NEWS RELEASE

DATE: September 12, 2022

FOR IMMEDIATE RELEASE

Sign-Up for the September 17 Gardening Class: Water-Saving Turf Care and Turf Substitutes

Do you want your lawn to look its best? Learn about techniques to maintain your turf that will keep it thriving and may improve water efficiency! Or, if you're looking for some ideas for turf substitutes, we've got that covered too, with plants that work well instead of turf in your landscape. Join our FREE virtual gardening class, Water-Saving Turf Care and Turf Substitutes, on Sat., Sept. 17, at 9 a.m.

Register today to learn about techniques to keep your lawn alive during the drought from our expert teacher, Steve Williams, a horticulturalist, and a UCCE Master Gardener. This class will cover in detail lawn care and other alternatives to spruce up your curb appeal.

Attendees can expect the class to last about an hour, followed by a question-and-answer session. And don't worry if you missed the live course – all presentations are recorded and available for viewing on our website one week after the class.

The gardening classes are free, but attendees must register before the event. To register for the Water-Saving Turf Care and Turf Substitutes gardening class or to view our remaining 2022 class schedule, visit: yourscvwater.com/gardening-classes/.

###

About SCV Water:

The Santa Clarita Valley Water Agency (SCV Water) is a full-service regional water agency located in the Santa Clarita Valley. SCV Water provides water service to approximately 75,000 business and residential customers. It was formed on January 1, 2018, when local water suppliers combined into one integrated, regional water provider. More information can be found at www.yourSCVwater.com.
