PUBLIC OUTREACH AND LEGISLATION COMMITTEE MEETING

Thursday, August 18, 2022
Meeting Begins at 5:30 PM

Members of the public may attend by the following options:

In Person

Santa Clarita Valley Water Agency
Engineering Services Section
Boardroom
26521 Summit Circle
Santa Clarita, CA 91350

See Agenda for additional location

By Phone

Toll Free:
1-(833)-568-8864
Webinar ID: 161 267 7868

Virtually

Please join the meeting from your
computer, tablet or smartphone:

<https://scvwa.zoomgov.com/j/1612677868>

Have a Public Comment?

Members of the public unable to attend this meeting may submit comments either in writing to ekang@scvwa.org or by mail to Eunie Kang, Executive Assistant, Santa Clarita Valley Water Agency, 26501 Summit Circle, Santa Clarita, CA 91350. All written comments received before 4:00 PM the day of the meeting will be distributed to the Committee members and posted on the Santa Clarita Valley Water Agency website prior to the start of the meeting. Anything received after 4:00 PM the day of the meeting will be made available at the meeting, if practicable, and will be posted on the SCV Water website the following day. All correspondence with comments, including letters or emails, will be posted in their entirety.

(Public comments take place during Item 2 of the Agenda and before each Item is considered. Please see the Agenda for details.)

This meeting will be recorded and the audio recording for all Committee meetings will be posted to yourscvwater.com within 3 business days from the date of the Committee meeting.

Disclaimer: Attendees should be aware that while the Agency is following all applicable requirements and guidelines regarding COVID-19, the Agency cannot ensure the health of anyone attending a Board meeting. Attendees should therefore use their own judgment with respect to protecting themselves from exposure to COVID-19.

To: **Public Outreach and Legislation Committee**
Piotr Orzechowski, Chair
Beth Braunstein
R.J. Kelly
Gary Martin
Lynne Plambeck

From: Steve Cole, Assistant General Manager *SM*

The **Public Outreach and Legislation Committee** meeting is scheduled on **Thursday, August 18, 2022 at 5:30 PM** at **26521 Summit Circle, Santa Clarita, CA 91350** in the **Engineering Services Section (ESS) Boardroom** and the teleconference site listed below.

**DIRECTOR KELLY
TELECONFERENCE SITE LOCATED AT
4791 LOOKING GLASS TRAIL
DENVER, NC 28037
1-(661)-510-1025**

Members of the public may attend in person or virtually. To attend this meeting virtually, please see below.

IMPORTANT NOTICES

This meeting will be conducted in person at the addresses listed above. As a convenience to the public, members of the public may also participate virtually by using the **Agency's Call-In Number 1-833-568-8864, Webinar ID: 161 267 7868 or Zoom Webinar by clicking on the <https://scvwa.zoomgov.com/j/1612677868>**. Any member of the public may listen to the meeting or make comments to the Committee using the call-in number or Zoom Webinar link above. However, in the event there is a disruption of service which prevents the Agency from broadcasting the meeting to members of the public using either the call-in option or internet-based service, this meeting will not be postponed or rescheduled but will continue without remote participation. The remote participation option is being provided as a convenience to the public and is not required. Members of the public are welcome to attend the meeting in person.

Attendees should be aware that while the Agency is following all applicable requirements and guidelines regarding COVID-19, the Agency cannot ensure the health of anyone attending a Committee meeting. Attendees should therefore use their own judgment with respect to protecting themselves from exposure to COVID-19.

Members of the public unable to attend this meeting may submit comments either in writing to ekang@scvwa.org or by mail to Eunie Kang, Executive Assistant, Santa Clarita Valley Water Agency, 26501 Summit Circle, Santa Clarita, CA 91350. All written comments received before 4:00 PM the day of the meeting will be distributed to the Committee members and posted on the

Santa Clarita Valley Water Agency website prior to the start of the meeting. Anything received after 4:00 PM the day of the meeting, will be made available at the meeting, if practicable, and will be posted on the SCV Water website the following day. All correspondence with comments, including letters or emails, will be posted in their entirety.

MEETING AGENDA

<u>ITEM</u>	<u>PAGE</u>
1. <u>PLEDGE OF ALLEGIANCE</u>	
2. <u>PUBLIC COMMENTS</u> – Members of the public may comment as to items within the subject matter jurisdiction of the Agency that are not on the Agenda at this time. Members of the public wishing to comment on items covered in this Agenda may do so at the time each item is considered. (Comments may, at the discretion of the Committee Chair, be limited to three minutes for each speaker.)	
3. Legislative Consultant Report:	
* 3.1 Van Scoyoc Associates	1
* 3.2 California Advocates	5
* 3.3 Poole & Shaffery	69
4. Communications Manager Activities:	
* 4.1 Social Media Quarterly Report	97
* 4.2 Legislative Tracking	101
* 4.3 Grant Status Report	103
* 4.4 Sponsorship Tracking FY 2022/23	107
* 4.5 Committee Planning Calendar FY 2022/23	109
5. Adjournment	
* Indicates Attachment	
• Indicates Handout	

NOTICES:

Any person may make a request for a disability-related modification or accommodation needed for that person to be able to participate in the public meeting by telephoning Eunie Kang, Executive Assistant, at (661) 297-1600, or in writing to Santa Clarita Valley Water Agency at 26501 Summit Circle, Santa Clarita, CA 91350. Requests must specify the nature of the disability and the type of accommodation requested. A telephone number or other contact information should be included so that Agency staff may discuss appropriate arrangements. Persons requesting a disability-related accommodation should make the request with adequate time before the meeting for the Agency to provide the requested accommodation.

Subject: August 2022 Report

Inflation Reduction Act Passes in Senate

On August 7th, the Senate passed the \$750 billion energy, climate, tax, and health care reconciliation package, the “[Inflation Reduction Act of 2022](#).” The legislation allocates \$4 billion in new funding for the Bureau of Reclamation (USBR) for western drought relief funding for Fiscal Years 2022-2026. The funding will give priority to the Colorado River and other basins experiencing drought and is intended to be used for: compensating farmers for reducing water use or fallowing land; for conservation purposes to increase available water supply in the Upper or Lower Basin of the Colorado River; and for environmental restoration projects caused by drought. Democrat Senators Kyrsten Sinema (AZ), Mark Kelly (AZ), Michael Bennet (CO), and Catherine Cortez Masto (NV) were ultimately responsible for negotiating and securing the USBR funding. The bill also includes over \$60 billion in environmental justice provisions intended for investments in disadvantaged communities. This includes a new funding allocation of \$550 million to the Bureau of Reclamation for grants, contracts, or financial assistance agreements for disadvantaged communities to construct water projects to provide domestic water supplies to communities that do not have reliable access to water supplies. The package is expected to pass through the House on Friday, August 12, and be signed into law by President Biden shortly thereafter. VSA will update SCV Water as developments are made.

House Drought and Wildfire Package

On July 29th, the House passed a Natural Resources Committee mega-legislative package, the “Wildfire Response and Drought Resiliency Act” ([H.R. 5118](#)), which consists of 48 bills the Committee has advanced over the 117th Congress related to: wildfire, drought/water, tribal water rights, climate resiliency, and environmental justice. Provisions of interest to SCV Water in the bill include authorizations/reauthorizations of:

- USBR competitive Title XVI grant program (\$600 million authorization raising the per project cap to \$50 million)
- USBR competitive desalination grant program (\$260 million)
- \$50 million for a new, EPA administered water conservation and efficiency grant program

FY2023 Appropriations Update

On July 20th, the House passed by a vote of 220-207 a 6-bill appropriations package ([H.R. 8294](#)), and pertinent to SCV Water, included the Agriculture, Interior-EPA, and Energy & Water bills. Successfully included in the package is Representative Garcia's Community Project Funding request of \$300,000.00 for the Bouquet Canyon Creek Project under the Natural Resources Conservation Service account.

On July 28th, the Senate Appropriations Committee publicly released its 12 annual appropriations bills. The draft Senate [Energy & Water bill](#) includes a \$50,000 Congressionally Directed Spending request for the Arundo Removal project submitted by Senators Padilla and Feinstein. Timing of Senate votes on the bills is still undetermined, and Congress expects to pass a short-term continuing resolution (CR) on or before September 30th to get into the next fiscal year. House and Senate leaders have expressed hope that Congress will pass a final omnibus package before the end of the calendar year holiday. VSA has drafted thank you letters to the Congressional delegation and will keep SCV Water apprised as activity on the bills develops.

Water Resources Development Act of 2022

On July 28th, the Senate passed its version of the "[Water Resources Development Act](#)" (WRDA) of 2022 by a vote of 93-1. The bill includes a provision SCV Water requested through Senator Padilla and Senator Feinstein for Los Angeles County to increase a funding authorization for construction of environmental infrastructure, though the House language is preferred since it specifically lists SCV Water as an eligible project sponsor. In addition, the Senate WRDA text includes a provision authorizing the Corps of Engineers to provide technical assistance to SCV Water to address volatile organic compounds (VOC's). The House and Senate will begin negotiations in the coming months to pass a final bill by the end of the year. VSA will continue monitoring the negotiations and update SCV Water as developments on the legislation are made.

EPA Water Cyber Rule

On July 28th, White House Deputy National Security Advisor for Cyber and Emerging Technology, Anne Neuberger, stated that EPA would soon issue a rule requiring states to oversee over 1,000 water utility cybersecurity plans. The rule is intended to improve cybersecurity requirements at water utilities that could affect safe drinking water. In January 2022, the White House and EPA released a 100-day plan to improve cybersecurity in the nation's water systems to strengthen the sector's cyber practices. VSA will keep SCV Water apprised as a rule is rolled out.

EPA Emerging Contaminants Grant Program

The U.S. Environmental Protection Agency (EPA) is inviting states, territories, and tribal nations to apply for \$1 billion in funding under the [Emerging Contaminants in Small or Disadvantaged Communities grant program](#) allocated through the Bipartisan Infrastructure Law. Funding may be used to address PFAS and other emerging contaminants in drinking water in small or disadvantaged communities. Interested states and territories may submit interest letters by

August 15th, 2022. Funding will be awarded to assist small or disadvantaged communities with scoping, planning, testing, and the remediation of emerging contaminants in drinking water sources.

EPA PFAS Strategic Roadmap Webinar

On August 17th, at 3 pm, the EPA will host a [webinar](#) entitled “PFAS Strategic Roadmap: Research Tools and Resources.” The webinar will provide an update on the EPA’s PFAS Strategic Roadmap and will highlight work the EPA Office of Research and Development (ORD) is conducting. ORD scientists will discuss EPA’s recently released data sources, including Systematic Evidence Maps for PFAS and EPA’s Thermal Treatment Database, which contains information on treatability of PFAS through thermal processes.

August 9, 2022

To: Steve Cole, Santa Clarita Valley Water Agency
From: Dennis Albiani and Anthony Molina, California Advocates
Subject: August Report 2022

The 2021-2022 legislative session is rapidly coming to a close, with only 16 days of legislative business remaining. Within this short timeframe, there will be key benchmarks such as the fiscal deadline and the amendment deadline that will require critical decisions to be made for legislation to remain active – the results will be several bills that do not move forward. In total, there are roughly 1,250 bills that are pending and will require action by the end-of-session on August 31st.

In addition, there are several pieces of the Budget that have yet to be resolved, which includes a large \$21 billion dollar climate and energy package. There have been ongoing negotiations between the Governor and legislative leadership in both houses to tie up loose ends. To date, the details for the \$1.465 billion for drought resilience and response have not been daylighted, but we continue to advocate for Arundo invasive plant removal, additional PFAS funding, and funding for conservation. As we received information over the next week, we will share it immediately with SCVWA leadership.

Lastly, upon the adjournment of this year's legislative session, the focus will quickly shift to the November 8th General Election – this is now less than three months out. Specifically, within the SCVWA service area, the main California races of focus will include the newly drawn 40th Assembly District and the 27th Congressional District. The race for the Assembly seat will be between incumbent Assemblymember Suzette Martine Valladares (R) and Pilar Schiavo (D). This will be overlapped by the Congressional rematch between incumbent Mike Garcia (R) and challenger Christy Smith (D). Both races will draw significant attention from both political parties. Stay tuned!

SCVWA Bills with Positions

AB 2142 (Gabriel) Income taxes: exclusion: turf replacement water conservation program.

This bill allows for taxable years beginning on or after January 1, 2022, and before January 1, 2027, a gross income exclusion for any amount received as a rebate, voucher, or other financial incentive issued by a local water agency or supplier for participation in a turf replacement water conservation program.

Status: Senate Appropriations Committee “Suspense File.”

Position: Support

AB 2313 (Bloom) Water: judges and adjudications.

This bill would encourage the Judicial Council to establish a training and education program for judges related to complex water matters and require the Judicial Council to identify a set of independent and nonpartisan specialized staff employed by the judicial branch with expertise in water science, management, or law, who will be available to any judge adjudicating a water dispute. The bill would also authorize a judge to appoint a qualified special master to assist the judge with an action relating to water, with duties similar to those for special masters in comprehensive groundwater adjudications.

Status: Senate Appropriations Committee “Suspense File.”

Position: Support

AB 2362 Ecosystem restoration and climate adaptation projects: permitting.

This bill requires the California Natural Resources Agency to establish an interagency working group to accelerate and streamline permitting for ecosystem restoration and climate adaptation projects.

Status: Senate Appropriations Committee “Suspense File.”

Position: Support, if amended.

Proposed Amendments: Include a definition of “ecosystem restoration and climate adaptation projects” in the bill; add the California Department of Fish and Wildlife, Delta Stewardship Council, the Bay Conservation and Development Commission, the California Water Commission, and other permit issuing agencies, departments, boards, commissions, and offices to the coordination processes; and add timeframes for coordinated action on permit streamlining activities.

AB 2449 (Rubio) Open meetings: local agencies: teleconferences.

This bill will eliminate the previously existing concept of teleconference locations and will revise notice requirements to allow for greater public participation in teleconference meetings of local agencies. The bill does not mandate teleconferencing, it merely modernizes existing law to ensure greater public participation in meetings of local agencies that choose to utilize teleconferencing. The bill also requires that a quorum of the governing body be physically present at a clearly identified meeting location for all public meetings.

Status: Senate Floor.

Position: Support

SB 222 (Dodd) Water Affordability Assistance Program.

This bill would establish the Water Affordability Assistance Fund in the State Treasury to help provide water affordability assistance for drinking water and wastewater services to low-income ratepayers and ratepayers experiencing economic hardship in California. This bill will only become operative if an appropriation in the annual Budget Act or another statute occurs.

Status: Assembly Floor

Position: Oppose, Unless Amended.

Proposed Amendments: Include a “funding source” in the bill – the bill should provide that the funding for the Water Rate Assistance Program must be entirely from the proposed Water Rate Assistance Fund (Fund); and if there is not sufficient money in the Fund to provide water rate assistance and fund administrative costs as proposed, the requirements will not apply. Also, the bill should contain “state program enrollment” - the bill should be clear throughout that the State or its third-party contractors will handle all aspects of enrollment in this State program. Lastly, administration costs should be capped – during the first year of this State program, the bill would allow more than 20 percent of the funding to go to administration. The costs should be capped for the first year at less than 20 percent (as subsequent years are proposed to be capped) so that more of the State Funding is available to assist low-income households.

SB 230 (Portantino) State Water Resources Control Board: Constituents of Emerging Concern

This bill would require the State Water Resources Control Board to establish, maintain, and direct a dedicated Constituents of Emerging Concern (CEC) in the Drinking Water Program to assess the state of information and recommend areas for further study on the occurrence of CECs in drinking water, and would establish the CEC Action Fund.

Status: Assembly Appropriations Committee “Suspense File.”

Position: Support

SB 520 (Wilk) Water resources: permit to appropriate: application procedure: mining use.

Provides an opportunity for members of the public to highlight concerns regarding mining projects' impacts on their local water supply, habitat species, and environmental and quality of life if the projects' water appropriation applications have been pending with the State Water Resources Control Board (board) for over 30 years.

Status: Assembly Water, Parks, and Wildlife Committee. This bill failed passage and is dead.

Position: Support

SB 559 (Hurtado) Department of Water Resources: water conveyance systems: Canal Conveyance Capacity Restoration Fund.

This bill establishes the Canal Conveyance Capacity Restoration Fund in the State Treasury to be administered by the Department of Water Resources. Funds are to be expended to support subsidence repair costs, including environmental planning, permitting, design and construction, and necessary road and bridge upgrades required to accommodate capacity improvements. The bill directs funds to restore the capacity of 4 specified water conveyance systems, with 2 of those four expenditures being in the form of a grant to the Friant Water Authority and the San Luis and Delta-Mendota Water Authority.

Status: Assembly Floor, Inactive File

Position: Support

SCVWA Bills of Interest

AB 2451 (Wood) State Water Resources Control Board: drought planning.

This bill would require the State Water Resources Control Board (Board) to establish a Drought Section within the Division of Water Rights. The bill would require the Board, in consultation with the Department of Fish and Wildlife, to adopt principles and guidelines for diversion and use of water in coastal watersheds during times of water shortage for drought preparedness and climate resiliency and for the development of watershed-level contingency plans to support public trust uses, public health and safety, and the human right to water in times of water shortage.

Status: Senate Appropriations Committee “Suspense File.”

Position: Watch

AB 2106 (R. Rivas) Water quality: permits.

this bill requires the State Water Resources Control Board (Board) to modernize its Stormwater Multiple Application and Report Tracking System (SMARTS) database by December 2024. The bill also requires the Board to establish a statewide commercial, industrial, and institutional national pollutant discharge elimination system (NPDES) order.

Status: Senate Appropriations Committee “Suspense File.”

Position: Watch

AB 2157 (Rubio) Urban water use objectives: indoor residential water use.

This bill would require the State Water Resources Control Board to collaborate and seek input from, stakeholders regarding the studies, investigations, and reports before making changes to the gallons per capita daily standard for indoor residential water use. This is a spot bill.

Status: Assembly Rules Committee. This bill was not referred. This bill is dead.

Position: Watch

AB 1157 (Hertzberg) Urban water use objectives: indoor residential water use.

This bill would change the standards for indoor residential water use, to reflect those recommended by DWR and the SWRCB. Specifically, it would change the indoor residential water use standards beginning January 1, 2025, to be 47 gallons per daily capita, and beginning January 1, 2030 – 42 gallons per daily capita.

Status: Assembly Appropriations Committee “Suspense File.”

Position: Watch

SB 1205 (Allen) Water rights: appropriation.

This bill would require the State Water Resources Control Board to develop and adopt regulations to provide greater specificity as to the methods and practices for determining water availability in the issuance and administration of water rights permits and licenses, including consideration of the effects of climate change. The bill would require the Board to consult with

the Department of Water Resources, the Department of Fish and Wildlife, and qualified hydrologists and climate change scientists in preparing the regulations.

Status: Assembly Appropriations Committee “Suspense File.”

Position: Watch

SB 1219 (Hurtado) 21st-century water laws and agencies: committee.

This bill would require the Secretary of the Natural Resources Agency and the Secretary for Environmental Protection to convene a “Blue Ribbon Commission” to develop and submit to the Governor and to the Legislature a strategic vision, proposed statutes, and recommendations for a modern 21st century set of water agencies for the state.

Status: Assembly Water, Parks, and Wildlife Committee. This bill hearing was canceled by the author. This bill is dead.

Position: Watch

Budget Update

The Legislature and the Governor reached a “true” agreement on the Budget Act of 2022. As stated in the previous report, the original Budget bill ([SB 154](#)) that was passed by the Legislature was largely considered a “framework” to meet their constitutional deadline. The Budget has been subsequently amended by two Budget Bill Jr’s. ([AB 178](#)) and ([AB 180](#)). The agreed-upon budget which has been signed by the Governor totaled \$307.9-billion – the largest in state history. The spending plan centered on \$17 billion in a relief package to help families, seniors, low-income Californians, and small businesses. The package includes \$9.5 billion in gas/inflation refunds, \$1.4 billion in utility payment assistance, expanded tax credits, \$250 million for paid sick leave grants, a suspension of the sales tax on diesel fuel at a cost of \$439 million to the state, and \$75 million in drought relief grants. A detailed Floor Report of the most up-to-date Budget can be found [HERE](#).

To note, the Legislature has earmarked \$21 billion dollars for the “Climate Change Package” which includes \$1.465 billion for “Drought Resilience and Response.” The details for the “Drought Resilience and Response” package are continuing to be worked out between the Governor and Legislative leadership. As we learn more details of this specific budget package, will share them in a timely manner.

As of today, below are the budget augmentations that have been approved in the water space:

- Provides \$100 million General Fund for dam safety projects and flood management over the 2023-2024 and 2024-2025 fiscal years.
- Approves funding from the California Emergency Relief Fund for the following:
 - \$26 million for the continuing formulation of the California Water Plan.
 - \$200 million for Urban Water Community Drought Relief.
 - \$100 million for Small Community Drought Relief.
 - \$75 million for Conservation for Urban Suppliers.
 - \$25 million for Conservation for Small Suppliers.
 - \$75 million for Turf Replacement.
 - \$60 million for Agriculture Drought Response Program and Delta Response Pilot.

- \$10 million for Migratory Bird Habitat

Regulatory

Department of Water Resources Releases Draft Environmental Impact Report for Delta Conveyance Project

The California Department of Water Resources (DWR) released the Draft Environment Impact Report (Draft EIR) for the Delta Conveyance Project, marking an important step in evaluating a key strategy to adapt to a changing climate and provide clean, reliable water for future generations. The release of the Draft EIR gives the public an opportunity to formally weigh in on a proposed infrastructure modernization project that has been significantly changed in response to public comment. The proposal follows Governor Newsom's direction in 2019 to downsize previous concepts for improving Delta conveyance. The Draft EIR can be found [HERE](#) for review.

State Water Resources Control Board "Urban Water Use Update"

Statewide water use in June was 7.6% lower than in June 2020, and more than double the statewide savings in May (3.1%), putting California solidly back on track toward saving water. During the hot and dry summer, water use typically increases substantially because plants are thirstier. So, the fact that we saw more water savings in June suggests that aggressive actions taken by the state and by local suppliers are taking hold. On July 29, Governor Gavin Newsom convened local water leaders for the second time in recent months to call for their continued action to drive down urban water use and help Californians make permanent changes to adapt to a hotter and drier future. At the meeting, the Governor again urged leaders of the state's largest urban water suppliers to continue local efforts to cut back water usage in the face of limited supplies due to extreme heat and dry weather. He also underscored the urgency of reporting monthly water use data as quickly as possible so the state can more effectively monitor progress in real-time. The full "June 2022 Urban Water Conservation Update" can be found [HERE](#).

Governor Newsom Appoints New Department of Finance Director

Governor Gavin Newsom appointed Joe Stephenshaw to replace Keely Bosler as the new Director of the California Department of Finance. Stephenshaw was Staff Director for the Senate Budget and Fiscal Review Committee from 2017 to 2022. He held multiple positions in the California Legislature from 2008 to 2017, including serving as a Policy Consultant in the Office of the Senate President pro Tempore, a Special Advisor to the Speaker of the Assembly, and as a Budget Consultant for both the Assembly Budget Committee and the Senate Budget and Fiscal Review Committee. Stephenshaw was a Budget Analyst for the California Department of Finance from 2005 to 2008.

Senate Rules Committee Appointment Confirmations

This week, the Senate Rules Committee confirmed Danny Curtain and Matthew Swanson to the California Water Commission.

California Advocates, Inc. Activity Report

- Participated in the Association of California Water Agencies (ACWA) "Monday Morning Lobby Group" meeting.

- Participated and represented SCVWA at the ACWA “State Legislative Committee Meeting” including the pre-meeting with key Region 8 committee members to coordinate positions.
- Participated in the Southern California Water Coalition legislative meeting.
- Participated in the State Water Contractors General Managers/Advocates call on the summer release of the Delta Conveyance Draft Environmental Impact Report.
- Participated in the State Water Contractors meeting on SB 1020 (Laird) “Clean Energy, Jobs, and Affordability Act of 2022.”
- Monitored the Senate and Assembly Appropriations “Suspense File” hearings to track SCVWA bills with positions.

Key Dates and Deadlines

August

Aug. 15 - 31. – Floor session only.

Aug. 25 – Last day to amend bills on the floor.

Aug. 31 – End of Session at midnight. Fall recess begins.

September

Sep. 30 – Last day for Governor to sign or veto bills passed by the Legislature.

November

Nov. 8 – General Election

Santa Clarita Valley Water Agency
Legislative Status Report 8/9/2022

AB 1 **(Garcia, Cristina D) Lead-Acid Battery Recycling Act of 2016: dealer notice: California battery fee.** (Amended: 5/18/2022 [html](#) [pdf](#))

Status: 6/23/2022-From Consent Calendar. Ordered to inactive file at the request of Senator Durazo.

Location: 6/23/2022-S. INACTIVE FILE

Summary: The Lead-Acid Battery Recycling Act of 2016, as part of the hazardous waste control laws, prohibits a person from disposing, or attempting to dispose, of a lead-acid battery at a solid waste facility or on or in any land, surface waters, watercourses, or marine waters, but authorizes a person to dispose of a lead-acid battery at certain locations. The act imposes a California battery fee on a person for specified types of replacement lead-acid batteries purchased from a dealer in the amount of \$1 until March 31, 2022, and in the amount of \$2 commencing April 1, 2022. The act requires a dealer to post a written notice or include on the purchaser’s receipt for one of these lead-acid batteries specified language, including language stating that the dealer is required by law to charge a nonrefundable \$1 California battery fee. A violation of the hazardous waste control laws is a crime. This bill would revise the language required to be included in that notice or on the purchaser’s receipt by increasing the stated amount of the California battery fee from \$1 to \$2. Because the failure of a dealer to include this revised language would be a crime under the hazardous waste control laws, the bill would impose a state-mandated local program. This bill contains other existing laws.

Notes 1:

AB 84 **(Committee on Budget) Employment: COVID-19: supplemental paid sick leave.** (Amended: 2/2/2022 [html](#) [pdf](#))

Status: 2/9/2022-Re-referred to Com. on B. & F.R.

Location: 2/9/2022-S. BUDGET & F.R.

Summary: (1)Existing law, the Healthy Workplaces, Healthy Families Act of 2014, entitles an employee who works in California for the same employer for 30 or more days within a year from the commencement of employment to paid sick days. Under existing law, an employee accrues paid sick days at a rate of not less than one hour per every 30 hours worked, subject to certain use, accrual, and yearly carryover limitations. Existing law requires the Labor Commissioner to enforce the act and provides for procedures, including investigation and hearing, and for remedies and penalties. Existing law, until December 31, 2020, provided for COVID-19 food sector supplemental paid sick leave for food sector workers and required a hiring entity to provide COVID-19 food sector

supplemental paid sick leave, as described, to each food sector worker unable to work due to specified reasons relating to COVID-19. Existing law also established, until December 31, 2020, COVID-19 supplemental paid sick leave for covered workers, including certain persons employed by private businesses of 500 or more employees or persons employed as certain types of health care providers or emergency responders by public or private entities. Existing law, until September 30, 2021, provided for COVID-19 supplemental paid sick leave for covered employees, in-home supportive service providers, and personal waiver care service providers who were unable to work or telework due to certain reasons related to COVID-19, including that the employee or provider was advised by a health care provider to self-quarantine due to concerns related to COVID-19. Existing law entitled a covered employee or provider to 80 hours of COVID-19 supplemental paid sick leave, as specified, and set the compensation for that leave. This bill, beginning January 1, 2022, until September 30, 2022, would provide for COVID-19 supplemental paid sick leave for covered employees who are unable to work or telework due to certain reasons related to COVID-19, including that the employee is attending a COVID-19 vaccine or vaccine booster appointment for themselves or a family member, or is experiencing symptoms, or caring for a family member experiencing symptoms, related to a COVID-19 vaccine or vaccine booster. The bill would entitle a covered employee to 40 hours of COVID-19 supplemental paid sick leave if that employee either works full time or was scheduled to work, on average, at least 40 hours per week for the employer in the 2 weeks preceding the date the covered employee took COVID-19 supplemental paid sick leave. The bill would provide a different calculation for supplemental paid sick leave for a covered employee who is a firefighter subject to certain work schedule requirements and for a covered employee working fewer or variable hours, as specified. This bill would entitle a covered employee, in addition to the COVID-19 supplemental paid sick leave described above, to take up to 40 more hours of COVID-19 supplemental paid sick leave if the covered employee, or a family member for whom the covered employee is providing care, tests positive for COVID-19. The bill would authorize the employer to require the covered employee, if that employee tests positive, to submit to another test on or after the fifth day after the first positive test and provide documentation of those results. The bill would also authorize the employer to require the covered employee to provide documentation of a family member's test result before paying the additional COVID-19 supplemental paid sick leave, as applicable. The bill would specify that the employer has no obligation to provide additional COVID-19 supplemental paid sick leave if the employee refuses to provide documentation of a test result. This bill would provide that the total number of hours of COVID-19 supplemental paid sick leave to which a covered employee is entitled to under these provisions is in addition to any paid sick leave available under the Healthy Workplaces, Healthy Families Act of 2014, and in addition to prior COVID-19 supplemental paid sick leave the employee was entitled to, as specified. This bill would specify the compensation rate for a nonexempt and exempt covered employees. The bill would require the Labor Commissioner to enforce these COVID-19 supplemental paid sick leave provisions, as provided. The bill would also require the Labor Commissioner to make publicly available a model notice relating to COVID-19 supplemental paid sick leave. This bill would also provide for COVID-19 supplemental paid sick leave for specified in-home supportive service providers and personal waiver care service providers, as defined, who are unable to work or telework due to certain reasons related to COVID-19. Under the bill, a provider would be entitled to COVID-19 supplemental paid leave for the same reasons as a covered employee. The bill would entitle a provider to up to 40 hours of COVID-19 supplemental paid leave, if the provider worked or was scheduled to work, on average, at least 40 hours per week, as specified, or met certain other work conditions, and entitle a provider to take additional COVID-19 supplemental paid sick leave under specified conditions. The bill would set the compensation rate for this supplemental paid sick leave, as specified. The bill would authorize the State Department of Social Services and the State Department of Health Care Services to implement, interpret, or make these provisions specific by means of all-county letters or similar instructions, without taking any regulatory action. This bill would make these requirements, with respect to covered employees, in-home supportive service providers, and personal waiver care service providers, to provide COVID-

19 supplemental paid sick leave take effect 10 days after the date of enactment of the bill and would apply these provisions retroactively to January 1, 2022, as specified. The bill would provide that the requirement to provide COVID-19 supplemental paid sick leave would apply until September 30, 2022, as specified.(2)This bill would appropriate \$100,000 from the General Fund to the Labor Commissioner to implement the provisions related to the COVID-19 supplemental paid sick leave, as specified.(3)This bill would declare that it is to take effect immediately as a bill providing for appropriations related to the Budget Bill.

[AB 350](#) (Villapudua D) Agriculture: Cannella Environmental Farming Act of 1995: technical assistance grant program: groundwater conservation planning. (Amended: 8/26/2021 [html pdf](#))

Status: 9/10/2021-Failed Deadline pursuant to Rule 61(a)(15). (Last location was INACTIVE FILE on 9/2/2021)(May be acted upon Jan 2022)

Location: 9/10/2021-S. 2 YEAR

Summary: The Cannella Environmental Farming Act of 1995 requires the Department of Food and Agriculture, in consultation with the Scientific Advisory Panel on Environmental Farming, to establish and oversee a Healthy Soils Program to seek to optimize climate benefits while supporting the economic viability of California agriculture by providing incentives, including loans, grants, research, and technical assistance, and educational materials and outreach, to farmers whose management practices contribute to healthy soils and result in net long-term on-farm greenhouse gas benefits. In this connection, the department has also established the State Water Efficiency and Enhancement Program to provide financial assistance in the form of grants to implement irrigation systems that reduce greenhouse gases and save water on agricultural operations. This bill would require, upon an appropriation of funds, the Department of Food and Agriculture to establish and administer a 3-year grant program to fund technical assistance to support landowners located in a critically overdrafted basin, as defined, in reaching water use reduction goals established pursuant to the Sustainable Groundwater Management Act. The bill would require the department, in its development of the grant program, to establish various criteria, guidelines, restrictions, processes, and requirements for the qualification and administration of grants to technical assistance providers, as specified. The bill would authorize the department to use specified guidelines to administer this program. The bill would require the grant program to fund one or more technical assistance providers in each critically overdrafted basin. The bill would require the department to ensure that at least 25% of the grant program funds are used to provide technical assistance to socially disadvantaged farmers and ranchers, as defined. The bill would require that technical assistance from the grant program be provided directly to landowners in a critically overdrafted basin to design, develop, and implement on-farm conservation plans for agricultural lands that are at risk of falling due to water shortages. This bill contains other existing laws.

[AB 641](#) (Holden D) Transportation electrification: local publicly owned electric utilities. (

Amended: 7/15/2021 [html](#) [pdf](#).)

Status: 8/27/2021-Failed Deadline pursuant to Rule 61(a)(12). (Last location was APPR. SUSPENSE FILE on 8/23/2021)(May be acted upon Jan 2022)

Location: 8/27/2021-S. 2 YEAR

Summary: Existing law requires a local publicly owned electric utility with an annual electrical demand exceeding 700 gigawatts, determined as provided, to adopt an integrated resource plan to meet certain goals. Existing law requires the local publicly owned electric utility, as a part of its integrated resource plan update, to consider establishing electric vehicle grid integration strategies and evaluating how its electric vehicle grid integration programs further the electric vehicle grid integration strategies it has established. This bill would require each local publicly owned electric utility to facilitate and ensure the availability of at least one station for public charging of passenger motor vehicles within its service territory. The bill would require each local publicly owned electric utility to develop and adopt a transportation electrification plan, individually, or in collaboration with other local publicly owned electric utilities, local governments, or local or regional transportation planning organizations, to include certain information to support the level of electric vehicle adoption required for the state to meet certain goals. The bill would require local publicly owned electric utilities to make their adopted plans available on their internet websites. The bill would deem a local publicly owned electric utility that has adopted an integrated resource plan or a transportation electrification plan before January 1, 2022, to be in compliance with the bill's requirements and would require the utility to update the adopted plan at least once every 5 years. Because the bill would increase the duties of local publicly owned electric utilities, the bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

[AB 754](#) (Mathis R) Sustainable groundwater management: groundwater sustainability plan. (

Amended: 4/15/2021 [html](#) [pdf](#).)

Status: 7/5/2022-Failed Deadline pursuant to Rule 61(b)(14). (Last location was S. 2 YEAR on 7/14/2021)

Location: 7/5/2022-S. DEAD

Summary: Existing law, the Sustainable Groundwater Management Act, requires all groundwater basins designated as high- or medium-priority basins by the Department of Water Resources that are designated as basins subject to critical conditions of overdraft to be managed under a groundwater sustainability plan or coordinated groundwater sustainability plans by January 31, 2020, and requires all other groundwater basins designated as high- or medium-priority basins to be managed under a groundwater sustainability plan or coordinated groundwater sustainability plans by January 31, 2022, except as specified. The act authorizes the State Water Resources Control Board to designate a high- or medium-priority basin as a probationary basin if the basin is not entirely covered by an adopted groundwater sustainability plan or plans or a department-approved alternative by the applicable deadline. The act authorizes the board to adopt an interim plan for a probationary basin, as specified. This bill would authorize the department to extend the deadline for a high- or medium-priority basin not subject to critical conditions of overdraft to be managed under a groundwater sustainability plan or coordinated plans by up to 180 days after January 31, 2022, upon

request of a local agency or groundwater sustainability agency in the basin for an extension of a specified period of time. The bill would require a request to be submitted by January 3, 2022, and to be responded to by the department by January 10, 2022. The bill would make conforming changes to the authority of the board to designate a high- or medium-priority basin as a probationary basin for the failure to manage a basin under a groundwater sustainability plan or coordinated plans by the applicable deadlines.

[AB 1164](#) (Flora R) Dams and reservoirs: exclusions: publicly owned or operated regulating basins. (Amended: 5/23/2022 [html](#) [pdf](#))

Status: 8/2/2022-Read second time. Ordered to third reading.

Location: 8/2/2022-S. THIRD READING

Calendar: 8/11/2022 #178 SENATE ASSEMBLY BILLS - THIRD READING FILE

Summary: Existing law requires the Department of Water Resources to supervise the maintenance and operation of dams and reservoirs as necessary to safeguard life and property. Existing law requires the department to adopt, by regulation, a schedule of fees to cover the department's costs in carrying out the supervision of dam safety. Existing law excludes certain obstructions from being considered a dam, including a barrier that is not across a stream channel, watercourse, or natural drainage area and that has the principal purpose of impounding water for agricultural use. This bill would additionally exclude from being considered a dam a regulating basin, as defined, owned or operated by a public entity that is not across a stream channel, watercourse, or natural drainage if certain criteria are met, including, among other criteria, that the owner or operator of the regulating basin, before the construction of the regulating basin, submit to the department an inundation map, stamped by a licensed civil engineer, identifying the flow and depth of water from the regulating basin in the event of a failure of a barrier constructed to form the regulating basin, and that the owner or operator, immediately upon the identification of a failure or the risk of failure of a barrier or works critical to the safe operation of the regulating basin, notify the county sheriff and local emergency managers of all properties likely to be impacted by a failure. The bill would define "natural drainage" for purposes of these provisions. The bill would also make nonsubstantive changes.

[AB 1195](#) (Garcia, Cristina D) Limited Eligibility and Appointment Program: lists. (Amended: 5/18/2022 [html](#) [pdf](#))

Status: 8/2/2022-Read second time. Ordered to third reading.

Location: 8/2/2022-S. THIRD READING

Calendar: 8/11/2022 #179 SENATE ASSEMBLY BILLS - THIRD READING FILE

Summary: Existing law creates the Department of Human Resources, which succeeds to and is vested with all of the powers and duties exercised and performed by the Department of Personnel

Administration. Existing law specifically grants the department the powers, duties, and authority necessary to operate the state civil service system in accordance with Article VII of the California Constitution, the Government Code, the merit principle, and applicable rules duly adopted by the State Personnel Board. Existing law creates the Limited Examination and Appointment Program (LEAP), which the Department of Human Resources administers, to provide an alternative to the traditional civil service examination and appointment process to facilitate the hiring of persons with disabilities. Existing law requires the Department of Human Resources, when an appointing power seeks to fill a vacant position by using an employment list, to provide the appointing power with a certified list of the names and addresses of all eligible candidates, as specified. Existing law requires the department to provide a single certified list of eligible candidates if more than one employment list or LEAP referral list exists, and the department is required to combine the names and addresses of all eligible candidates. This bill would, notwithstanding those provisions, require the department to, upon request of the appointing power, provide the appointing power a LEAP referral list without combining that list with a parallel list and would authorize the appointing power to select and hire any individual from that a referral list to fill any vacancy.

[AB 1642](#) (Salas D) California Environmental Quality Act: water system well and domestic well projects: exemption. (Amended: 6/30/2022 [html](#) [pdf](#))

Status: 8/2/2022-Read second time. Ordered to third reading.

Location: 8/2/2022-S. THIRD READING

Calendar: 8/11/2022 #182 SENATE ASSEMBLY BILLS - THIRD READING FILE

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. This bill would, until January 1, 2028, exempt from CEQA a well project, as defined, that meets specified conditions, including that the domestic well or the water system to which the well is connected has been designated by the state board as high risk or medium risk in the state board’s drinking water needs assessment. The bill would require a lead agency, before determining that a well project is exempt from CEQA pursuant to these provisions, to contact the state board to determine whether claiming the exemption will affect the ability of the well project to receive federal financial assistance or federally capitalized financial assistance. The bill would require a lead agency that determines that a well project is exempt from CEQA pursuant to these provisions to file a notice of exemption with the Office of Planning and Research and the county clerk, as provided. Because the bill would increase the responsibilities of a lead agency related to the applicability of this exemption, this bill would impose a state-mandated local program.

This bill contains other related provisions and other existing laws.

[AB 1717](#) (Aguir-Curry D) Public works: definition. (Amended: 5/19/2022 [html](#) [pdf](#))

Status: 6/27/2022-In committee: Referred to suspense file.

Location: 6/27/2022-S. APPR. SUSPENSE FILE

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 2200
SENATE APPROPRIATIONS, PORTANTINO, Chair

Summary: Existing law requires that, except as specified, not less than the general prevailing rate of per diem wages, determined by the Director of Industrial Relations, be paid to workers employed on public works projects. Existing law defines the term "public works" for purposes of requirements regarding the payment of prevailing wages to include construction, alteration, demolition, installation, or repair work done under contract and paid for using public funds, except as specified. Existing law makes a willful violation of laws relating to the payment of prevailing wages on public works a misdemeanor. This bill would expand the definition of "public works" to include fuel reduction work done under contract and paid for in whole or in part out of public funds performed as part of a fire mitigation project, as specified. By expanding the scope of a crime, the bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

[AB 1733](#) (Quirk D) State bodies: open meetings. (Introduced: 1/31/2022 [html](#) [pdf](#))

Status: 4/20/2022-In committee: Hearing postponed by committee.

Location: 2/18/2022-A. G.O.

Summary: Existing law, the Bagley-Keene Open Meeting Act, requires, with specified exceptions, that all meetings of a state body be open and public and all persons be permitted to attend any meeting of a state body. The act defines a "meeting" to include any congregation of a majority of the members of a state body at the same time and place to hear, discuss, or deliberate upon any item that is within the subject matter jurisdiction of the state body to which it pertains. The act authorizes teleconferenced meetings under specified circumstances, provided that at least one member of the state body is physically present at the location specified in the notice of the meeting, and all votes taken during a teleconferenced meeting are taken by rollcall. The act provides that if the state body elects to conduct a meeting or proceeding by teleconference, the state body is required to post agendas at all teleconference locations and conduct teleconference meetings in a manner that protects the rights of any party or member of the public appearing before the state body. The act requires each teleconference location to be identified in the notice and agenda of the meeting or proceeding, and each teleconference location to be accessible to the public, and the agenda to provide an opportunity for members of the public to address the state body at each teleconference location. This bill would specify that a "meeting" under the act, includes a meeting held entirely by teleconference. The bill would require all open meetings to be held by teleconference, would allow for use of teleconference in closed sessions, and would remove existing provisions of the act that

require each teleconference location to be identified in the notice and agenda and accessible to the public. The bill would instead require the state body to provide a means by which the public may remotely hear, or hear and observe, the meeting and may remotely address the state body via two-way audio-visual platform or two-way telephonic service, as specified, and would require information to be provided in any notice to the public indicating how the public can access the meeting remotely. The bill would require the state body to provide an opportunity for members of the public to address the state body. The bill would require the state body to provide members of the public a physical location to hear, observe, and address the state body, and would authorize the members of the state body to participate in a meeting remotely or at a designated physical meeting location, and specify that physical presence at any physical meeting location is not necessary for the member to be deemed present at the meeting. The bill would require the agenda to be posted 10 days in advance of the meeting, or as provided in accordance with the provisions applicable to a special or emergency meeting, as well as posted on the state body's internet website and, on the day of the meeting, at any physical meeting location designated in the notice. The bill would also provide that the notice of the meeting is required to specify the means by which a meeting may be accessed by teleconference. The bill would prohibit the notice and agenda from disclosing any information regarding any remote location from which a member is participating, and require members attending a meeting from a remote location to disclose whether any other individuals 18 years of age or older are present in the room, as specified. This bill contains other related provisions and other existing laws.

[AB 1748](#) ([Seyarto R](#)) Exempt surplus land: regional housing need. (Amended: 4/6/2022 [html](#) [pdf](#))

Status: 5/6/2022-Failed Deadline pursuant to Rule 61(b)(6). (Last location was A. H. & C.D. on 4/20/2022)

Location: 5/6/2022-A. DEAD

Summary: Existing law prescribes requirements for the disposal of surplus land by a local agency. Existing law defines "surplus land" for these purposes to mean land owned in fee simple by any local agency for which the local agency's governing body takes formal action declaring that the land is surplus and is not necessary for the agency's use. Existing law provides that an agency is not required to follow the requirements for disposal of surplus land for "exempt surplus land," except as provided. Existing law categorizes as "exempt surplus land," surplus land that a local agency is transferring to another local, state, or federal agency for the agency's use. This bill would add to the definition of "exempt surplus land," surplus land that is zoned for a density of up to 30 residential units, if residential properties within a radius of 500 feet of the site are zoned to have an allowable density of fewer than 30 dwelling units per acre and the most recent annual progress report, as described, submitted by the city or county that owns the surplus land shows that the total number of low-income and very low income housing units built within the city or county meets or exceeds proportionate annual progress toward the number of those housing units needed to meet the city's or county's share of regional housing need for the 6th cycle of its housing element, as described. This bill contains other existing laws.

[AB 1774](#) ([Seyarto R](#)) California Environmental Quality Act: water conveyance or storage projects: judicial review. (Introduced: 2/3/2022 [html](#) [pdf](#))

Status: 4/29/2022-Failed Deadline pursuant to Rule 61(b)(5). (Last location was NAT. RES. on 2/10/2022)

Location: 4/29/2022-A. DEAD

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report (EIR) on a project that the lead agency proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA establishes a procedure by which a person may seek judicial review of the decision of the lead agency made pursuant to CEQA. This bill would require the Judicial Council to adopt rules of court applicable to actions or proceedings brought to attack, review, set aside, void, or annul the certification or adoption of an environmental impact report for water conveyance or storage projects, as defined, or the granting of project approvals, including any appeals to the court of appeal or the Supreme Court, to be resolved, to the extent feasible, within 270 days of the filing of the certified record of proceedings with the court to an action or proceeding seeking judicial review of the lead agency's action related to those projects. The bill would require the lead agency to prepare the record of proceedings for a water conveyance or storage project, as provided, and to include a specified notice in the draft EIR and final EIR for the water conveyance or storage project. By imposing additional duties on lead agencies, the bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

Notes 1:

[AB 1776](#) ([Gallagher R](#)) Resource conservation districts: California Prompt Payment Act. (Amended: 3/24/2022 [html](#) [pdf](#))

Status: 8/2/2022-In committee: Referred to suspense file.

Location: 8/2/2022-S. APPR. SUSPENSE FILE

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 2200 SENATE APPROPRIATIONS, PORTANTINO, Chair

Summary: Existing law, the California Prompt Payment Act, generally provides that a state agency that acquires property or services pursuant to a contract with a business but fails to make payment to the person or business on the date required by the contract is subject to a late payment penalty, as specified. The act requires state agencies to pay applicable penalties, without requiring that the claimant submit an additional invoice for these amounts, whenever the state agency fails to submit a correct claim to the Controller by the required payment approval date and payment is not issued within 45 calendar days from the state agency receipt of an undisputed invoice. The act requires a state agency to pay, through the Controller, to the claimant a penalty at a rate of 10 percent above the

United States Prime Rate on June 30 of the prior fiscal year if the claimant is a certified small business, a nonprofit organization, a nonprofit public benefit corporation, or a small business or nonprofit organization that provides services or equipment under the Medi-Cal program, as prescribed. The act requires, if the Director of Finance determines that a state agency or the Controller is unable to promptly pay an invoice as provided for by this chapter due to a major calamity, disaster, or criminal act, the late payment penalty provisions described above to be suspended, except as they apply to certain claimants, including a certified small business, a nonprofit organization, or a nonprofit public benefit corporation. This bill would include a resource conservation district in the list of entities entitled to the late payment penalty and excepted from the suspension provision described above. This bill contains other existing laws.

[AB 1784](#) (Smith R) Water Quality, Supply, and Infrastructure Improvement Act of 2014: groundwater sustainability projects: grants and loans. (Introduced: 2/3/2022 [html](#) [pdf](#))

Status: 5/6/2022-Failed Deadline pursuant to Rule 61(b)(6). (Last location was A. PRINT on 2/3/2022)

Location: 5/6/2022-A. DEAD

Summary: Existing law, the Water Quality, Supply, and Infrastructure Improvement Act of 2014, approved by the voters as Proposition 1 at the November 4, 2014, statewide general election, authorizes, among other things, the issuance of general obligation bonds in the amount of \$7,120,000,000 to finance a water quality, supply, and infrastructure improvement program. Existing law provides for the sum of \$900,000,000 to be available, upon appropriation by the Legislature from the Water Quality, Supply, and Infrastructure Improvement Fund of 2014, for expenditures on, and competitive grants, and loans for, projects to prevent or clean up the contamination of groundwater that serves or has served as a source of drinking water, as provided. Existing law requires a project that receives funding to be selected by a competitive grant or loan process with added consideration for those projects that leverage private, federal, or local funding, and outlines the additional requirements and processes applicable to projects that receive funding. This bill would make nonsubstantive changes to these latter provisions.

Status: 5/6/2022-Failed Deadline pursuant to Rule 61(b)(6). (Last location was A. H. & C.D. on 4/18/2022)

Location: 5/6/2022-A. DEAD

Summary: Existing law, the Costa-Hawkins Rental Housing Act, prescribes statewide limits on the application of local rent control with regard to certain properties. That act, among other things,

authorizes an owner of residential real property to establish the initial and all subsequent rental rates for a dwelling or unit that has been issued a certificate of occupancy after February 1, 1995, has already been exempt from a residential rent control ordinance as of February 1, 1995, pursuant to a local exemption for newly constructed units, or is alienable separate from the title to any other dwelling unit or is a subdivided interest in a subdivision and meets specified requirements, subject to certain exceptions. This bill would prevent the application of the above-described limitation on local rent control measures where the property is owned by an applicable large business, defined as a business entity that owns 10 or more single-family residential properties and has annual gross receipts of \$1 billion or more.

Status: 8/2/2022-Read second time. Ordered to third reading.

Location: 8/2/2022-S. THIRD READING

Calendar: 8/11/2022 #189 SENATE ASSEMBLY BILLS - THIRD READING FILE

Summary: Existing law generally sets forth the requirements for the solicitation and evaluation of bids and the awarding of contracts by local agencies for public works contracts. Existing law authorizes certain entities, including the Department of General Services, the Military Department, the Department of Corrections and Rehabilitation, and specified local agencies, to use the design-build procurement process, as prescribed, for specified public works. This bill would authorize the Metropolitan Water District of Southern California to use the design-build procurement process for certain regional recycled water projects or other water infrastructure projects. The bill would define "design-build" to mean a project delivery process in which both the design and construction of a project are procured from a single entity. The bill would require the district to use a specified design-build procedure to assign contracts for the design and construction of a project, as defined. This bill contains other related provisions and other existing laws.

[AB 1865](#) (Bennett D) Court fee waiver: water rights cases. (Amended: 3/16/2022 [html](#) [pdf](#))

Status: 8/2/2022-In committee: Referred to suspense file.

Location: 8/2/2022-S. APPR. SUSPENSE FILE

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 2200
SENATE APPROPRIATIONS, PORTANTINO, Chair

Summary: Existing law requires the court to grant a fee waiver to an applicant at any stage of the proceedings at both the appellate and trial court levels if the applicant meets specified standards of eligibility and application requirements, including a person who is receiving certain public benefits, such as Supplemental Security Income or Medi-Cal, or who has a monthly income of 125% or less of the current poverty guidelines, as specified. An initial fee waiver excuses the applicant from paying, among other fees and costs, fees for the first pleading and other court fees and costs as specified in rules adopted by the Judicial Council. This bill would require a court to initially grant permission to proceed without paying court fees and costs to a person who was joined or countersued in a case involving a water right held by the person.

[AB 1867](#) (Lee D) School facilities: modernization projects: bathrooms. (Amended: 4/19/2022 [html](#) [pdf](#))

Status: 8/2/2022-In committee: Referred to suspense file.

Location: 8/2/2022-S. APPR. SUSPENSE FILE

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 2200
SENATE APPROPRIATIONS, PORTANTINO, Chair

Summary: Existing law, the Leroy F. Greene School Facilities Act of 1998 (the Greene Act), requires the State Allocation Board to allocate to applicant school districts prescribed per-unhoused-pupil state funding for the construction and modernization of school facilities, including hardship funding, and supplemental funding for site development and acquisition. This bill would require the governing board of a school district, if the governing board of the school district intends to seek state funding pursuant to the Greene Act for a school modernization project for a school facility constructed before January 1, 2012, to include, as part of the modernization project submitted to the Division of the State Architect, faucet aerators and water-conserving plumbing fixtures in all bathrooms. The bill would provide that these provisions apply only to those projects submitted to the Division of the State Architect beginning 3 months after voters approve a statewide general obligation bond that provides funds for certain school facilities at a statewide election occurring after November 1, 2022. The bill also would provide that these provisions apply only to those projects that propose to repair or make alterations to the interior of a school building and do not apply to projects that only propose to repair or make alterations to the exterior of a school building, the school grounds, or the playing fields of a school. The bill also would provide that these provisions do not apply to bathrooms that already contain both faucet aerators and water-conserving plumbing fixtures at the time the modernization project is submitted.

Status: 8/2/2022-Read second time. Ordered to third reading.

Location: 8/2/2022-S. THIRD READING

Calendar: 8/11/2022 #191 SENATE ASSEMBLY BILLS - THIRD READING FILE

Summary: Under existing law, the State Water Resources Control Board and the California regional water quality control boards implement the Federal Water Pollution Control Act and the Porter-Cologne Water Quality Control Act by prescribing waste discharge requirements for discharges to the waters of the state, as specified. Existing law authorizes the state board and the regional boards to hold hearings necessary for carrying out their duties, as specified. This bill would authorize a regional board to develop a plan or policy to address unfounded or frivolous complaints.

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 2200
SENATE APPROPRIATIONS, PORTANTINO, Chair

Summary: Existing law requires every public agency, as defined, that conducts an establishment serving the public or open to the public and that maintains restroom facilities for the public, to make every water closet available without cost or charge, as provided. Existing law also requires publicly and privately owned facilities where the public congregates to be equipped with sufficient temporary or permanent restrooms to meet the needs of the public at peak hours. This bill would require each local government, as defined, to complete an inventory of public restrooms owned and maintained by the local government, either directly or by contract, that are available to the general population in its jurisdiction. The bill would require local governments to report their findings to the State Department of Public Health, which would be required to compile the information and to make the inventory available in a searchable database on its internet website, as specified. The bill would require the database to be updated quarterly. The bill would require the department to conduct educational outreach to the general public and homelessness service providers that the database is available on its internet website. The bill would repeal its provisions on January 1, 2027. This bill contains other related provisions and other existing laws.

6/8/2022)

Location: 7/5/2022-S. DEAD

Summary: Existing law, the Ralph M. Brown Act, requires, with specified exceptions, that all meetings of a legislative body of a local agency, as those terms are defined, be open and public and that all persons be permitted to attend and participate. The act contains specified provisions regarding the timelines for posting an agenda and providing for the ability of the public to observe and provide comment. The act allows for meetings to occur via teleconferencing subject to certain requirements, particularly that the legislative body notice each teleconference location of each member that will be participating in the public meeting, that each teleconference location be accessible to the public, that members of the public be allowed to address the legislative body at each teleconference location, that the legislative body post an agenda at each teleconference location, and that at least a quorum of the legislative body participate from locations within the boundaries of the local agency's jurisdiction. The act provides an exemption to the jurisdictional requirement for health authorities, as defined. This bill would require the agenda to identify any member of the legislative body that will participate in the meeting remotely. The bill would also require an updated agenda reflecting all of the members participating in the meeting remotely to be posted, if a member of the legislative body elects to participate in the meeting remotely after the agenda is posted. This bill contains other related provisions and other existing laws.

Location: 5/20/2022-A. DEAD

Summary: The California Safe Drinking Water Act provides for the operation of public water systems and imposes on the State Water Resources Control Board various responsibilities and duties relating to the regulation of drinking water to protect public health. This bill would require, by January 1, 2025, the owner or operator of a transit hub, local park, public building, publicly owned building, shopping mall, or municipal golf course that has a water infrastructure source to install and maintain at least one, or maintain at least one existing, accessible water bottle refill station, as prescribed and except as specified. The bill would also require those owners and operators that have a water bottle refill station that is not accessible to upgrade, by January 1, 2025, the water bottle refill station to an accessible water bottle refill station. By imposing additional requirements on local agencies that own or operate local parks, publicly owned buildings, or municipal golf courses, the bill would impose a state-mandated local program. If installation or maintenance of, or upgrade to, an accessible water bottle refill station is not feasible, the bill would authorize substitution of an accessible water cooler or accessible drinking fountain bubbler. This bill contains other related provisions and other existing laws.

Status: 5/20/2022-Failed Deadline pursuant to Rule 61(b)(8). (Last location was A. APPR. SUSPENSE FILE on 4/27/2022)

Location: 5/20/2022-A. DEAD

Summary: Existing law, the Administrative Procedure Act, in part, authorizes various state entities to adopt, amend, or repeal regulations for various specified purposes. These rulemaking provisions of the act require the Office of Administrative Law and the state agency proposing to adopt, amend, or repeal a regulation to review the proposed changes for, among other things, consistency with existing state regulations. Existing law requires the office to initiate a priority review of existing regulations when requested by a committee of the Legislature, as specified. This bill would require each state agency to, on or before January 1, 2026, review that agency's regulations, identify any regulations that are duplicative, overlapping, inconsistent, or out of date, to revise those identified regulations, as provided, and report to the Legislature and Governor, as specified. The bill would repeal these provisions on January 1, 2027.

Location: 5/20/2022-A. DEAD

Summary: Existing law, the California Safe Drinking Water Act, requires the State Water Resources Control Board to adopt primary drinking water standards for contaminants in drinking water. Existing law requires the state board to consider specified criteria when it adopts a primary drinking water standard, including the technological and economic feasibility of compliance. This bill would require the state board to take specified actions if the state board adopts a primary drinking water standard with a compliance period for which public water systems are given a designated period of time to comply with the primary drinking water standard without being held in violation of the primary drinking water standard. Specifically, the bill would require the state board to determine which public water system may not be able to comply with the primary drinking water standard without receiving financial assistance and develop a compliance plan, including a financial plan to assist that public water system in complying with the primary drinking water standard. The bill would also require the state board, if a public water system is in violation of the primary drinking water standard after the compliance period, to take into consideration whether or not the public water system implemented the compliance plan.

Location: 5/20/2022-A. DEAD

Summary: The Corporation Tax Law, in modified conformity with federal income tax laws, exempts various types of organizations from taxes imposed by that law, including an exemption for transfers of assets by specified mutual water companies that are tax exempt under federal income tax laws, but are a taxable entity under state law when certain conditions are met. This bill, for taxable years beginning on or after January 1, 2023, and before January 1, 2028, would exempt from the taxes imposed by the Corporation Tax Law a mutual ditch or irrigation company that operates a public water system if the company complies with specified requirements, including those open meeting and record accessibility requirements for eligible persons. The bill would require the California Association of Mutual Water Companies Joint Powers Risk and Insurance Management Authority, commencing July 1, 2027, to conduct outreach to eligible mutual ditch or irrigation companies regarding the potential repeal of the exemption. This bill contains other related provisions and other existing laws.

Location: 6/21/2022-S. THIRD READING

Calendar: 8/11/2022 #110 SENATE ASSEMBLY BILLS - THIRD READING FILE

Summary: Existing law, the Municipal Water District Law of 1911, provides for the formation of municipal water districts and grants to those districts specified powers. Existing law permits a district to acquire, control, distribute, store, spread, sink, treat, purify, recycle, recapture, and salvage any water for the beneficial use of the district, its inhabitants, or the owners of rights to water in the district. Existing law, upon the request of certain Indian tribes and the satisfaction of certain conditions, requires a district to provide service of water at substantially the same terms applicable to the customers of the district to the Indian tribe's lands that are not within a district, as prescribed. Existing law also authorizes a district, until January 1, 2023, under specified circumstances, to apply to the applicable local agency formation commission to provide this service of water to Indian lands, as defined, that are not within the district and requires the local agency formation commission to approve such an application. This bill, among other things, would extend the above provisions regarding the application to the applicable local agency formation commission to January 1, 2027. By imposing new duties on local officials, the bill would create a state-mandated local program. This bill contains other related provisions and other existing laws.

Summary: Existing law establishes the State Water Resources Control Board (state board) in the California Environmental Protection Agency. The state board consists of 5 members appointed by the Governor, including one member who is not required to have specialized experience. Existing law requires one of those members, excluding the member who is not required to have specialized experience, to additionally be qualified in the field of water supply and water quality relating to irrigated agriculture. This bill would require that one of the persons appointed by the Governor to the state board be qualified in the field of water supply and water quality relating to disadvantaged or tribal communities and not be the same member as the member appointed who is qualified in the field of water supply and water quality relating to irrigated agriculture. The bill would also require that at least one person appointed to each regional board have specialized experience relating to disadvantaged or tribal communities, except as provided. The bill would prohibit, in making those appointments, preference to be given on the basis of ethnicity or national origin. This bill contains other related provisions and other existing laws.

Location: 5/20/2022-A. DEAD

Summary: Under existing law, the State Water Resources Control Board and the 9 California regional water quality control boards regulate water quality and prescribe waste discharge requirements in accordance with the federal national pollutant discharge elimination system (NPDES) permit program established by the federal Clean Water Act and the Porter-Cologne Water Quality Control Act. Existing law requires each regional board to formulate and adopt water quality control plans for all areas within the region, as provided. This bill would create within the Waste Discharge Permit Fund the Waterway Recovery Account, the Citizen Monitoring Account, the Community Capacity Building Account, and the Stormwater Innovation Account, and, subject to future legislation, would annually transfer from the annual proceeds of the State Water Pollution Cleanup and Abatement Account, subject to a future legislative act, the following amounts: 30% to the Waterway Recovery Account; 5% to the Citizen Monitoring Account, but in no instance less than \$250,000; 10% to the Community Capacity Building Account, but in no instance less than \$500,000; and 5% to the Stormwater Innovation Account. The bill would require moneys in the Waterway Recovery Account to be distributed by the state board, upon appropriation by the Legislature, to

each regional board on a pro rata basis to expend on specified purposes, including, among others, restoration projects that improve water quality. The bill would provide that moneys in each of the other 3 accounts created by the bill are available for the state board to expend, upon appropriation by the Legislature, for the following purposes: for the Citizen Monitoring Account, to fund a specified state board program to increase water quality monitoring or to establish a priority water-contact recreation site monitoring program; for the Community Capacity Building Account, to create and fund a community capacity program to increase disadvantaged and tribal community participation in state board outreach and regulatory processes; and for the Stormwater Innovation Account, for specified activities relating to stormwater best management practices. Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 2200 SENATE APPROPRIATIONS, PORTANTINO, Chair

Summary: The Personal Income Tax Law and the Corporation Tax Law, in conformity with federal income tax law, generally defines “gross income” as income from whatever source derived, except as specifically excluded, and provides various exclusions from gross income. Existing law provides an exclusion from gross income for any amount received as a rebate or voucher from a local water or energy agency or supplier for the purchase or installation of a water conservation water closet, energy efficient clothes washers, and plumbing devices, as specified. This bill would, for taxable years beginning on or after January 1, 2022, and before January 1, 2027, under both of these laws, provide an exclusion from gross income for any amount received as a rebate, voucher, or other financial incentive issued by a public water system, as defined, local government, or state agency for participation in a turf replacement water conservation program. This bill contains other related provisions and other existing laws.

Status: 5/6/2022-Failed Deadline pursuant to Rule 61(b)(6). (Last location was A. PRINT on 2/15/2022)

Location: 5/6/2022-A. DEAD

Summary: Existing law requires the Department of Water Resources, in coordination with the State Water Resources Control Board, and in collaboration with and input from stakeholders, to conduct

necessary studies and investigations and authorizes the department and the board to jointly recommend to the Legislature a standard for indoor residential water use. Existing law, until January 1, 2025, establishes 55 gallons per capita daily as the standard for indoor residential water use, beginning January 1, 2025, establishes the greater of 52.5 gallons per capita daily or a standard recommended by the department and the board as the standard for indoor residential water use, and beginning January 1, 2030, establishes the greater of 50 gallons per capita daily or a standard recommended by the department and the board as the standard for indoor residential water use. This bill would make a nonsubstantive change to the provision requiring the department and the board to collaborate with, and seek input from, stakeholders with regard to the studies, investigations, and report.

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 2200 SENATE APPROPRIATIONS, PORTANTINO, Chair

Summary: Existing law, the Sustainable Groundwater Management Act, requires all groundwater basins designated as high- or medium-priority basins by the Department of Water Resources that are designated as basins subject to critical conditions of overdraft to be managed under a groundwater sustainability plan or coordinated groundwater sustainability plans by January 31, 2020, and requires all other groundwater basins designated as high- or medium-priority basins to be managed under a groundwater sustainability plan or coordinated groundwater sustainability plans by

January 31, 2022, except as specified. Existing law authorizes any local agency or combination of local agencies overlying a groundwater basin to decide to become a groundwater sustainability agency for that basin and imposes specified duties upon that agency or combination of agencies, as provided. Existing law also authorizes the State Water Resources Control Board to designate a high- or medium-priority basin as a probationary basin under certain conditions for specified purposes. This bill would prohibit a county, city, or any other water well permitting agency from approving a permit for a new groundwater well or for an alteration to an existing well in a basin subject to the act and classified as medium- or high-priority unless specified conditions are met, including that it obtains a written verification, from the groundwater sustainability agency that manages the basin or area of the basin where the well is proposed to be located, determining that, among other things, the extraction by the proposed well is consistent with any sustainable groundwater management program established in any applicable groundwater sustainability plan adopted by that groundwater sustainability agency or an alternate plan approved or under review by the Department of Water Resources. This bill contains other related provisions and other existing laws.

AB 2248 ([Garcia, Eduardo D](#)) **Water quality: California-Mexico cross-border rivers.** (Amended: 6/30/2022 [html](#) [pdf](#))

Status: 8/2/2022-In committee: Referred to suspense file.

Location: 8/2/2022-S. APPR. SUSPENSE FILE

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 2200 SENATE APPROPRIATIONS, PORTANTINO, Chair

Summary: Current law establishes the California-Mexico Border Relations Council in state government, chaired by the Secretary for Environmental Protection, and prescribes the functions and duties of the council with respect to coordinating the activities of state agencies that are related to cross-border programs, initiatives, projects, and partnerships that exist within state government, and state and local efforts that are of concern between California and Mexico. Existing law requires the council to develop a strategic plan to guide a project to study, monitor, remediate, and enhance water quality in the New River in the County of Imperial. Existing law requires the council to establish the New River Water Quality, Public Health, and River Parkway Development Program to coordinate funding for, and the implementation of, recommendations from the strategic plan and related projects. This bill would make \$100,000,000 available from the General Fund, upon appropriation by the Legislature in the annual Budget Act or another statute, to the State Water Resources Control Board for grants and direct expenditures to address water quality problems arising in California-Mexico cross-border rivers. The bill would require the funding to be available for purposes consistent with the New River Water Quality, Public Health, and River Parkway Development Program and water quality projects for the Tijuana River and would make 5% of the funding available for the administrative costs of the state board in implementing these provisions and 5% available for the costs of the Office of the Attorney General in enforcing these provisions. The bill would require the state board, in consultation with the California Environmental Protection Agency, the San Diego Regional Water Quality Control Board, and the Colorado River Basin Regional Water Quality Control Board, to administer the funding, as specified. The bill would require expenditures of the funding to be consistent with the work of the California Environmental Protection Agency Border Affairs Program and would require priority for the funding to be given to projects that have funding

committed by the United States, the Republic of Mexico, the State of Baja California, or the City of Tijuana or Mexicali. The bill would authorize grant funding to be conditioned on enforceability and accountability mechanisms agreed upon by the state board and the recipient, as prescribed, and would authorize funding to be provided for activities or projects in the State of Baja California under certain circumstances. The bill would require the state board and the California Environmental Protection Agency to notify the leadership office in each house of the Legislature on cross-border collaboration and the expenditure of the funding.

Summary: (1)Existing law authorizes the Judicial Council to conduct institutes and seminars for the purpose of orienting judges to new judicial assignments, keeping them informed concerning new developments in the law, and promoting uniformity in judicial procedure, as specified. This bill would authorize the Judicial Council, on or before January 1, 2025, to establish a program that provides training and education to judges in specified actions relating to water, as defined. The bill would provide that the program may be funded by an appropriation from the General Fund in the annual Budget Act or another statute, or by using existing funds for judicial training. The bill would require a court to prioritize assigning a judge with training or education under the program for actions relating to water, if certain conditions are met.

This bill contains other related provisions and other existing laws.

[AB 2357](#) (Ting D) Surplus land. (Amended: 4/5/2022 [html](#) [pdf](#))

Status: 7/5/2022-Failed Deadline pursuant to Rule 61(b)(14). (Last location was S. GOV. & F. on 6/1/2022)

Location: 7/5/2022-S. DEAD

Summary: Existing law prescribes requirements for the disposal of surplus land by a local agency, as defined, and requires, except as provided, a local agency disposing of surplus land to comply with certain notice requirements before disposing of the land or participating in negotiations to dispose of the land with a prospective transferee, particularly that the local agency send a notice of availability to specified entities that have notified the Department of Housing and Community

Development of their interest in surplus land, as specified. Under existing law, if the local agency receives a notice of interest, the local agency is required to engage in good faith negotiations with the entity desiring to purchase or lease the surplus land. Existing law defines “exempt surplus land,” for which a local agency is not required to follow the requirements for disposal of surplus land, except as provided, as, among other things, surplus land that is subject to valid legal restrictions that are not imposed by the local agency and that would make housing prohibited, as specified. This bill would also require the department to maintain on its internet website a listing of all entities, including housing sponsors, that have notified the department of their interest in surplus land for the purpose of developing low- and moderate-income housing. This bill contains other related provisions and other existing laws.

[AB 2362](#) (Mullin D) Publicly and environmentally beneficial projects: interagency coordination: permits. (Amended: 6/30/2022 [html](#) [pdf](#).)

Status: 8/2/2022-In committee: Referred to suspense file.

Location: 8/2/2022-S. APPR. SUSPENSE FILE

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 2200 SENATE APPROPRIATIONS, PORTANTINO, Chair

Summary: (1)Existing law requires the Natural Resources Agency, by July 1, 2017, and every 3 years thereafter, to update the state’s climate adaptation strategy to identify vulnerabilities to climate change by sectors and priority actions needed to reduce the risks in those sectors. Existing law requires the agency to explore, and authorizes the agency to implement, options within the agency’s jurisdiction to establish a more coordinated and efficient regulatory review and permitting process for coastal adaptation projects that use natural infrastructure. This bill would require the agency, on or before July 1, 2023, in coordination with the California Environmental Protection Agency, to convene the Interagency Working Group comprised of regulatory agencies under the auspices of the agency and the California Environmental Protection Agency that are responsible for permitting environmentally beneficial projects, that include procedures and ongoing management for the protection of the environment and that serve the primary purposes of aquatic, riparian ecosystem, or upland habitat restoration, enhancement, or establishment, to coordinate efficient regulatory review and permitting mechanisms, as provided. The bill would authorize the Interagency Working Group to establish and consult with a panel of stakeholders of no more than 15 members, as specified. The bill would require the meetings of the Interagency Working Group and the stakeholder panel to be publicly held with appropriate advance public notice. The bill would require the Interagency Working Group to, among other things, identify existing programmatic and other efficient permitting mechanisms, coordinate actions to expedite permitting for those projects, and develop and implement, as specified, robust internal training procedures, including manuals, guidelines, and other materials, to ensure that each state entity involved in permitting projects uses the same standards to evaluate permit applications, and would require those training manuals, guidelines, and other materials to be readily and publicly available on each applicable state entity’s internet website. The bill would require the agency, on or before July 1, 2024, and annually thereafter, to submit a comprehensive report, as specified, to the Legislature evaluating regulatory and permitting mechanisms that meaningfully accelerate those projects. The bill would require the agency to provide funding for the participation of state entities within its jurisdiction in carrying out these provisions. The bill would repeal these provisions on January 1, 2028.

This bill contains other related provisions and other existing laws.

Status: 5/19/2022-In committee: Held under submission.

Location: 5/11/2022-A. APPR. SUSPENSE FILE

Summary: The California Drought, Water, Parks, Climate, Coastal Protection, and Outdoor Access For All Act of 2018, approved by the voters as Proposition 68 at the June 5, 2018, statewide primary election, authorizes the issuance of bonds in the amount of \$4,100,000,000 pursuant to the State General Obligation Bond Law to finance a drought, water, parks, climate, coastal protection, and outdoor access for all program. Article XVI of the California Constitution requires measures authorizing general obligation bonds to specify the single object or work to be funded by the bonds and further requires a bond act to be approved by a 2/3 vote of each house of the Legislature and a majority of the voters. This bill would enact the Safe Drinking Water, Wildfire Prevention, Drought Preparation, Flood Protection, Extreme Heat Mitigation, and Workforce Development Bond Act of 2022, which, if approved by the voters, would authorize the issuance of bonds in the amount of \$7,430,000,000 pursuant to the State General Obligation Bond Law to finance projects for safe drinking water, wildfire prevention, drought preparation, flood protection, extreme heat mitigation, and workforce development programs. This bill contains other related provisions.

Location: 5/20/2022-A. DEAD

Summary: Existing law, the Cannella Environmental Farming Act of 1995, requires the Department of Food and Agriculture to establish and oversee an environmental farming program that provides incentives to farmers whose practices promote the well-being of ecosystems, air quality, and wildlife and their habitat. The act requires the Secretary of Food and Agriculture to convene the Scientific Advisory Panel on Environmental Farming to advise the secretary on the implementation of the Healthy Soils Program and the State Water Efficiency and Enhancement Program, and to assist federal, state, and local government agencies, as appropriate or necessary, on issues relating to the impact of agricultural practices on air, water, and wildlife habitat, as specified. This bill would require the department, upon appropriation by the Legislature of additional funds, to administer the State Water Efficiency and Enhancement Program to provide grants to agricultural operations to implement irrigation, water reclamation, water storage, or groundwater recharge systems that reduce greenhouse gases and energy use or increase water use efficiency. The bill would require the secretary, on or before one year after receiving an appropriation by the Legislature for these purposes, in consultation with the Scientific Advisory Panel on Environmental Farming, to develop guidelines for awarding grants under the program, as specified. The bill would require the secretary, on or before January 1, 2027, and biennially thereafter, to submit a report to the Legislature, as prescribed.

Status: 8/2/2022-In committee: Referred to suspense file.

Location: 8/2/2022-S. APPR. SUSPENSE FILE

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 2200 SENATE APPROPRIATIONS, PORTANTINO, Chair

Summary: Existing law establishes the Strategic Growth Council consisting of specified state agency members and members of the public. Existing law requires the council, among other things, to recommend policies and investment strategies and priorities to the Governor, the Legislature, and to appropriate state agencies to encourage the development of sustainable communities, such as those communities that promote equity, strengthen the economy, protect the environment, and promote public health and safety. The federal Infrastructure Investment and Jobs Act (IIJA) provides additional federal funds to rebuild the nation's infrastructures. Executive orders issued by President Biden established the federal Justice40 Initiative with the goal that 40% of the overall federal benefits flow to disadvantaged communities and stating that the implementation of the IIJA should

prioritize investing public dollars equitably, including through the Justice40 Initiative. This bill would require a minimum of 40% of funds received by the state under the IIJA and certain other federal funds to be allocated to projects that provide direct benefits to disadvantaged communities and disadvantaged unincorporated communities and, except as specified, a minimum of an additional 10% be allocated for projects that provide direct benefits to low-income households and low-income communities, as provided. The bill would require state agencies administering those federal funds to perform specified tasks related to the expenditure of those federal funds. This bill contains other related provisions and other existing laws.

AB 2449 ([Rubio, Blanca D](#)) **Open meetings: local agencies: teleconferences.** (Amended: 8/8/2022 [html](#) [pdf](#))

Status: 8/8/2022-Read third time and amended. Ordered to second reading.

Location: 8/8/2022-S. SECOND READING

Calendar: 8/11/2022 #50 SENATE ASSEMBLY BILLS - SECOND READING FILE

Summary: Existing law, the Ralph M. Brown Act, requires, with specified exceptions, that all meetings of a legislative body of a local agency, as those terms are defined, be open and public and that all persons be permitted to attend and participate. The act generally requires posting an agenda at least 72 hours before a regular meeting that contains a brief general description of each item of business to be transacted or discussed at the meeting, and prohibits any action or discussion from being undertaken on any item not appearing on the posted agenda. The act authorizes a legislative body to take action on items of business not appearing on the posted agenda under specified conditions. The act contains specified provisions regarding providing for the ability of the public to observe and provide comment. The act allows for meetings to occur via teleconferencing subject to certain requirements, particularly that the legislative body notice each teleconference location of each member that will be participating in the public meeting, that each teleconference location be accessible to the public, that members of the public be allowed to address the legislative body at each teleconference location, that the legislative body post an agenda at each teleconference location, and that at least a quorum of the legislative body participate from locations within the boundaries of the local agency's jurisdiction. The act provides an exemption to the jurisdictional requirement for health authorities, as defined. This bill would revise and recast those teleconferencing provisions and, until January 1, 2026, would authorize a local agency to use teleconferencing without complying with the teleconferencing requirements that each teleconference location be identified in the notice and agenda and that each teleconference location be accessible to the public if at least a quorum of the members of the legislative body participates in person from a singular physical location clearly identified on the agenda that is open to the public and situated within the local agency's jurisdiction. Under this exception, the bill would authorize a member to participate remotely under specified circumstances, including participating remotely for just cause or due to emergency circumstances. The emergency circumstances basis for remote participation would be contingent on a request to, and action by, the legislative body, as prescribed. The bill, until January 1, 2026, would authorize a legislative body to consider and take action on a request from a member to participate in a meeting remotely due to emergency circumstances if the request does not allow sufficient time to place the proposed action on the posted agenda for the meeting for which the request is made. The bill would define terms for purposes of these teleconferencing provisions. This bill contains other related provisions and other existing laws.

Status: 8/8/2022-In committee: Referred to suspense file.

Location: 8/8/2022-S. APPR. SUSPENSE FILE

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 2200 SENATE APPROPRIATIONS, PORTANTINO, Chair

Summary: (1)Existing law establishes within the Natural Resources Agency the State Water Resources Control Board and the California regional water quality control boards. Existing law requires the work of the state board to be divided into at least 2 divisions, known as the Division of Water Rights and the Division of Water Quality. Existing law requires the state board to formulate and adopt state policy for water quality control. This bill would create a Drought Section within the state board, as specified. The bill would require the state board, in consultation with the Department of Fish and Wildlife, to adopt principles and guidelines for diversion and use of water in coastal watersheds, as specified, during times of water shortage for drought preparedness and climate resiliency. The bill would require that the principles and guidelines provide for the development of watershed-level contingency plans to support public trust uses, public health and safety, and the human right to water in times of water shortage, among other things. The bill also would require the state board, prior to adopting those principles and guidelines, to allow for public comment and hearing, as provided. The bill would require the state board to adopt those principles and guidelines no later than March 31, 2024.

Status: 6/20/2022-Approved by the Governor. Chaptered by Secretary of State - Chapter 23, Statutes of 2022.

Location: 6/16/2022-A. CHAPTERED

Summary: Existing law authorizes the legislative body of a local agency, as defined, that provides water services to adopt an ordinance that prohibits water theft, as defined, subject to an administrative fine or penalty, as specified. Existing law requires the local agency to adopt an ordinance that sets forth the administrative procedures governing the imposition, enforcement, collection, and administrative review of the administrative fines or penalties for water theft and to establish a process for granting a hardship waiver to reduce the amount of the fine, as specified. Existing law, the Irrigation District Law, provides for the formation of irrigation districts with prescribed powers. This bill would authorize irrigation districts, as defined, to impose fines or penalties for water theft in accordance with both of the above-described provisions, and would provide that the above-specified provisions do not cap or limit the fines that an irrigation district may

impose in accordance with the Irrigation District Law. This bill contains other existing laws.

Status: 7/19/2022-Approved by the Governor. Chaptered by Secretary of State - Chapter 128, Statutes of 2022.

Location: 7/19/2022-A. CHAPTERED

Summary: The Mitigation Fee Act requires a local agency that establishes, increases, or imposes a fee as a condition of approval of a development project to, among other things, determine a reasonable relationship between the fee's use and the type of development project on which the fee is imposed. Existing law requires a local agency that conducts an impact fee nexus study to follow certain standards and practices, as specified. Existing law also requires a local agency to hold at least one open and public meeting prior to levying a new fee or service charge, as specified. This bill would require a local agency, prior to levying a new fee or capacity charge or approving an increase in an existing fee or capacity charge, to evaluate the amount of the fee or capacity charge. The bill would require the evaluation to include evidence to support that the fee or capacity charge does not exceed the estimated reasonable cost of providing service, as specified. The bill would require all information constituting the evaluation to be made publicly available at least 14 days prior to a specified meeting. This bill contains other existing laws.

[AB 2605](#) (Villapudua D) Water quality: state certification. (Amended: 4/18/2022 [html](#) [pdf](#))

Status: 4/29/2022-Failed Deadline pursuant to Rule 61(b)(5). (Last location was E.S. & T.M. on 3/10/2022)

Location: 4/29/2022-A. DEAD

Summary: Under existing law, the State Water Resources Control Board and the California regional water quality control boards prescribe waste discharge requirements in accordance with the Federal Water Pollution Control Act and the Porter-Cologne Water Quality Control Act. Under federal law, any applicant seeking a federal license or permit for an activity that may result in any discharge into the navigable waters of the United States is required to first seek a state water quality certification, as specified. The Porter-Cologne Water Quality Control Act authorizes the state board to certify or provide a statement to a federal agency, as required pursuant to federal law, that there is reasonable assurance that an activity of any person subject to the jurisdiction of the state board will not reduce water quality below applicable standards. The federal act provides that if a state fails or refuses to act on a request for this certification within a reasonable period of time, which shall not exceed one year after receipt of the request, then the state certification requirements are waived with respect to the federal application. This bill would authorize the state board to delegate its authority regarding

the above-described issuance of a certificate or statement to the regional boards. The bill would require a project proponent, as defined, to request a prefiling meeting with the state board, as specified. The bill would require the state board to act on the certification request within 60 days, except as specified. The bill would require a certification request to the state board for either an individual license or permit or a general license or permit to contain specified information. The bill would require the state board to take specified actions depending on whether it grants, grants with conditions, or denies the certification request.

Location: 4/29/2022-A. DEAD

Summary: The California Building Standards Law provides for the adoption of building standards by state agencies by requiring all state agencies that adopt or propose adoption of any building standard to submit the building standard to the California Building Standards Commission for approval and adoption. Existing law requires the commission to conduct research to assist in the development of mandatory green building standards for the installation of recycled water systems for newly constructed commercial and public buildings, in consultation with the State Water Resources Control Board and other interested parties. This bill would require, commencing January 1, 2024, all newly constructed nonresidential buildings be constructed with dual plumbing to allow the use of recycled water for all applicable nonpotable water demands, as defined, if that building is located within an existing or planned recycled water service area, as specified. This bill contains other related provisions and other existing laws.

Notes 1:

[AB 2857](#) (Bauer-Kahan D) Sustainable Groundwater Management Act: groundwater sustainability plans: domestic well impacts. (Amended: 3/24/2022 [html](#) [pdf](#))

Status: 4/29/2022-Failed Deadline pursuant to Rule 61(b)(5). (Last location was W.,P. & W. on 3/24/2022)

Location: 4/29/2022-A. DEAD

Summary: The Sustainable Groundwater Management Act requires all groundwater basins designated as high- or medium-priority basins by the Department of Water Resources that are designated as basins subject to critical conditions of overdraft to be managed under a groundwater sustainability plan or coordinated groundwater sustainability plans by January 31, 2020, and requires all other groundwater basins designated as high- or medium-priority basins to be managed under a groundwater sustainability plan or coordinated groundwater sustainability plans by January 31, 2022, except as specified. The act prescribes that a groundwater sustainability plan contain certain information, including, where appropriate and in collaboration with the appropriate local agencies, control of saline water intrusion, wellhead protection areas and recharge areas, a well abandonment and well destruction program, well construction policies, and impacts on groundwater dependent ecosystems. This bill would additionally require that a groundwater sustainability plan include measures to mitigate adverse impacts on domestic wells, as defined, including, but not limited to, compensating an owner of a domestic well or a user of water from a domestic well for increased energy costs associated with deeper groundwater pumping and increased costs to households associated with the delivery of water from an existing water supply system or alternative water supply. The bill would prohibit a mitigation measure from subjecting an owner of a domestic well or a user of water from a domestic well to an unreasonable financial burden or expense. By requiring local agencies that are groundwater sustainability agencies to include this additional information in their groundwater sustainability plans, this bill would impose a state-mandated local program. Insofar as this bill requires local agencies that are groundwater sustainability agencies to include in their mitigation measures compensation to owners of domestic water wells and users of water from domestic water wells for increased costs, this bill would impose a state-mandated local program.

[AB 2858](#) (Dahle, Megan R) Fish and wildlife: safe harbor agreements. (Introduced: 2/18/2022 [html](#) [pdf](#))

Status: 5/6/2022-Failed Deadline pursuant to Rule 61(b)(6). (Last location was A. PRINT on 2/18/2022)

Location: 5/6/2022-A. DEAD

Summary: Existing law, the California State Safe Harbor Agreement Program Act, establishes a program that encourages landowners to manage their lands voluntarily to benefit endangered, threatened, or candidate species, or declining or vulnerable species, and not be subject to

additional regulatory restrictions as a result of their conservation efforts. The act requires the Department of Fish and Wildlife, to the maximum extent practicable, to prioritize the review of, and decision to approve, a safe harbor agreement if the property proposed to be enrolled in the agreement is encumbered by a conservation easement that requires a permanent commitment to protect, restore, and maintain habitat conditions, provided that the department finds that practices consistent with the conservation easement can reasonably be expected to provide a net conservation benefit to the species listed in the application. This bill would state the intent of the Legislature to enact subsequent legislation that would require safe harbor agreements authorized pursuant to the act to be reviewed and either approved and signed, or denied, by the department in a specified period of time upon receipt of all documents required by the act.

Status: 5/6/2022-Failed Deadline pursuant to Rule 61(b)(6). (Last location was A. U. & E. on 3/17/2022)

Location: 5/6/2022-A. DEAD

Summary: Existing law requires each electrical corporation, local publicly owned electric utility, and electrical cooperative to construct, maintain, and operate its electrical lines and equipment in a manner that will minimize the risk of catastrophic wildfire posed by those electrical lines and equipment. Existing law requires any person that owns, controls, operates, or maintains any electrical transmission or distribution line upon any mountainous, forest-covered, brush-covered, or grass-covered land to maintain a clearance between all vegetation and all conductors that are carrying electrical current, as prescribed. This bill would provide that a person or entity that performs tree trimming or vegetation maintenance services or specialty electrical contracting services under contract to an electrical utility is not liable for any damage or injury that results from a fire ignited by electrical utility facilities, except for damage or injury proximately caused by the contractor’s negligence, gross negligence, or willful misconduct. The bill would, for contractors who retain at least \$10,000,000 of fire liability insurance, limit the liability to the dollar amount of fire liability insurance possessed by the contractor, as provided. The bill would define various terms for purposes of those provisions and would state related findings and declarations of the Legislature.

[AB 2877](#) ([Garcia, Eduardo D](#)) **Safe and Affordable Drinking Water Fund: tribes. (Amended: 6/30/2022 [html](#) [pdf](#))**

Status: 8/2/2022-In committee: Referred to suspense file.

Location: 8/2/2022-S. APPR. SUSPENSE FILE

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 2200 SENATE APPROPRIATIONS, PORTANTINO, Chair

Summary: Current law establishes the Safe and Affordable Drinking Water Fund in the State Treasury to help water systems provide an adequate and affordable supply of safe drinking water in both the near and long terms. Existing law continuously appropriates to the State Water Resources Control Board moneys deposited in the fund for the development, implementation, and sustainability of long-term drinking water solutions, among other things. Existing law requires the state board to expend moneys in the fund for grants, loans, contracts, or services to assist eligible recipients. Existing law includes within the list of “eligible recipients,” public agencies, nonprofit organizations, public utilities, mutual water companies, federally recognized California Native American tribes, specified nonfederally recognized Native American tribes, administrators, groundwater sustainability agencies, community water systems, and technical assistance providers. This bill would specify that any waiver of tribal sovereignty that is required by the state board for a tribe that is an eligible recipient to access funding from the fund shall be narrowly drafted to serve both the individual needs of the tribe and make the funding agreement enforceable. The bill would require the state board to include its designated tribal advisor in all discussions with eligible recipients, except as specified. The bill would require the state board to consider the extent that funds for safe drinking water projects from the programs administered by the state board are distributed to eligible recipients that are federally recognized California Native American tribes or specified nonfederally recognized Native American tribes and make diligent efforts to ensure the distribution of funds to those eligible recipients. The bill would require the state board to expend those funds, upon appropriation by the Legislature, for grants, loans, contracts, or services to assist those eligible recipients. The bill would require the state board to post on its internet website, and update annually, the number of inquiries for funding received from tribes, the number of applications for funding received from tribes, and the total amount of funding granted to tribes each year.

AB 2895 (Arambula D) Water: permits and licenses: temporary changes: water or water rights transfers. (Amended: 6/23/2022 [html](#) [pdf](#))

Status: 8/2/2022-Read second time. Ordered to third reading.

Location: 8/2/2022-S. THIRD READING

Calendar: 8/11/2022 #223 SENATE ASSEMBLY BILLS - THIRD READING FILE

Summary: Under existing law, the State Water Resources Control Board administers a water rights program pursuant to which the board grants permits and licenses to appropriate water. Existing law authorizes a permittee or licensee to temporarily change the point of diversion, place of use, or purpose of use due to a transfer or exchange of water or water rights if the transfer would only involve the amount of water that would have been consumptively used or stored by the permittee or licensee in the absence of the proposed temporary change, would not injure any legal user of the water, and would not unreasonably affect fish, wildlife, or other instream beneficial uses. Existing law prescribes the process for a permittee or licensee to petition the board for a temporary change due to a transfer or exchange of water rights, and imposes on the board related notice, decision, and hearing requirements. Under that process, a petitioner is required to publish notice of a petition in a newspaper, as specified. Existing law requires a petition to contain specified information and requires a petitioner to provide a copy of the petition to the Department of Fish and Wildlife, the board of supervisors of the county or counties in which the petitioner currently stores or uses the water subject to the petition, and the board of supervisors of the county or counties to which the water is proposed to be transferred. This bill would revise and recast the provisions regulating temporary changes due to a transfer or exchange of water rights, including, among other revisions, specifying that those provisions apply to a person who proposes a temporary change for purposes of preserving or enhancing wetlands habitat, fish and wildlife resources, or recreation. The bill would eliminate the requirement that a petitioner publish notice of a petition in a newspaper. This bill contains other related provisions and other existing laws.

AB 2919 (Fong R) Dams: release of water: fish populations. (Amended: 3/24/2022 [html](#) [pdf](#))

Status: 4/29/2022-Failed Deadline pursuant to Rule 61(b)(5). (Last location was W.,P. & W. on 3/24/2022)

Location: 4/29/2022-A. DEAD

Summary: Existing law requires the Department of Fish and Wildlife to examine all dams in all rivers and streams in the state naturally frequented by fish. If, in the opinion of the Fish and Game Commission, there is not free passage for fish over or around any dam, existing law requires the department to cause plans to be furnished for a suitable fishway, and to order in writing the owner of the dam to provide the dam with a durable and efficient fishway. Existing law requires the owner of a dam to allow sufficient water at all times to pass through a fishway, or in the absence of a fishway, allow sufficient water to pass over, around or through the dam, to keep in good condition any fish that may be planted or exist below the dam. This bill would provide that, notwithstanding any other law, the release of water from a dam shall only be regulated based on actual fish populations and not based on approximate fish populations.

Notes 1:

SB 37 (**Cortese D**) **Contaminated Site Cleanup and Safety Act.** (Amended: 9/3/2021 [html](#) [pdf](#))

Status: 9/10/2021-Failed Deadline pursuant to Rule 61(a)(15). (Last location was INACTIVE FILE on 9/8/2021)(May be acted upon Jan 2022)

Location: 9/10/2021-A. 2 YEAR

Summary: (1)Existing law requires the Department of Toxic Substances Control to compile a list of specified information, including, but not limited to, hazardous waste facilities where the department took, or contracted for the taking of, corrective action to remedy or prevent, for example, an imminent substantial danger to public health. Existing law requires the State Department of Health Care Services to compile a list of all public drinking water wells that contain detectable levels of organic contaminants and that are subject to water analysis by local health officers. Existing law requires the State Water Resources Control Board to compile a list of specified information, including, but not limited to, all cease and desist orders and cleanup and abatement orders issued under the Water Code that concern the discharge of wastes that are hazardous materials. Existing law requires designated local enforcement agencies to compile and submit to the Department of Resources Recycling and Recovery a list of all solid waste disposal facilities from which there is a known migration of hazardous waste, and requires the department to compile these lists into a statewide list. Existing law requires these agencies to update the information as appropriate, but at least annually, and to submit the information to the Secretary for Environmental Protection. Under existing law, the Secretary for Environmental Protection is required to consolidate the information provided by these state agencies and distribute the information in a timely fashion to each city and county in which sites on the lists are located and to any other person upon request. This bill would repeal the requirement for the State Department of Health Care Services to compile a list of all public drinking water wells, as described above. The bill would repeal the requirement for the state agencies to provide their respective lists to the Secretary for Environmental Protection and instead require these agencies to post the lists on their respective internet websites. The bill would repeal the requirement

for the Secretary for Environmental Protection to consolidate the information submitted by the state agencies and instead require the secretary to post the information, or links to the information, on the California Environmental Protection Agency's internet website. The bill would repeal the requirement for the Secretary for Environmental Protection to distribute the information to each city and county in which sites on the lists are located and to any other person upon request. This bill contains other related provisions and other existing laws.

Status: 6/27/2022-Read second time. Ordered to third reading.

Location: 6/27/2022-A. THIRD READING

Calendar: 8/11/2022 #67 ASSEMBLY THIRD READING FILE - SENATE BILLS

Summary: Existing law authorizes the Department of Fish and Wildlife, with the approval of the Fish and Game Commission, to, among other things, maintain, use, and administer land suitable for the purpose of establishing ecological reserves. The Budget Act of 2021 appropriated \$50,000 from the General Fund to the department to rename the "Eden Landing Ecological Reserve" the "Congressman Pete Stark Ecological Reserve." This bill would amend the Budget Act of 2021 by revising "Congressman Pete Stark Ecological Reserve" to "Congressman Pete Stark Ecological Reserve at Eden Landing" within that appropriation and would rename the "Eden Landing Ecological Reserve," as specified in certain regulations, the "Congressman Pete Stark Ecological Reserve at Eden Landing." The bill would require the department to implement that name change and would provide that, notwithstanding any other law, commission approval is not required to implement the name change. This bill contains other related provisions.

Location: 6/21/2022-A. THIRD READING

Calendar: 8/11/2022 #56 ASSEMBLY THIRD READING FILE - SENATE BILLS

Summary: Existing law, the California Safe Drinking Water Act, requires the State Water Resources Control Board to administer provisions relating to the regulation of drinking water to protect public health. Existing law declares it to be the established policy of the state that every human being has the right to safe, clean, affordable, and accessible water adequate for human consumption, cooking, and sanitary purposes. Existing law requires the state board, by January 1, 2018, to develop a plan for the funding and implementation of the Low-Income Water Rate Assistance Program, as prescribed. Existing law requires the state board, by February 1, 2018, to report to the Legislature on its findings regarding the feasibility, financial stability, and desired

structure of the program, including any recommendations for legislative action that may need to be taken. This bill would establish the Water Rate Assistance Fund in the State Treasury to help provide water affordability assistance, for both drinking water and wastewater services, to low-income residential ratepayers. The bill would make moneys in the fund available upon appropriation by the Legislature to the state board to provide, in consultation with relevant agencies, direct water bill assistance, water bill assistance to residential ratepayers served by eligible systems, as defined, and by tribal water systems that choose to participate and would require 80% of total funds to be directly applied to customer assistance. The bill would authorize the state board to identify and contract with a third-party fund administrator. The bill would impose requirements on the state board in connection with the program, including, among others, within 270 days of the effective date, as defined, adopting guidelines in consultation with relevant agencies and an advisory group for implementation of the program and preparing a report to be posted on state board's internet website identifying how the fund has performed. This bill contains other related provisions and other existing laws.

Location: 8/3/2022-A. APPR. SUSPENSE FILE

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 1100 ASSEMBLY APPROPRIATIONS, HOLDEN, Chair

Summary: Existing law, the California Safe Drinking Water Act, requires the State Water Resources Control Board to administer provisions relating to the regulation of drinking water to protect public health. The state board's duties include, but are not limited to, conducting research, studies, and demonstration programs relating to the provision of a dependable and safe supply of drinking water, enforcing the federal Safe Drinking Water Act, and adopting and enforcing regulations. This bill would require the state board to build upon its existing work dealing with, and work to improve its knowledge of, constituents of emerging concern (CEC) in water and, as part of this work, to improve its knowledge of CECs in drinking water by assessing the state of information, as specified. The bill would authorize the state board to establish, maintain, and direct a dedicated program called the Constituents of Emerging Concern in Drinking Water Program. The bill would authorize the state board to convene a Science Advisory Panel to review and provide recommendations to the state board on CECs for further action, among other duties. The bill would require the state board to provide a report to the Legislature 3 years after the panel is convened on the work conducted by the panel. This bill contains other related provisions.

SB 463 (Dahle R) Water: landowner or water right holder right to modify, repair, or replace jointly used conduits. (Amended: 1/10/2022 [html](#) [pdf](#))

Status: 7/5/2022-Failed Deadline pursuant to Rule 61(b)(14). (Last location was A. W.,P. & W. on 1/10/2022)

Location: 7/5/2022-A. DEAD

Summary: Existing law declares that the general welfare requires that the water resources of the state be put to beneficial use to the fullest extent of which they are capable, that the waste or unreasonable use or unreasonable method of use of water be prevented, and that the conservation of water is to be exercised with a view to the reasonable and beneficial use of water in the interest of the people and for the public welfare. This bill would authorize a landowner, where a conduit is constructed across or buried beneath the lands of 2 or more landowners, and the conduit is not under the control or management of any public agency or authority, to modify, repair, or replace, as defined, the conduit on or beneath their land if the modification, repair, or replacement is made in a manner that does not impede the flow of the water to any other water right holder receiving a benefit of the conduit. This bill contains other related provisions and other existing laws.

[SB 520](#) (**[Wilk R](#)**) **Water resources: permit to appropriate: application procedure: mining use.** (Amended: 3/17/2021 [html](#) [pdf](#))

Status: 7/5/2022-Failed Deadline pursuant to Rule 61(b)(14). (Last location was A. W.,P. & W. on 6/21/2022)

Location: 7/5/2022-A. DEAD

Summary: Under existing law, the State Water Resources Control Board administers a water rights program pursuant to which the board grants permits and licenses to appropriate water. Existing law requires an application for a permit to appropriate water to include, among other things, sufficient information to demonstrate a reasonable likelihood that unappropriated water is available for the proposed appropriation. Existing law requires the board to issue and deliver a notice of an application as soon as practicable after the receipt of an application for a permit to appropriate water that conforms to the law. Existing law allows interested persons to file a written protest with regard to an application to appropriate water and requires the protestant to set forth the objections to the application. Existing law declares that no hearing is necessary to issue a permit in connection with an unprotested application, or if the undisputed facts support the issuance of the permit and there is no disputed issue of material fact, unless the board elects to hold a hearing. This bill, if the board has not rendered a final determination on an application for a permit to appropriate water for a beneficial use or uses that include mining use within 30 years from the date the application was filed, would require the board to issue a new notice and provide an opportunity for protests before rendering a final determination, with specified exceptions.

Conveyance Restoration Fund. (Amended: 8/30/2021 [html](#) [pdf](#))

Status: 9/10/2021-Failed Deadline pursuant to Rule 61(a)(15). (Last location was INACTIVE FILE on 9/8/2021)(May be acted upon Jan 2022)

Location: 9/10/2021-A. 2 YEAR

Summary: Under existing law, the United States Bureau of Reclamation operates the federal Central Valley Project and the Department of Water Resources operates the State Water Project to supply water to persons and entities in the state. Existing law requires the Friant-Kern Canal to be of such capacity as the Department of Water Resources determines necessary to furnish an adequate supply of water for beneficial purposes in the area to be served by the canal. This bill would establish the Water Conveyance Restoration Fund in the State Treasury to be administered by the Department of Water Resources in consultation with the State Water Resources Control Board and the Department of Fish and Wildlife. The bill would require all moneys deposited in the fund to be expended, upon appropriation by the Legislature, in support of subsidence repair costs, including environmental planning, permitting, design, and construction and necessary road and bridge upgrades required to accommodate capacity improvements. The bill would require the Director of Water Resources to apportion money appropriated from the fund, subject to specified requirements, for the Friant-Kern Canal, Delta-Mendota Canal, San Luis Field Division of the California Aqueduct, and San Joaquin Division of the California Aqueduct. The bill would require the director to disburse the funding to the owner of the conveyance facility subject to an agreement that addresses specified issues. The bill would require the director to convene a public meeting for comment on the director's apportionment of appropriated funding and the agreement and would require the Department of Water Resources to submit to the Joint Legislative Budget Committee annual and final reports, as prescribed. The bill would make these provisions inoperative on July 1, 2030, and would repeal the provisions as of January 1, 2031.

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 1100 ASSEMBLY APPROPRIATIONS, HOLDEN, Chair

Summary: Existing law vests the Public Utilities Commission with regulatory authority over public utilities, including gas corporations. Existing law requires the commission, in consultation with the State Air Resources Board, to consider adopting specific biomethane procurement targets or goals for each gas corporation, as specified. Existing law requires that the commission, before establishing biomethane procurement targets or goals, find that the targets or goals are cost-effective means of achieving the reductions in emissions of short-lived climate pollutants and other greenhouse gases forecast pursuant to specified laws and that the targets or goals comply with all applicable state and federal laws. This bill would require the commission to open a new proceeding, or a new phase of an existing proceeding, to consider establishing procurement goals for renewable hydrogen, as defined, and consider requiring each gas corporation and core transport agent to annually procure a proportionate share of renewable hydrogen to meet those goals. The bill would require the commission to make specified findings before establishing renewable hydrogen

procurement targets or goals. The bill would also require the commission to evaluate whether authorizing a gas corporation to recover in its rate base expenses incurred from investments in infrastructure to interconnect facilities producing biomethane, renewable hydrogen, or both, is just and reasonable, as specified.

This bill contains other related provisions and other existing laws.

Status: 8/8/2022-From consent calendar on motion of Assembly Member Reyes. Ordered to third reading.

Location: 8/8/2022-A. THIRD READING

Calendar: 8/11/2022 #126 ASSEMBLY THIRD READING FILE - SENATE BILLS

Summary: Existing law requires the State Registrar, local registrar, or county recorder, upon request and payment of the required fee, to supply to an applicant a certified copy of the record of a birth, fetal death, death, marriage, or marriage dissolution registered with the official. Existing law requires the certificate to contain certain information and to be printed on chemically sensitized security paper, as specified. This bill would authorize a county recorder to, upon request, issue a certified copy of a birth, death, or marriage record issued pursuant to those provisions, in addition to the required method described above, by means of blockchain technology, defined as a decentralized data system, in which the data stored is mathematically verifiable, that uses distributed ledgers or databases to store specialized data in the permanent order of transactions recorded. The bill would require the county recorder to ensure that the release of those copies is subject to technical safeguards sufficient to prevent fraud and unauthorized or illegal access, destruction, use, modification, and disclosure.

Calendar: 8/11/2022 #151 ASSEMBLY CONSENT CALENDAR 2ND DAY-SENATE BILLS

Summary: Existing law requires a person who diverts 10 acre-feet of water or more per year under a permit or license to install and maintain a device or employ a method capable of measuring the rate of direct diversion, rate of collection to storage, and rate of withdrawal or release from storage, as specified and with certain exceptions. Existing law requires the measurements to be made using the best available technologies and best professional practices using a device or methods satisfactory to the State Water Resources Control Board. Existing law authorizes the board to adopt regulations requiring measurement and reporting of water diversion and use by persons including, but not limited to, those authorized to appropriate water under a permit, license, or registration for small irrigation use or livestock stockpond use, or a certification for livestock stockpond use. Existing law, until January 1, 2023, requires any diverter, who has completed an instructional course regarding the devices or measurement method administered by the University of California Cooperative Extension, including passage of a proficiency test before the completion of the course, to be considered a qualified individual when installing and maintaining devices or implementing methods of measurement that were taught in the course for the diverter's diversion. Existing law also requires the University of California Cooperative Extension and the board to develop the curriculum of the course and the proficiency test. This bill would indefinitely extend the above-described provisions. This bill contains other existing laws.

[SB 886](#) (**[Wiener D](#)**) **California Environmental Quality Act: exemption: public universities: university housing development projects.** (Amended: 6/16/2022 [html](#) [pdf](#))

Status: 6/29/2022-June 29 set for first hearing. Placed on suspense file.

Location: 6/29/2022-A. APPR. SUSPENSE FILE

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 1100
ASSEMBLY APPROPRIATIONS, HOLDEN, Chair

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. This bill would, until January 1, 2030, exempt from CEQA a university housing development project, as defined, carried out by a public university, as defined, on real property owned by the public university if the project meets certain requirements, including that each building within the project is certified as

Leadership in Energy and Environmental Design (LEED) platinum or better by the United States Green Building Council, that the project's construction impacts are fully mitigated, and that the project is not located, in whole or in part, on certain types of sites, including a site that is within a special flood hazard area subject to inundation by a 1% annual chance flood or within a regulatory floodway as determined by the Federal Emergency Management Agency, as provided. The bill, with respect to a site that is within a special flood hazard area subject to inundation by a 1% annual chance flood or within a regulatory floodway, would prohibit a local government from denying an application on the basis that a public university did not comply with any additional permit requirement, standard, or action adopted by that local government applicable to the site if the public university is able to satisfy all applicable federal qualifying criteria in order to demonstrate that the site meets these criteria and is otherwise eligible to be exempt from CEQA pursuant to the above requirements. By imposing additional duties on local governments, this bill would impose a state-mandated local program. The bill would provide that a university housing development project is not exempt from CEQA if, among other things, the project would require the demolition of specified housing or a historic structure that is listed on a national, state, or local historic register. The bill would require the public university to hold at least one noticed public hearing to hear and respond to public comments before determining that the university housing development project is exempt under the bill's provision. The bill would require the lead agency, before the issuance of a certificate of occupancy for each building within a project, to obtain the LEED certification of the building, and to make a determination that all construction impacts of the project have been fully mitigated and issue a notice of that determination. The bill would require the lead agency to file the LEED certification and the notice with the Office of Planning and Research and the county clerk of the county in which the project is located. The bill would require the Office of Planning and Research and the county clerk to make the certification and notice available to the public. To the extent that this bill would impose additional duties on a local agency, including the county clerk, this bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

Calendar: 8/11/2022 #152 ASSEMBLY CONSENT CALENDAR 2ND DAY-SENATE BILLS

Summary: Existing law requires a person who owns, leases, controls, operates, or maintains a building or structure in, upon, or adjoining a mountainous area, forest-covered lands, shrub-covered lands, grass-covered lands, or land that is covered with flammable material to maintain defensible space of 100 feet from each side. Existing law requires the Director of Forestry and Fire Protection to establish a statewide program to allow qualified entities, including counties and other political subdivisions of the state, to support and augment the Department of Forestry and Fire Protection in its defensible space and home hardening assessment and education efforts. Existing law requires the director to establish a common reporting platform that allows defensible space and home hardening assessment data, collected by the qualified entities, to be reported to the department. This bill would require any local governmental entity that is qualified to conduct these defensible space assessments in very high and high fire hazard severity zones, as specified, and that reports that information to the department, to report that information using the common reporting platform. The bill would require the department, on December 31, 2023, and annually thereafter, to report to the Legislature all defensible space data collected through the common reporting platform, as provided. This bill contains other related provisions and other existing laws.

[SB 938](#) (Hertzberg D) The Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000: protest proceedings: procedural consolidation. (Chaptered: 7/1/2022 [html](#) [pdf](#))

Status: 7/1/2022-Approved by the Governor. Chaptered by Secretary of State. Chapter 89, Statutes of 2022.

Location: 7/1/2022-S. CHAPTERED

Summary: Existing law, the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000, provides the exclusive authority and procedure for the initiation, conduct, and completion of changes of organization and reorganization for cities and districts, except as specified. Under existing law, in each county there is a local agency formation commission (commission) that oversees these changes of organization and reorganization. Existing law authorizes a commission to dissolve an inactive district if specified conditions are satisfied. This bill would also authorize a

commission to initiate a proposal for the dissolution of a district, as described, if the commission approves, adopts, or accepts a specified study that includes a finding, based on a preponderance of the evidence, that, among other things, the district has one or more documented chronic service provision deficiencies, the district spent public funds in an unlawful or reckless manner, or the district has shown willful neglect by failing to consistently adhere to the California Public Records Act. The bill would require the commission to adopt a resolution of intent to initiate a dissolution based on these provisions and to provide a remediation period of at least 12 months, during which the district may take steps to remedy the stated deficiencies. The bill would authorize the commission, at the conclusion of the remediation period, to find that the district has failed to remedy the deficiencies and adopt a resolution to dissolve the district. This bill contains other related provisions and other existing laws.

Location: 8/3/2022-A. APPR. SUSPENSE FILE

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 1100 ASSEMBLY APPROPRIATIONS, HOLDEN, Chair

Summary: The California Global Warming Solutions Act of 2006 designates the State Air Resources Board as the state agency responsible for monitoring and regulating sources emitting greenhouse gases. The act requires the state board to prepare and approve a scoping plan for achieving the maximum technologically feasible and cost-effective reductions in greenhouse gas

emissions and to update the scoping plan at least once every 5 years. The act requires the state board to conduct a series of public workshops to give interested parties an opportunity to comment on the plan and requires a portion of those workshops to be conducted in regions of the state that have the most significant exposure to air pollutants, including communities with minority populations, communities with low-income populations, or both. This bill instead would modify, with respect to the provision that a portion of the workshops be conducted in regions of the state that have the most significant exposure to air pollutants, the above-described included communities as additionally being areas designated as federal extreme nonattainment. This bill contains other related provisions and other existing laws.

[SB 1059](#) ([Becker D](#)) Privacy: data brokers. (Amended: 4/21/2022 [html](#) [pdf](#))

Status: 5/20/2022-Failed Deadline pursuant to Rule 61(b)(8). (Last location was S. APPR. SUSPENSE FILE on 5/16/2022)

Location: 5/20/2022-S. DEAD

Summary: Existing law, the California Consumer Privacy Act of 2018 (CCPA), grants a consumer various rights with respect to personal information that is collected or sold by a business, as defined, and also establishes, as approved by the voters as Proposition 24 at the November 3, 2020, statewide general election, the California Privacy Protection Agency and vests it with full administrative power, authority, and jurisdiction to implement and enforce the CCPA. The California Constitution grants a right of privacy. Existing law requires data brokers to register with, and provide certain information to, the Attorney General. Existing law defines a data broker as a business that knowingly collects and sells to third parties the personal information of a consumer with whom the business does not have a direct relationship, subject to specified exceptions. Existing law subjects data brokers that fail to register to injunction and liability for civil penalties, fees, and costs in an action brought by the Attorney General, with any recovery to be deposited in the Consumer Privacy Fund, as specified. Existing law imposes a \$100 civil penalty for each day a data broker fails to register. This bill would include in the definition of data broker a business that knowingly collects and shares, as defined, certain personal information to third parties. The bill would transfer all authority and responsibilities under the provisions relating to data broker registration from the Attorney General to the CCPA, including by requiring data brokers to annually register with the CPPA on or before January 31. However, the bill would authorize the Attorney General to also bring an action against a data broker that fails to register. The bill would require data brokers to provide additional information to the CPPA during the registration process would increase the civil penalty for failing to register to \$200 for each day the data broker fails to register. The bill would require the CPPA to adopt regulations in compliance with the Administrative Procedure Act. The bill would also make other technical changes. This bill contains other existing laws.

[SB 1124](#) ([Archuleta D](#)) Public health goal: primary drinking water standard: manganese. (

Amended: 6/23/2022 [html](#) [pdf](#))

Status: 8/3/2022-August 3 set for first hearing. Placed on suspense file.

Location: 8/3/2022-A. APPR. SUSPENSE FILE

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 1100
ASSEMBLY APPROPRIATIONS, HOLDEN, Chair

Summary: The California Safe Drinking Water Act provides for the operation of public water systems and tasks the State Water Resources Control Board with various responsibilities and duties relating to the regulation of drinking water to protect public health. The act requires the state board to adopt primary drinking water standards for contaminants in drinking water that are based upon specified criteria, as provided. The act requires the Office of Environmental Health Hazard Assessment (OEHHA) to prepare and publish an assessment of the risks to public health posed by each contaminant for which the state board proposes a primary drinking water standard. The act requires the risk assessment to contain an estimate of the level of the contaminant in drinking water that is not anticipated to cause or contribute to adverse health effects, or that does not pose any significant risk to public health, also known as the public health goal for the contaminant. The act requires the state board to consider specified criteria when it adopts a primary drinking water standard, including the public health goal for the contaminant published by OEHHA. This bill would require, on or before July 1, 2025, OEHHA to prepare a public health goal for manganese, as provided. The bill would require the state board, after OEHHA publishes a public health goal for manganese, to adopt a primary drinking water standard, as defined, for manganese and to establish for that standard, and for the period before adoption of that standard, monitoring requirements for manganese, as specified. The bill would require, on or before January 31, 2024, the state board to consider establishing a notification and response level for manganese that would remain in place until the state board adopts a primary drinking water standard for manganese. The bill would authorize the state board, before adopting a primary drinking water standard for manganese, to continue to provide funding for treatment, source protection, and alternative water supplies and to continue to require community water systems to monitor manganese in their source water and within their distribution systems, as provided.

[SB 1144](#) ([Wiener D](#)) **Water efficiency and quality assessment reports: state buildings and public school buildings. (Amended: 8/2/2022 [html](#) [pdf](#))**

Status: 8/3/2022-August 3 set for first hearing. Placed on suspense file.

Location: 8/3/2022-A. APPR. SUSPENSE FILE

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 1100
ASSEMBLY APPROPRIATIONS, HOLDEN, Chair

Summary: Existing law, the California Safe Drinking Water Act, requires the State Water Resources Control Board (state board) to administer provisions relating to the regulation of drinking water to protect public health. In this regard, existing law prohibits a person from using any pipe, pipe or plumbing fitting or fixture, solder, or flux that is not lead free in the installation or repair of any public water system or any plumbing in a facility providing water for human consumption, except as provided. This bill would require, no later than January 1, 2027, except as provided, an operating agency, as defined, to complete a water efficiency and quality assessment report, as specified, for

each covered building. The bill would define a “covered building” to mean a building owned and occupied, or leased, maintained, and occupied, by a state agency, or a public school building, including a charter school building, as described. If the report identifies noncompliant plumbing fixtures and noncompliant appliances, the bill would require the operating agency to replace those fixtures and appliances that fail to meet water efficiency standards, as specified, at the earliest practical time, subject to available funding. If the report determines that a building’s potable water system is contaminated with lead, the bill would require the operating agency to fit all drinking and cooking water sources with particulate and lead filters as soon as possible, no later than one year from receipt of the report, subject to available funding, as specified. If a building contains lead pipe, the bill would require the operating agency to replace the lead pipe at the earliest practical time, subject to available funding. If the report determines that a building contains pipe of unknown material that was installed prior to 2010, the bill would require the operating agency to either treat the pipe as lead pipe or test the pipe to determine if it meets the definition of lead pipe. The bill would also require that buildings that contain non-lead-free pipe be remediated by providing occupants access to drinking fountains with filters, as specified, subject to available funding. This bill contains other related provisions and other existing laws.

[SB 1157](#) (Hertzberg D) Urban water use objectives. (Amended: 6/16/2022 [html](#) [pdf](#))

Status: 8/3/2022-August 3 set for first hearing. Placed on suspense file.

Location: 8/3/2022-A. APPR. SUSPENSE FILE

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 1100
ASSEMBLY APPROPRIATIONS, HOLDEN, Chair

Summary: Existing law requires the Department of Water Resources, in coordination with the State Water Resources Control Board, and including collaboration with and input from stakeholders, to conduct necessary studies and investigations and authorizes the department and the board to jointly recommend to the Legislature a standard for indoor residential water use. Existing law, until January 1, 2025, establishes 55 gallons per capita daily as the standard for indoor residential water use. Existing law establishes, beginning January 1, 2025, the greater of 52.5 gallons per capita daily or a standard recommended by the department and the board as the standard for indoor residential water use, and beginning January 1, 2030, establishes the greater of 50 gallons per capita daily or a standard recommended by the department and the board as the standard for indoor residential water use. Existing law requires the board, in coordination with the department, to adopt by regulation variances recommended by the department and guidelines and methodologies pertaining to the calculation of an urban retail water supplier's urban water use objective recommended by the department. This bill would eliminate the option of using the greater of 52.5 gallons per capita daily and the greater of 50 gallons per capita daily, as applicable, or a standard recommended by the department and the board as the standard for indoor residential water use. The bill would instead require that from January 1, 2025, to January 1, 2030, the standard for indoor residential water use be 47 gallons per capita daily and beginning January 1, 2030, the standard be 42 gallons per capita daily. The bill would require the department, in coordination with the board to conduct necessary studies and investigations to assess and quantify the economic benefit and impacts of meeting the 2030 indoor residential use standard on water, wastewater, and recycled water systems, as specified. The bill would require the department to summarize the findings of these studies and investigations in a report to the Legislature by January 1, 2027. The bill would require, on or before January 1, 2028, the department, in coordination with the board, to submit a report to the Legislature on the progress of urban retail water suppliers towards achieving their urban water use objective.

SB 1188 (Laird D) Safe Drinking Water State Revolving Fund: financial assistance. (

Amended: 3/15/2022 [html](#) [pdf](#).)

Status: 8/3/2022-August 3 set for first hearing. Placed on suspense file.

Location: 8/3/2022-A. APPR. SUSPENSE FILE

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 1100 ASSEMBLY APPROPRIATIONS, HOLDEN, Chair

Summary: Existing law, the Safe Drinking Water State Revolving Fund Law of 1997, establishes the continuously appropriated Safe Drinking Water State Revolving Fund to provide financial assistance for the design and construction of projects for public water systems that will enable those systems to meet safe drinking water standards. Existing law authorizes the State Water Resources Control Board, to the extent permitted by federal law, to provide up to 100% grant funding, and principal forgiveness and 0% financing on loans, from the fund to a project for a water system that serves a severely disadvantaged community. Existing law requires the interest rate for repayable financing provided from the fund to be 0% if the financing is for a public water system that serves a disadvantaged community with a financial hardship or if the financing is for a public water system that provides matching funds. This bill would delete those provisions relating to 0% financing and interest and would instead generally authorize the board, to the extent authorized by federal law, to provide reduced or 0% financing to further the purposes of the Safe Drinking Water State Revolving Fund Law of 1997. The bill would delete the requirement that a water system serve a severely disadvantaged community in order to be provided with up to 100% grant funding or principal forgiveness and instead authorize providing that grant funding or principal forgiveness to certain other water systems. By making moneys in the Safe Drinking Water State Revolving Fund, a continuously appropriated fund, available for new purposes, the bill would make an appropriation. This bill contains other related provisions and other existing laws.

SB 1197 (Caballero D) Water Innovation and Drought Resiliency Act of 2022. (Amended: 3/16/2022 [html](#) [pdf](#).)

Status: 5/20/2022-Failed Deadline pursuant to Rule 61(b)(8). (Last location was S. APPR. SUSPENSE FILE on 5/2/2022)

Location: 5/20/2022-S. DEAD

Summary: Existing law declares that the protection of the public interest in the development of the

water resources of the state is of vital concern to the people of the state and that the state shall determine in what way the water of the state, both surface and underground, should be developed for the greatest public benefit. Existing law creates the Office of Planning and Research to serve the Governor as staff for long-range planning and research and as a comprehensive state planning agency. This bill, the Water Innovation and Drought Resiliency Act of 2022, would create the Initiative to Advance Water Innovation and Drought Resiliency at the office for the furtherance of new technologies and other innovative approaches in the water sector. The bill would require the office, as part of the initiative, to take specified measures on or before December 31, 2024, to advance innovation in the water sector and ensure a drought-resilient economy. The bill would require the office to submit to the Legislature and post on its internet website a report detailing the actions taken as part of the initiative and recommendations for further actions. The bill would make findings and declarations regarding the need for water innovation. This bill contains other related provisions.

Location: 8/3/2022-A. APPR. SUSPENSE FILE

Calendar: 8/11/2022 Upon adjournment of Session - 1021 O Street, Room 1100 ASSEMBLY APPROPRIATIONS, HOLDEN, Chair

Summary: Under existing law, the State Water Resources Control Board administers a water rights program pursuant to which the board grants permits and licenses to appropriate water. As a prerequisite to the issuance of a permit to appropriate water, existing law requires certain facts to exist, including that there is unappropriated water available to supply the applicant. This bill would require the board to develop and adopt regulations to govern consideration of climate change in water availability analyses used in the board's review of applications for water rights permits, including consideration of the effects of climate change, as specified, upon watershed hydrology as part of the preparation of water availability analyses. The bill would require the board to consult with the Department of Water Resources, the Department of Fish and Wildlife, and qualified hydrologists and climate change scientists, among others, in preparing the regulations.

SB 1219 (Hurtado D) 21st century water laws and agencies: committee. (Amended: 4/6/2022 [html](#) [pdf](#))

Status: 7/5/2022-Failed Deadline pursuant to Rule 61(b)(14). (Last location was A. W.,P. & W. on 6/2/2022)

Location: 7/5/2022-A. DEAD

Summary: Existing law establishes the State Water Resources Control Board within the California Environmental Protection Agency with specified duties relating to, among other things, administering water rights, the Porter-Cologne Water Quality Control Act, and the California Safe Drinking Water Act. Existing law establishes the Department of Water Resources within the Natural Resources Agency and prescribes the jurisdiction and various general administrative authorities and duties of the department regarding, among other things, matters pertaining to water resources and dams in the state. This bill would require the Secretary of the Natural Resources Agency and the Secretary for Environmental Protection to convene a committee to develop and submit, on or before December 31, 2024, to the Governor and to the Legislature a strategic vision, proposed statutes, and recommendations for a modern 21st century set of water laws and regulations and state and local water agencies for the state, as provided. The committee would consist of 5 specified heads of state agencies, 2 members appointed by the Senate Committee on Rules, and 2 members appointed by the Speaker of the Assembly. The bill would require the Governor or the committee to appoint a “blue ribbon” citizen commission or taskforce, a stakeholder advisory committee, and any other group that the Governor or the committee deems necessary or desirable to assist in carrying out these provisions. The bill would require all relevant state agencies, at the request of the committee, to make available staff and resources to assist in the preparation of the strategic vision and proposed statutes. The bill would authorize the committee, its members, and state agencies represented on the committee to contract for consultants to assist in the preparation of the strategic vision and proposed statutes, as specified, and would exempt those contracts from certain public contracting requirements.

Status: 3/2/2022-Referred to Com. on RLS.

Location: 2/17/2022-S. RLS.

Summary: Existing law requires the State Water Resources Control Board to examine and certify persons as to their qualifications to operate water treatment plants and water distribution systems. Existing law requires the certification to indicate the classification of water treatment plant or water distribution system that the person is qualified to operate. Existing law requires the board to issue a water treatment operator certificate and water distribution operator certificate by reciprocity to any person holding a valid, unexpired, comparable certification issued by another state, the United States, prescribed territories or tribal governments, or a unit of any of these. Existing law requires the board to classify types of wastewater treatment plants for the purpose of determining the levels of competence necessary to operate them. Existing law requires a person who operates a nonexempt wastewater treatment plant to possess a valid, unexpired wastewater certificate, as defined. Existing law requires the board to develop and specify in its regulations the training necessary to qualify a person for a wastewater certificate for each type and class of plant. Existing law authorizes the board to accept experience in lieu of qualification training. This bill would make a nonsubstantive change in the provision regarding accepting experience in lieu of qualification training.

Calendar: 8/11/2022 #167 ASSEMBLY CONSENT CALENDAR 2ND DAY-SENATE BILLS

Summary: Existing law, the California Safe Drinking Water Act, provides for the operation of public water systems and imposes on the State Water Resources Control Board various responsibilities and duties. The act authorizes the state board to contract with, or provide a grant to, an administrator to provide administrative, technical, operational, legal, or managerial services, or any combination of those services, to a designated water system to assist with the provision of an adequate supply of affordable, safe drinking water. Existing law prescribes the processes and procedures pursuant to which the state board may identify a designated water system in need of services, order a designated water system to accept services from an administrator, and work with the administrator of a designated water system to develop adequate technical, managerial, and financial capacity to deliver an adequate supply of affordable, safe drinking water so that administrator services are no longer necessary. This bill would, among other things, revise the definition of “designated water system” and limit the liability of an administrator when the state board appoints an administrator to a designated water system, as prescribed.

Location: 6/30/2022-A. THIRD READING

Calendar: 8/11/2022 #87 ASSEMBLY THIRD READING FILE - SENATE BILLS

Summary: Existing law prescribes requirements for the disposal of surplus land by a local agency, as defined. Existing law provides that certain dispositions of real property by local agencies are subject to surplus land disposal procedures as they existed on December 31, 2019, without regard to specified amendments that took effect on January 1, 2020, if those dispositions comply with specified requirements and the disposition is completed not later than December 31, 2022. Existing law extends the date that the disposition must be completed by to December 31, 2024, for specified

properties, including properties related to the Metro North Hollywood Joint Development Project. Existing law further extends the dates by which the disposition of property must be completed, as specified, if the disposition of property, the local agency's right or ability to dispose of the property, or a development project for which the property is proposed to be transferred, is the subject of judicial challenge. This bill would extend the date by which the disposition of property must be completed to December 31, 2024, if the property is located in a local agency with a population of over 2,000,000 persons and the local agency has either an option agreement duly authorized by the local agency's governing body to purchase the property from the former redevelopment agency, or an exclusive negotiation agreement with a private entity to develop the subject property for economic development or housing purposes. The bill would further extend that date if the disposition of property, the local agency's right or ability to dispose of the property, or a development project for which the property is proposed to be transferred, is the subject of judicial challenge. This bill contains other related provisions.

Notes 1:

[SB 1485](#) (**[Rubio D](#)**) **Elections: required filings.** (Amended: 3/16/2022 [html](#) [pdf](#))

Status: 4/29/2022-Failed Deadline pursuant to Rule 61(b)(5). (Last location was E. & C.A. on 3/23/2022)

Location: 4/29/2022-S. DEAD

Summary: Under existing law, if an incumbent officer of a county does not deliver their nomination papers by 5 p.m. on the 88th day before the direct primary election, any person other than the incumbent has until 5 p.m. on the 83rd day before the election to file nomination documents for the

elective office. This bill would require the county elections official to post on their internet website an office that has an extended nomination period. By increasing the duties of local elections officials, the bill would impose a state-mandated local program. This bill contains other existing laws.

MEMORANDUM

TO: STEVE COLE, SANTA CLARITA VALLEY WATER AGENCY

FROM: HUNT BRALY

RE: July 2022 Report

DATE: 8-10-2022

I have provided a synopsis of activities performed on behalf of the Agency in July

RECURRING ACTIVITIES/MEETING ATTENDANCE:

1. Safe, Clean Water Program (Measure W) Watershed Area Steering Committee Santa Clara River Meeting was in held on July 7 and continued to be a virtual meeting. There continued to be concern by several members, including myself, regarding the effectiveness of the previous approved projects in Pico Canyon and the refusal by the County to provide the video of the meetings on the Program's website. It was agreed that both items would be agenzized for the August meeting. Watershed Coordinator Peter Massey gave a presentation on the Watershed Coordinator Year One Review. This dealt with its first-year highlights and included: The Coordinator held 68 Meetings/Interviews, 28 Site Visits, and 17 Funder Meetings. More than 750 people were totally engaged. The Coordinator provided an update for May/June, noting:
 - Participated in a 2-day Home & Gardens Show and provided guidance to a potential project applicant.
 - Distributed surveys to the public on desired educational topics.
 - Added a community organizer, Heather Turpin, to this area.

The next meeting was scheduled for August 4.

2. Attended City Council Meeting on July 12

There was nothing reported on the items discussed in Closed Session, except that the City had to add the Tax Transfer Agreement with the County for the Tesoro Annexation on this agenda since the information was not received prior to the publication of the City's Agenda. The vote approving the transfer was unanimous (Councilman Smyth not in attendance) and now goes to the Board of Supervisors.

There was Award and Recognition to the City Public Works for Street Projects on special timing at traffic signals.

Public comment was extensive as usual. There were comments that there was an increase in racism and white supremacists and public safety should not be the highest budget amount and that there is a Sheriff KKK group at the Pitchess facility. A public comment criticized the Council for negotiating with Mayor Weste on a portion of her property for the Dockweiler extension. Continued comments regarding the Human Relations Roundtable and criticism of treatment of members of the public at a Council Development Committee meeting. After the initial 30 minutes there was a continuation after the Agenda. Additional comments on the Housing Element not providing enough housing and continued Human Relations Roundtable debate.

The Public Hearing was on the Expansion of the Eternal Valley Memorial Park. Only issue dealt with the type of barrier between Needham Ranch Parkway and Eternal Valley. Staff had recommended, and the Planning Commission had agreed that it should be a 6-foot-tall block wall. The applicant requested that it be a tubular fence which would contain openings which could be used by wildlife to better traverse and would be less costly to construct and maintain. After discussion, the Council adopted approved the project with this one change.

The City under New Business considered an agreement with Greystar who is part of a project in Sand Canyon to name a street in the Sand Canyon Plaza Mixed use project after former Planning Commissioner Louis Brathwaite. Louis was also a former member of the Hart School Board and one of the members of the City's incorporation committee. Several speakers spoke in favor the recognition emphasizing it was time to acknowledge a black founder of the City. It passed the Council unanimously.

On the Consent Calendar, members of the public continued to make numerous comments on various items on the Consent item frequently on issues not pertinent to the item.

Attached is a copy of the City Council Budget Power Point which was provided to the Council in June for passage of the City's budget and provides a good summary of that budget.

3. Participated in Virtual Public Outreach and Legislation Committee on July 21.
4. Monitored and reviewed Agency Board Agendas.
5. Reviewed weekly emails regarding articles of interest from Agency.

SANTA CLARITA

OPERATING BUDGET & CAPITAL IMPROVEMENT PROGRAM

FY 2022-23

Agenda

01 Current State of Economy

02 Summary of General Fund

03 Recommended Budget Additions

04 Capital Improvement Requests

05 Next Steps

State of the Economy

Less Optimisim

Estimates now point to slower national growth and growing fear for a recession in the near-term.

CPI at 8.6%

The Consumer Price Index (CPI) came in at 8.6% for May 2022, representing the largest 12-month increase since 1981.

Multiple Interest Rate Hikes

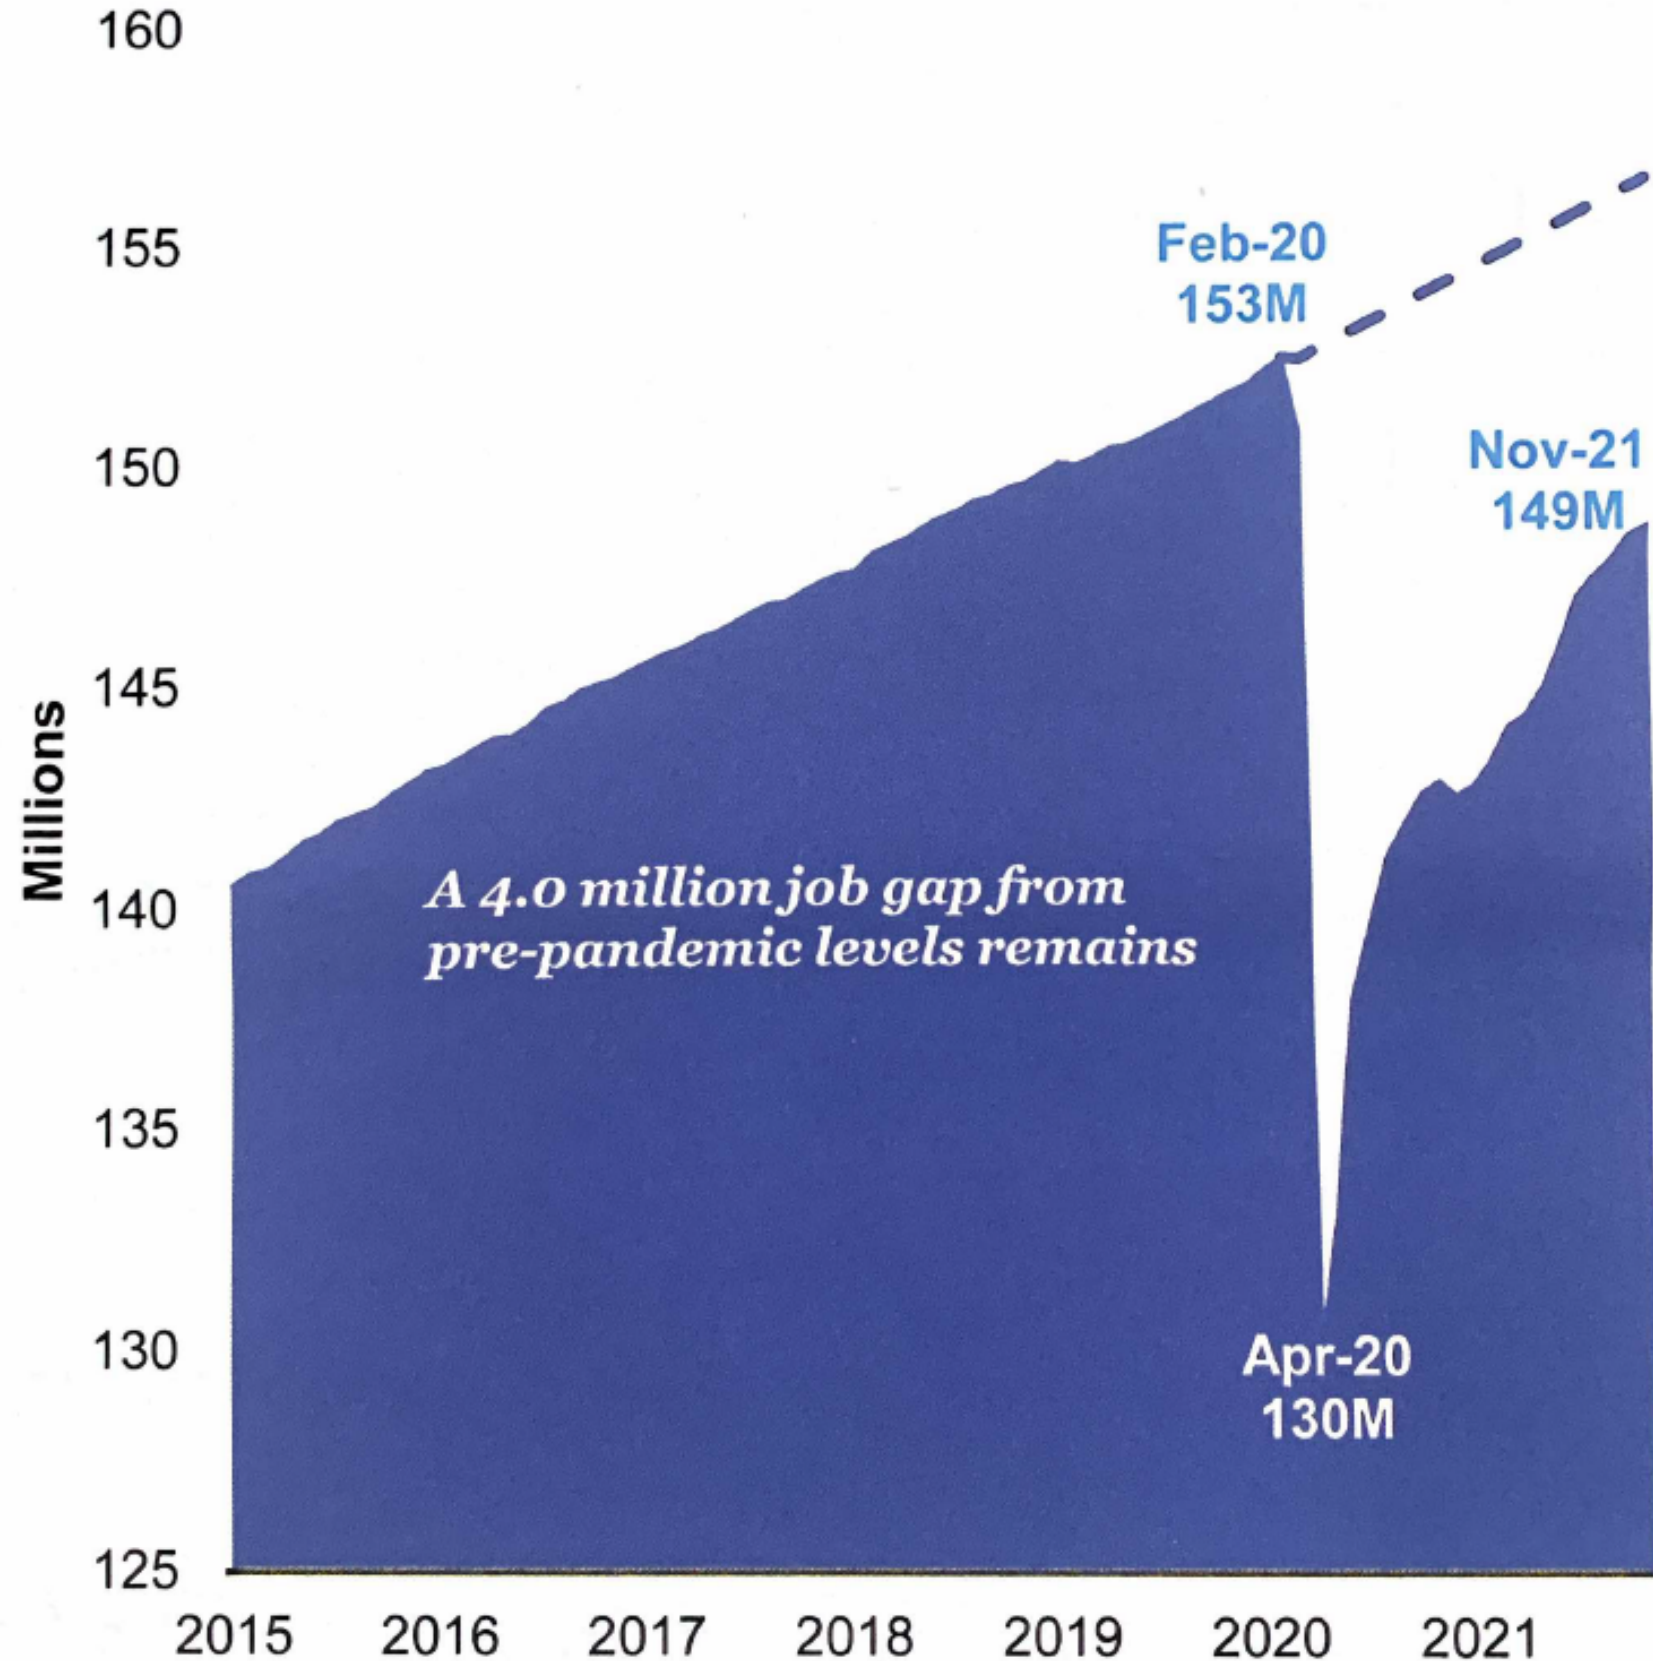

The FED has signaled a more aggressive approach to fight inflation, which could include multiple half-point interest rate hikes in 2022.

Low Consumer Confidence

The U.S. Consumer Confidence Index (CCI) has fallen below 100, which historically indicates consumers may begin to spend less.

Total Nonfarm Payrolls

— Forecast

Source: PFM Asset Management, LLC

Labor Market Challenges

While the unemployment rate has returned to pre-COVID levels, the amount of people in the workforce has not.

There are currently 11 million open jobs in the nation and only 6 million people to fill them.

Labor challenges are having the biggest impact on the public sector.

Material Costs

<u>Item</u>	<u>% Increase</u>
Turf Seed	+159%
Sign Poles	+100%
Sprinklers	+69%
Trash Bags	+63%
Engine Oil	+35%
Diesel Fuel	+20%

Total Budget FY 22/23

\$299.3 Million

21% Increase (\$51.0M)

General Fund Revenues

\$133m

- Sales Tax (35%)
- Property Tax (33%)
- Development Revenues (7%)
- Franchise Fees (7%)
- Recreation (3%)
- Transient Occupancy Tax (3%)
- Vehicle License Fee (<1%)
- Real Property Transfer Tax (2%)
- Interest Income (1%)
- Other Revenue (2%)
- Code Fines (1%)
- Revenues from State (<1%)
- Transfers & Reimbursements (7%)

General Fund Expenditures

\$132.7m

- Public Safety (23%)
- Recreation and Community Services (11%)
- Neighborhood Services (10%)
- Administrative Services (10%)
- Public Works (9%)
- Community Development (9%)
- Economic Development (5%)
- City Manager's Office (3%)
- Human Resources (2%)
- Non-Departmental (<1%)
- Debt Service (2%)
- City Attorney (1%)
- Contingency (1%)
- Transfers Out (12%)
- Capital (GF only) (3%)

A group of young children are gathered around a table, focused on playing with a large white bin filled with colorful beads. They are using small blue scoops to transfer beads into a yellow cup. The scene is brightly lit, and the children appear to be in a classroom or playroom setting.

Building and Creating Community

\$463,530 - Canyon Country Community Center Operations

\$558,876 - Central Park Buildout Operations

\$107,655 - Full-Time Preschool Teachers

Community Engagement

\$119,000 - Increase to Event Production
