita Valley Water Agency website prior to the start of the meeting. Anything received after 4:00 PM the day of the meeting, will be made available at the meeting, if practicable, and will be posted on the SCV Water website the following day. All correspondence with comments, including letters or emails, will be posted in their entirety.

#### **MEETING AGENDA**

<u>ITEM</u>			<u>PAGE</u>
1.		PLEDGE OF ALLEGIANCE	
2.		PUBLIC COMMENTS – Members of the public may comment as to items within the subject matter jurisdiction of the Agency that are not on the Agenda at this time. Members of the public wishing to comment on items covered in this Agenda may do so at the time each item is considered. (Comments may, at the discretion of the Committee Chair, be limited to three minutes for each speaker.)	
3.	*	Real Property Activity Presentation	1
4.	*	Wireless Communications Rental Program Informational Presentation	5
5.	*	Recommend Authorizing the General Manager to Execute a Contract with TriPointe Homes Holdings, Inc. for SCV Water's Fair Share Costs for the Construction of a 2.08 MG Prestressed Concrete Tank for the Deane Zone, including Construction Quality Assurance and Control Testing, Construction Inspections, and Engineering Services During Construction	13
6.	*	Monthly Operations and Production Report	27
7.	*	Capital Improvement Projects Construction Status Report	129
8.	*	Committee Planning Calendar	131
9.		General Report on Treatment, Distribution, Operations and Maintenance Services Section Activities	
10.	*	General Report on Engineering Services Section Activities	135
11.		Adjournment	
*		Indicates Attachment	
•		Indicates Handout	

#### **NOTICES:**

Any person may make a request for a disability-related modification or accommodation needed for that person to be able to participate in the public meeting by telephoning Elizabeth Adler, Executive Assistant, at (661) 297-1600, or in writing to Santa Clarita Valley Water Agency at 26521 Summit Circle, Santa Clarita, CA 91350. Requests must specify the nature of the disability and the type of accommodation requested. A telephone number or other contact information should be included so that Agency staff may discuss appropriate arrangements. Persons requesting a disability-related accommodation should make the request with adequate time before the meeting for the Agency to provide the requested accommodation.

August 18, 2022 Page 3 of 3

Pursuant to Government Code Section 54957.5, non-exempt public records that relate to open session agenda items and are distributed to a majority of the Committee less than seventy-two (72) hours prior to the meeting will be available for public inspection at the Santa Clarita Valley Water Agency, located at 27234 Bouquet Canyon Road, Santa Clarita, CA 91350, during regular business hours. When practical, these public records will also be made available on the Agency's Internet Website, accessible at http://www.yourscvwater.com.

#### COMMITTEE MEMORANDUM

**DATE:** August 23, 2022

**TO:** Engineering and Operations Committee

FROM: Courtney Mael, P.E

Chief Engineer

**SUBJECT** Recommend Authorizing the General Manager to Execute a Contract with

TriPointe Homes Holdings, Inc. for SCV Water's Fair Share Costs for the Construction of a 2.08 MG Prestressed Concrete Tank for the Deane Zone, including Construction Quality Assurance and Control Testing, Construction

Inspections, and Engineering Services During Construction

#### **SUMMARY**

Staff recommends that the General Manager be authorized to execute a contract with TriPointe Homes Holdings, Inc. for SCV Water's Fair Share Costs for the Construction of a 2.08 MG prestressed concrete tank for the Deane Zone at Skyline Ranch, including Construction Quality Assurance and Control Testing, Construction Inspections, and Engineering Services During Construction This project provides a portion of the necessary improvements to emergency storage for the Deane Zone identified in the 2013 Water Master Plan for the Santa Clarita Water Division (SCWD). This project also helps meet an SCV Water Strategic Goal for infrastructure reliability by building storage capacity that can be used to sustain water service during emergencies.

#### **DISCUSSION**

The 2013 Water Master Plan (WMP) for the Santa Clarita Water Division recommends construction of new storage facilities to address existing deficiencies in the Deane Pressure Zone that provides water to the east side of our service area. The 2013 WMP identifies an existing storage deficiency of 4.22 MG in the Deane Zone. In addition, the Skyline Ranch development (Tract 60922) will add 0.87 MG of new storage demand for a combined storage deficiency of 5.09 MG in the Deane Zone (Planning Phase Hydraulic Analysis by Civiltec, April 13, 2021). SCV Water is planning a phased Capital Improvement Plan to build three new tanks (at two sites) to address the storage deficiencies and new demands in the Deane Zone. These projects are being done in conjunction with new developments that are underway or planned over approximately the next 3 to 5 years to take advantage of developer contributions to the projects.

A new 2.08 MG prestressed concrete tank will be constructed at the Nimbus Site within the Skyline Ranch development to address the Deane Zone storage demands from Skyline Ranch (0.87 MG), and a portion of the existing Deane Zone deficiencies (1.21 MG). The developer and SCV Water will each pay their fair share of the costs to construct the new tank and associated appurtenances based on the percent of storage required. The developer will contribute 41.8% of the costs, and SCV Water will contribute 58.2% of the costs. Since the developer is required to furnish water storage for the Skyline Ranch development, the developer will lead the bidding

and construction of the Deane tank under the terms and conditions of an agreement with SCV Water, with cost reimbursement by SCV Water not to exceed our fair share of the costs. As a condition of the agreement, the developer will provide and fund the land (via grant deed), access road (via easement), graded pad, and electric service for the tank site solely at their cost. The developer's schedule for buildout of the Skyline Ranch (Deane Zone portion) dictates that construction of the new tank start in September 2022 and be completed by year end 2023.

The developer has conducted a public bid process for the tank. The project was advertised for bids in the Press Enterprise on May 18, 2022 and May 25, 2022. Five bids were received and opened at the developer's office on June 21, 2022. A summary of the bids is presented below.

Bidder	Bidder Location	Bid Price
Pacific Hydrotech Corporation	Perris, CA	\$6,095,700
Gateway Pacific Contractors	Sacramento, CA	\$6,150,000
Canyon Springs Enterprises	Hemet, CA	\$6,655,000
Metro Builders & Engineers Group	Newport Beach, CA	\$7,730,299
Central Environmental, Inc.	Las Vegas, NV	\$8,518,910

The developer and SCV Water staff reviewed the bids for compliance with the bid and contract requirements and recommends award to Pacific Hydrotech Corporation (Pacific Hydrotech) as the lowest responsible bidder. Pacific Hydrotech is licensed as a Class A General Engineering Contractor in California and is registered with the Department of Industrial Relations. DN Tanks will perform prestressing of the rebar as a subcontractor to Pacific Hydrotech. Pacific Hydrotech has constructed five prestressed concrete tanks in the last 5 years ranging in size from 0.5 MG to 4 MG.

Pacific Hydrotech's bid includes \$728,100 for the items that are funded solely by the developer for bonds, insurance, earthwork, retaining walls, slopes, paving and driveway entrance. The remaining \$5,367,600 will be cost shared between the developer and SCV Water at the respective fair share amounts. SCV Water will contribute \$3,123,943 (or 58.2%) and the developer will contribute \$2,243,657 (or 41.8%). SCV Water's contribution will be paid as a reimbursement to the developer as construction work is completed.

Under the terms of the agreement between SCV Water and the developer, SCV Water may compare the selected contractor bid to the design engineer's cost estimate as a check for reasonableness of the bid. The design engineer's (Cannon Corporation) estimate for construction was \$6,099,000 based on final construction plans for the tank and associated appurtenances, excluding items solely funded by the developer. The final plans include construction of the tank complete with yard piping, staircase, electrical and instrumentation. Based on comparison to the engineer's estimate, SCV Water staff concludes that Pacific Hydrotech's bid is reasonable.

Construction inspection services will be performed by in-house SCV Water inspectors. The estimated costs for SCV Water inspections are \$429,408 or 8% of the estimated construction costs and will be cost shared with the developer. SCV Water will contribute \$249,915 (or 58.2%) and the developer will contribute \$179,493 (or 41.8%). The developer contribution will be paid to SCV Water as a deposit prior to the start of construction.

Construction quality assurance and control testing is needed to verify that the materials used and the workmanship of the installation conform to the contract requirements. This service is

typically provided by geotechnical consultants that specialize in testing soils, concrete, steel, asphalt and masonry, including field and laboratory analysis. SCV Water does not have the specialized staff or equipment to perform this testing. The developer has selected LGC Valley (LGC) based on qualifications and price. LGC's not-to-exceed budget for this work is \$115,000 and will be cost shared with the developer. SCV Water will contribute \$66,930, which is within the General Manager's approval authority. SCV Water's contribution will be paid as a reimbursement to the developer as services are performed.

SCV Water retained Cannon Corporation (Cannon) to serve as the Engineer of Record, meaning they are in responsible charge of the preparation and sealing of the tank construction plans. Their role extends into construction by providing technical support to address field changes that may be needed, and to serve as liaison with the construction team. Staff received a proposal from Cannon, to perform engineering services during construction, which includes review of submittals, response to requests for information (RFIs), attending various construction meetings and site visits, and preparing final as-builts based on contractor markups. Cannon's proposal is \$82,057 and will be cost shared with the developer. SCV Water's will contribute \$47,757 which is within the General Manager's approval authority. The developer contribution will be paid to SCV Water as a deposit prior to the start of construction.

#### **CEQA CONSIDERATIONS**

The County of Los Angeles is the Lead Agency under the California Environmental Quality Act (CEQA) for the Skyline Ranch Development project. The County prepared an Environmental Impact Report (EIR) for the Skyline Ranch project pursuant to CEQA provisions. The EIR included all the water infrastructure required for the Skyline Ranch project. The Final EIR was approved by the Los Angeles County Board of Supervisors on December 7, 2010. The Notice of Determination was filed with Los Angeles County Clerk on December 9, 2010.

#### FINANCIAL CONSIDERATIONS

SCV Water's fair share of the construction project is included in the Agency's Capital Improvement Plan Budget for FY2022/23 (\$3,500,000). The project's total estimated cost for construction, including construction quality assurance and control testing, construction inspections, and engineering services during construction is \$5,564,657. SCV Water's fair share costs are \$3,488,546. The developer's fair share costs are \$2,505,519, plus \$728,100 for sole source items.

#### **RECOMMENDATION**

That the Engineering and Operations Committee recommends that the Board of Directors authorize the General Manager to execute a contract with TriPointe Homes Holdings, Inc. for SCV Water's fair share costs in the not-to-exceed amount of \$3,488,546 for the construction of a 2.08 MG prestressed concrete tank for the Deane Zone at Skyline Ranch, including construction quality assurance and control testing, construction inspections, and engineering services during construction.

# Santa Clarita Valley Water Agency Capital Improvement Projects (CIP) Construction Status Report As of August 15, 2022

Project	Contractor	Original Contract Amount	Change Orders to Date	% Change Orders	Current Contract Amount	Scheduled Completion	Estimated % of Work Completed	Status
Vista Canyon Recycled Water Main Extension (Phase 2B)	Ferreira Construction Co, Inc.	\$2,752,982	(\$168,872)	(6.1%)	\$2,584,110	August 31, 2022	95%	Contractor is installing pipeline across bridge. Owl's nest was removed and will placed back into opening per California Fish & Wildlife notification once pipeline installation is completed.
Vista Canyon (Phase 2B) Recycled Water Tanks	Pacific Tank and Construction, Inc.	\$3,906,870	\$379,838,76	9.78%	\$4,286,708.76	September 30, 2022	90%	Construction is in progress.
Valley Center Well PFAS Groundwater Treatment Improvements Material Purchase	Evoqua Water Technologies, LLC.	\$512,802	\$0	0%	\$512,802	September 30, 2022	90%	Equipment start-up anticipated to occur in September 2022.
Valley Center Well PFAS Groundwater Treatment Improvements Site Construction	GSE Construction Company, Inc.	\$2,996,800	\$264,653.83	8.8%	\$3,261,453.83	September 30, 2022	85%	Construction is in progress.
Commerce Center Drive Pipeline	FivePoint / Blois Construction, Inc.	\$891,139.70	\$0	0%	\$891,139.70	October 31, 2022	99%	Construction close-out is in progress.
Magic Mountain Pipeline Phase 4	FivePoint / Toro Enterprises	\$3,084,725	\$204,934.56	6.6%	\$3,289,659.56	October 31, 2022	98%	Construction is in progress.
Magic Mountain Pipeline Phase 5	FivePoint / Toro Enterprises	\$3,269,978.85	\$0	0%	\$3,269,978.85	October 31, 2022	90%	Construction is in progress.

Project	Contractor	Original Contract Amount	Change Orders to Date	% Change Orders	Current Contract Amount	Scheduled Completion	Estimated % of Work Completed	Status
Magic Mountain Pipeline Phase 6A	FivePoint / Toro Enterprises	\$7,168,844.85	\$0	0%	\$7,168,844.85	November 30, 2022	83%	Construction is in progress.
Magic Mountain Pipeline Phase 6B	FivePoint / Leatherwood Construction	\$4,568,687.07	\$0	0%	\$4,568,687.07	November 30, 2022	90%	Construction is in progress.
Saugus #3 & #4 Wells Construction (Replacement Wells)	Zim Industries, Inc.	\$12,751,494	\$0	0%	\$12,751,494	June 2, 2023	1%	Well drilling permit obtained. Drill rig to be setup 9/5.
Santa Clara & Honby Wells PFAS Groundwater Treatment Improvements Material Purchase	Aqueous Vets	\$814,050	\$0	0%	\$814,050	August 15, 2023	25%	Material fabrication is in progress.
Santa Clara & Honby Wells PFAS Groundwater Treatment Improvements Site Construction	Pacific Hydrotech Corporation	\$8,486,950	\$0	0%	\$8,486,950	August 15, 2023	1%	Material submittals are in progress.
ESFP Washwater Return Improvements	Pacific Hydrotech Corporation	\$17,526,700	\$0	0%	\$17,526,700	November 30, 2023	5%	Construction is in progress.
Pitchess Pipeline Modifications	Los Angeles County Metropolitan Transportation Authority	\$159,000	\$0	0%	\$159,000	May 2024	0%	Pipeline modifications scheduled to start February 2024.

## Water Availability Requests

**Engineering and Operations Committee Meeting** 

# Water Availability applies within our SCV Water Service Area

TER.COM

YOURSCVWATER.COM

## Water Availability Request

### Purpose:

To determine if SCV Water has adequate water supply and infrastructure to serve a new development

### **Developer Request:**

To request water service for a particular development, as required by City or County<sup>(1)</sup>

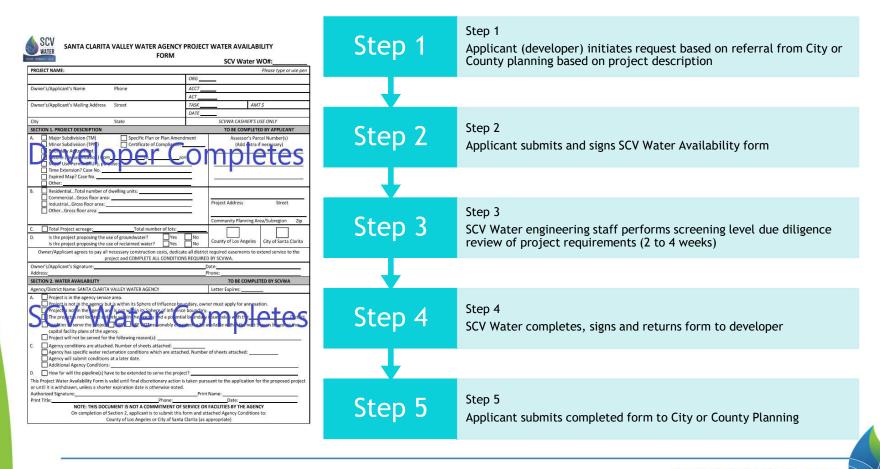

### Agency Response<sup>(2)(3)</sup>:

Confirms or identifies supply and infrastructure required to serve the development, subject to certain conditions

- (1) City and Counties are land use agencies
- (2) Agency response is NOT a commitment of service or facilities
- (3) Basis: Urban Water Management Plan and Master Plans

## The Water Availability Process at SCV Water

YOURSCVWATER.COM

# Water Availability Determination

- A Service Area
- B Infrastructure
- C Conditions
- D Pipeline(s) Extension

SECTION 2. WATER AVAILABILITY	TO BE COMPLETED BY SCVWA										
Agency/District Name: SANTA CLARITA VALLEY WATER AGENCY	Letter Expires:										
<ul> <li>A. Project is in the agency service area.</li> <li>Project is not in the agency but is within its Sphere of Influence boundary, own</li> <li>Project is not in the agency and is not within its Sphere of Influence boundary.</li> <li>The project is not located entirely within the agency and a potential boundary.</li> </ul>	,										
<ul> <li>B.</li></ul>	·										
<ul> <li>C. Agency conditions are attached. Number of sheets attached:</li></ul>											
D. How far will the pipeline(s) have to be extended to serve the project?											
This Project Water Availability Form is valid until final discretionary action is taken pursuant to the application for the proposed project or until it is withdrawn, unless a shorter expiration date is otherwise noted.											
Authorized Signature:Print	Name:										
Print Title:Phone:	Date:										
NOTE: THIS DOCUMENT IS NOT A COMMITMENT OF SERVICE OR	FACILITIES BY THE AGENCY										
On completion of Section 2, applicant is to submit this form and att	ached Agency Conditions to:										
County of Los Angeles or City of Santa Clarita (as a	ppropriate)										

YOURSCVWATER.COM

## Some Key Conditions for Water Availability

**ENGINEERING** 

26521 Summit Circle, Santa Clarita, CA 91350-3049

(661) 297-1600 | yourSCVwater.com

#### Santa Clarita Valley Water Agency Conditions for Water Availability

- 1. Developer shall submit to Agency a set of construction improvement plans, and fire department requirements for the Development. This will enable Agency to determine distribution system and other water facilities required for the Development in accordance with Agency rules. The Development may require the installation of a reservoir, water mains, services or other appurtenances, or may require improvements to the existing source of supply, which improvements shall be the responsibility of Developer. Fire flow requirements shall be determined by the regulatory agency with applicable jurisdiction (e.g., Los Angeles County Fire Department). The size and scope of any facilities required to deliver adequate fire flow will be determined by the Agency.
- 2. Developer shall grant Agency all easements and, if necessary, sites for facilities required for water service to the Development, together with a policy of title insurance acceptable to the Agency, guaranteeing Agency's title to and interest in such easements. Developer will be responsible for all fees and charges associated with preparation and recordation of the easements.
- Pursuant to the requirements of the Agency, Developer shall pay all required fees and charges, including any required deposit amounts, in order to develop planning documents, prepare or process plans and designs, and to complete construction of on-site and off-site improvements required for under cancel on the Development
- 4. Developer shall comply with all of the Agency's rules and regulations governing water service and development in force at the time water service is requested, as those rules may be amended from time to time. Developer acknowledges that all water service pursuant to this letter and to the Development shall be in accordance with Agency rules and regulations.
- The provision of water service to the Development is conditioned upon the Developer meeting all requirements of any other governmental entity having jurisdiction over the Development.
- Developer acknowledges and agrees that this letter is limited and exclusive to the Development and the number of units or lots described above and may not be transferred or assigned to any other person, firm or entity, or for any other purpose without the Agency's written consent.
- 7. Agency can provide safe and reliable water service to Development, and fully expects to be able to continue providing safe and reliable water service into the future. In relying upon this letter and Agency's ability to provide water service to the Development, Developer is aware of the restrictions and limitations contained in this letter and the reliance of Agency upon its wells and imported water supplied by the State Water Project to supply the water needed for domestic water purposes, both of which are subject to restriction.

- Development must be entirely within SCV Water Sphere of Influence (any annexations must be completed)
- Developer must:
  - ➤ Submit fire department requirements and construction plans for development
  - ➤ Pay for new water infrastructure for development
  - ➤ Provide land and/or easements for new water infrastructure
  - ➤ Pay facility Capacity Fees

### **Future Features**

- Recently created form to streamline process for submittal review and approval
- Add to SCV Water Website for online submittals
- Establish fee for processing
