12.2

Director name: Gary Martin

Meeting attended: Valley Industrial Association General Luncheon Meeting

Date of meeting: August 2, 2024

Location: College of the Canyons University Center

SCV Water Board Meeting to be presented at: August 6, 2024

On August 2, 2024 I attended the Valley Industrial Association General Luncheon Meeting at College of the Canyons University Center. The program was Update, Valencia Town Center. The presentation was from Centennial, and the keynote speaker was Nicholas Bartholomew, Director of Development for Centennial. In his current role, Mr. Bartholomew is focused on transforming retail properties into mixed-use destinations across the country, but with focus on the west coast.

The presentation included the status and vision of what Centennial is planning for the Valencia Town Center (VTC). The presentation included a statement of vision and goals for the VTC but emphasized this will be a long-term undertaking that will take shape over many years. Members of the local Centennial team spoke of improvements that are already taking place and encouraged members of the community to visit and see first-hand these improvements.

I found the presentation to be interesting and informative and I appreciate being able to attend and represent SCV Water.
