

# Recycled Water Program

Item 7  
March 5, 2019

# Water Reclamation Plants

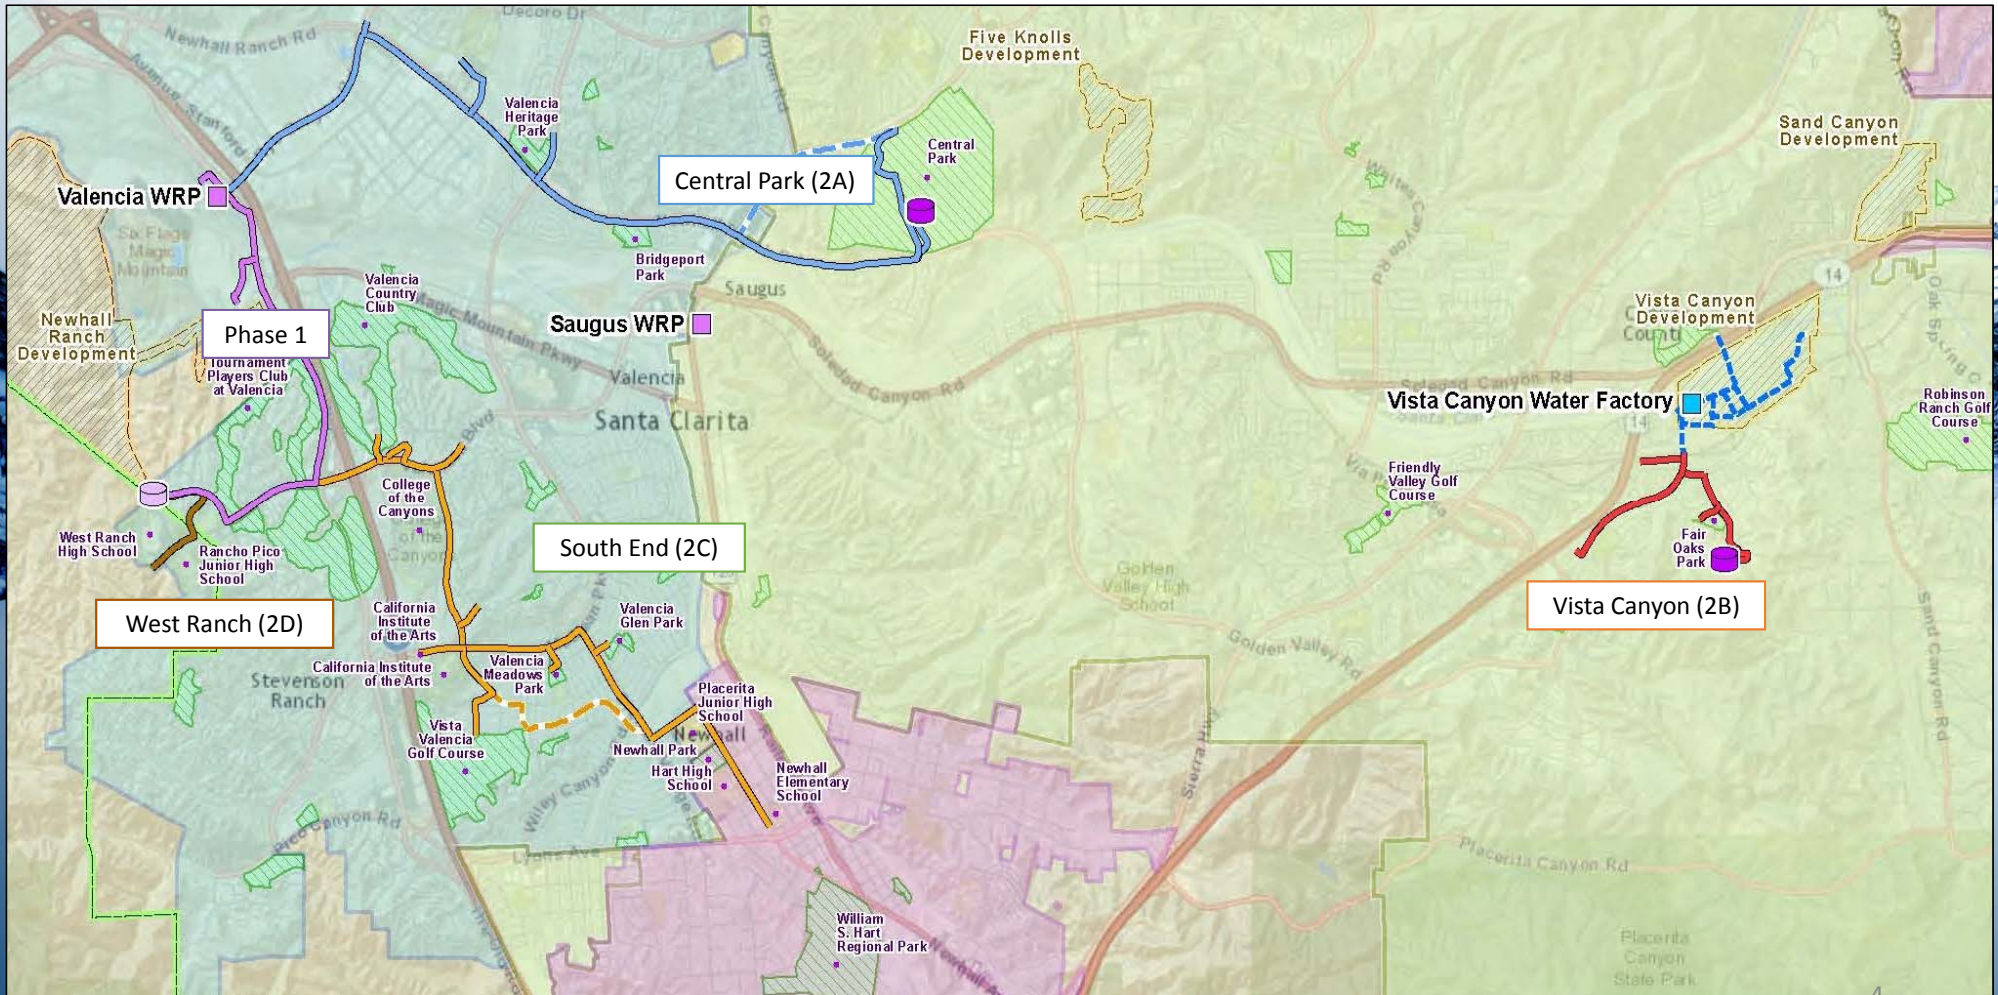

# Existing Phase 1

# Phase 2 Projects

# Phase 2 Projects Summary

Project	Length (Feet)	Demand (AFY)	Estimated Construction Cost (\$M)	Expected Construction Start Date	CEQA Status	Final Design (%)	Grant Funding (\$)	Anchor Users
Central Park (2A)	33,000-40,000	480-560	22	FY 2022/23	MND Complete	0	-	Valencia HS, Central, Bridgeport and Heritage Parks
Vista Canyon (2B)	11,000	300	7	FY 2018/19	MND Complete	90	2.7 M	Fair Oaks Park, Fair Oaks School
South End (2C)	33,000	1,374	10.5	FY 2021/22	MND Complete	90	-	COC, Cal Arts, Vista Valencia GC, Henry Mayo Hospital, Hart HS, Placerita JHS, Newhall Park
West Ranch (2D)	5,000	211	4	FY 2018/19	MND Complete	95	1.8 M	West Ranch HS, Ranch Pico JHS, Oak Hills Elementary

# Current Status of RW supply

- Contracts and Permits
  - Existing Contract with Sanitation District for 1,600 AFY
  - Place of use limited by Sanitation District's § 1211(a) permit
  - Any reduction in flow to the river would require § 1211 permit
- Efforts to expand place of use or increase RW supply complicated by ongoing litigation

# Sanitation District

- SCVSD Resolution
  - Concentrating on Chloride Compliance and Withdrawing NOP for RW EIR
  - Acknowledgement of SCV Water's leadership in comprehensive water management
  - Will support the continued development and use of RW
- SCV Water
  - Evaluate next steps related to use of recycled water that currently is discharged into the river

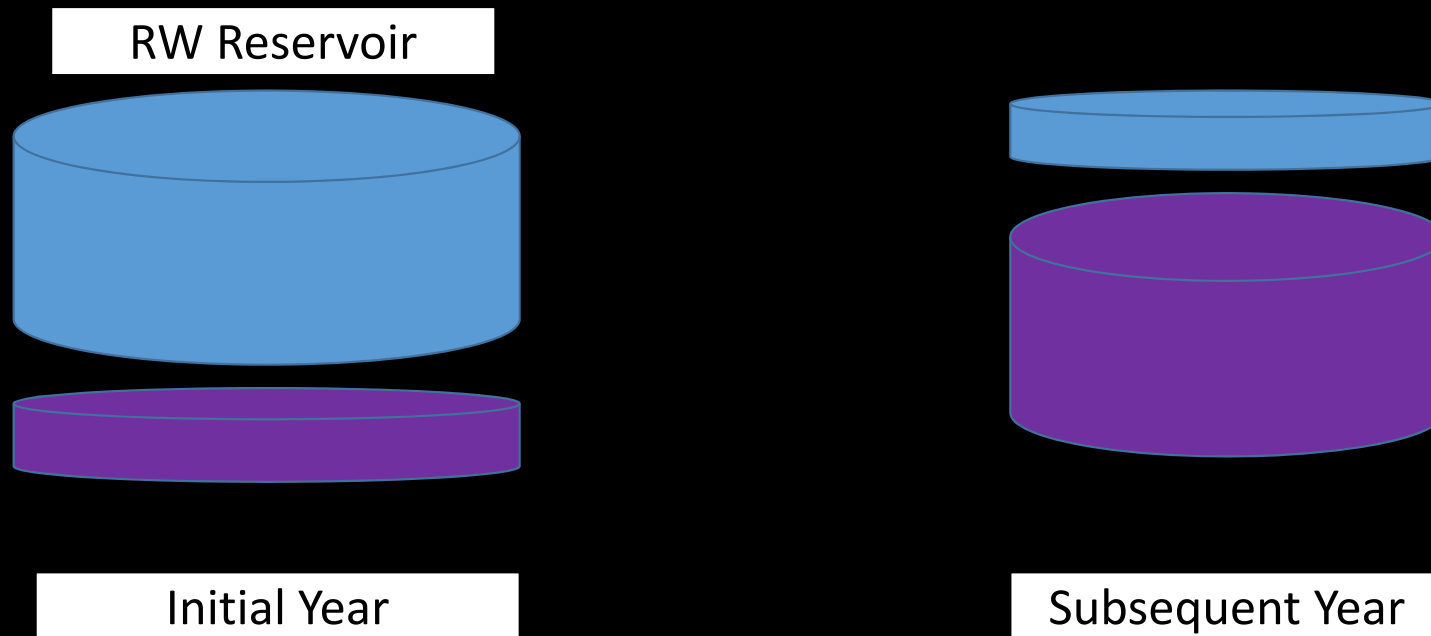

# Next Drop

Capture and put to use new water before it enters into the river.

- State Board - No § 1211 permit required to use new water.
- Next Steps
  - Establish measurement technique
  - Secure necessary permit coverage
  - Utilize existing SCVSD agreement
- Provide initial supplies to pending RW uses to Prop 84 Grant projects

# Increased Availability of RW with Time

# Recommendation

Move forward with installing necessary infrastructure to provide initial supplies to pending RW uses to Prop 84 Grant projects
