

SCV Water Agency Engineering and Operations Committee Meeting

Thursday, December 7, 2023 Committee Meeting Begins at 5:30 PM

Members of the public may attend by the following options:

IN PERSON

Santa Clarita Valley Water Agency Engineering Services Section Boardroom 26521 Summit Circle Santa Clarita, CA 91350

BY PHONE

Toll Free: 1-(833)-568-8864 Webinar ID: 160 669 5516

VIRTUALLY

Please join the meeting from your computer, tablet or smartphone: https://scvwa.zoomgov.com/j/1606695516

Have a Public Comment?

Members of the public unable to attend this meeting may submit comments either in writing to lquintero@scvwa.org or by mail to Leticia Quintero, Executive Assistant, Santa Clarita Valley Water Agency, 26521 Summit Circle, Santa Clarita, CA 91350. All written comments received before 4:00 PM the day of the meeting will be distributed to the Committee members and posted on the Santa Clarita Valley Water Agency website prior to the start of the meeting. Anything received after 4:00 PM. the day of the meeting will be made available at the meeting, if practicable, and posted on the SCV Water website the following day. All correspondence with comments, including letters or emails, will be posted in their entirety. (Public comments take place during Item 2 of the Agenda and before each Item is considered. Please see the Agenda for details.)

This meeting will be recorded and the audio recording for all Committee meetings will be posted to yourSCVwater.com within 3 business days from the date of the Committee meeting.

Disclaimer: Attendees should be aware that while the Agency is following all applicable requirements and guidelines regarding COVID-19, the Agency cannot ensure the health of anyone attending a Committee meeting. Attendees should therefore use their own judgment with respect to protecting themselves from exposure to COVID-19.

Date: November 29,2023

From: Courtney Mael, Chief Engineer

Keith Abercrombie, Chief Operating Officer

Ka

The Engineering and Operations Committee meeting is scheduled on Thursday, December 7, 2023 at 5:30 PM at 26521 Summit Circle, Santa Clarita, CA 91350 in the Engineering Services Section (ESS) Boardroom. Members of the public may attend in person or virtually. To attend this meeting virtually, please see below.

IMPORTANT NOTICES

This meeting will be conducted in person at the address listed above. As a convenience to the public, members of the public may also participate virtually by using the <u>Agency's Call-In</u> <u>Number 1-(833)-568-8864, Webinar ID: 1606695516 or Zoom Webinar by clicking on the link: https://scvwa.zoomgov.com/i/1606695516. Any member of the public may listen to the meeting or make comments to the Committee using the call-in number or Zoom Webinar link above. However, in the event there is a disruption of service which prevents the Agency from broadcasting the meeting to members of the public using either the call-in option or internet-based service, this meeting will not be postponed or rescheduled but will continue without remote participation. The remote participation option is being provided as a convenience to the public and is not required. Members of the public are welcome to attend the meeting in person.</u>

Attendees should be aware that while the Agency is following all applicable requirements and guidelines regarding COVID-19, the Agency cannot ensure the health of anyone attending a Committee meeting. Attendees should therefore use their own judgment with respect to protecting themselves from exposure to COVID-19.

Members of the public unable to attend this meeting may submit comments either in writing to Lquintero@scvwa.org or by mail to Leticia Quintero, Executive Assistant, Santa Clarita Valley Water Agency, 26521 Summit Circle, Santa Clarita, CA 91350. All written comments received before 4:00 PM the day of the meeting will be distributed to the Committee members and posted on the Santa Clarita Valley Water Agency website prior to the start of the meeting. Anything received after 4:00 PM the day of the meeting will be made available at the meeting and posted on the SCV Water website the following day.

MEETING AGENDA

1. PLEDGE OF ALLEGIANCE

Indicates Handout

2. PUBLIC COMMENTS – Members of the public may comment as to items within the subject matter jurisdiction of the Agency that are not on the Agenda at this time. Members of the public wishing to comment on items covered in this Agenda may do so at the time each item is considered. (Comments may, at the discretion of the Committee Chair, be limited to three minutes for each speaker.) To participate in public comment from your computer, tablet, or Smartphone, click the "raise hand" feature in Zoom. You will be notified when it is your turn to speak, please unmute when requested. To participate in public comment via phone, dial *9 to raise your hand. When it is your turn to speak, dial *6 to unmute.

ITEMS		<u>PAGE</u>
3. *	Recommend Approval of a Resolution pursuant to a Categorical Exemption Under CEQA Guidelines Section 15301, and a Categorical Exclusion Under NEPA, for the Approval of the Purchase of a DeNora ClorTec Onsite Sodium Hypochlorite Generation System for the Lower Heron Residual Management System (LHRMS)	5
4. *	Recommend Approval of a Resolution pursuant to a Categorical Exemption under CEQA Guidelines Section 15301, and a Categorical Exclusion under NEPA, Awarding a Contract for Beldove (Copper Hill) 2 Water Storage Tank Coating Project to Polytech Industrial, Inc.	19
5. *	Monthly Operations and Production Report	33

8.	General Report on Treatment, Distribution, Operations and Maintenance Services Section Activities	
9.	General Report on Engineering Services Section Activities	
10.	Adjournment	
*	Indicates Attachment	

NOTICES:

Any person may make a request for a disability-related modification or accommodation needed for that person to be able to participate in the public meeting by telephoning Leticia Quintero, Executive Assistant, at (661) 297-1600, or in writing to Santa Clarita Valley Water Agency at 26521 Summit Circle, Santa Clarita, CA 91350 Requests must specify the nature of the disability and the type of accommodation requested. A telephone number or other contact information should be included so that Agency staff may discuss appropriate arrangements.

November 29, 2023 Page 3 of 3

Persons requesting a disability-related accommodation should make the request with adequate time before the meeting for the Agency to provide the requested accommodation.

Pursuant to Government Code Section 54957.5, non-exempt public records that relate to open session agenda items and are distributed to a majority of the Committee less than seventy-two (72) hours prior to the meeting will be available for public inspection at the Santa Clarita Valley Water Agency, located at 27234 Bouquet Canyon Road, Santa Clarita, CA 91350, during regular business hours. When practical, these public records will also be made available on the Agency's Internet Website, accessible at http://www.yourscvwater.com.

Posted on November 30, 2023.

COMMITTEE MEMORANDUM

DATE: November 14, 2023

TO: Engineering and Operations Committee

FROM: Keith Abercrombie

Chief Operating Officer

SUBJECT: Recommend Approval of a Resolution pursuant to a Categorical Exemption

Under CEQA Guidelines Section 15301, and a Categorical Exclusion Under NEPA, for the Approval of the Purchase of a DeNora ClorTec Onsite Sodium Hypochlorite Generation System for the Lower Heron Residual Management

System (LHRMS)

SUMMARY

Lower Heron 1 and 2 (formerly Lower Fair Oaks Tanks 1 and 2) are both 2.5-million-gallon storage tanks which were constructed in 1998. They are within the same pressure zone and are designed to "float" together with the four Olympian Tanks. The distance between the Lower Heron Tanks and Olympian Tanks is two miles. Due to differences in tank water level elevations, the Lower Heron Tanks are equipped with altitude valves which prevent them from overflowing while the Olympian Tanks are filling. A booster station at Lower Heron Tanks pumps water from the Lower to the Upper Heron Tanks. The nearest source providing water to Lower Heron Tanks is Via Princessa Booster, which is 1.5 miles away. Because of the distance from the Olympian Tanks, distance from sources supplying the tanks, and the use of altitude valves to prevent overfilling, managing water quality within the Lower Heron Tanks is challenging. Furthermore, these challenges are compounded once water is pumped from Lower Heron Tanks to the Upper Heron Tanks, Oak Crest Tanks and Cherry Willow Tanks. Staff has developed a long-term solution to address these water quality challenges, which ensures water is safe to drink and meets water quality standards. This involves constructing a residual management system with onsite hypochlorite generation (RMS) at the strategic location of the Lower Heron Tanks. This location is key because it would improve the water quality at the Lower Heron and Upper Heron Tanks and at the Oak Crest and Cherry Willow Tanks. The most significant component to acquire in facilitating this plan is a DeNora ClorTec Onsite Sodium Hypochlorite Generation System.

DISCUSSION

Chloramine is a combination of chlorine (or chlorine compounds) and ammonia. It is the form of disinfectant used in the Santa Clarita Valley for almost two decades. The primary advantage of chloramine, as opposed to a free chlorine disinfectant, is the reduced formation of disinfection byproducts. However, having chloramine as a disinfectant also poses its own set of challenges. The most serious challenge is nitrification. To ensure water within the distribution system does not have nitrification, extensive monitoring is required. This includes weekly monitoring of numerous constituents at all storage tanks and within the distribution system. If disinfectant residuals are reduced or if nitrite reaches a threshold, action must be taken by operators. One action is to add granular or tablet forms of chlorine (calcium hypochlorite) to the water at storage tanks with elevated nitrite or low chlorine levels to stop the progression of nitrification and to

bolster the chlorine residual. This labor-intensive task will be eliminated with the addition of this RMS. Chlorination frequency, strategic location, and site space availability all make Lower Heron Tanks an ideal location for the RMS.

The first component of the project is purchasing the DeNora ClorTec Onsite Sodium Hypochlorite Generation System. The DeNora ClorTec System is being sole sourced for multiple reasons. Currently there are six similar DeNora onsite generation units in service. Furthermore, staff have 18 years' experience in performing maintenance and repairs on DeNora ClorTec Systems, there is an inventory of parts kept in stock, and customer service has proven to be reliable. An RMS includes an onsite generation system, chemical storage, pumps, analytical equipment, containment structure, electrical and SCADA improvements. Each line-item cost is in the table below.

Lower Heron RMS Categories	Cost		
DeNora Onsite Generation Package	\$	220,000	
Chemical Storage	\$	29,000	
Chemical Pumps	\$	38,000	
Analytical Equipment	\$	33,500	
Building and Construction	\$	115,000	
Electrical and SCADA Upgrades	\$	175,000	
Total	\$	610,500	

This project complies with both the California Environmental Quality Act (CEQA) and National Environmental Policy Act (NEPA) under the following exemption and exclusion provisions. CEQA Categorical Exemption, 14 CCR Section 15301, Existing Facilities and NEPA Categorical Exclusion, Subpart D of 10 CFR Part 1021. B1.26 Small Water Treatment Facilities.

STRATEGIC PLAN NEXUS

This project supports SCV Water's Strategic Plan Goal D – Ensuring the water is safe to drink and conducting our operations in a fashion that is sensitive to the environment and in compliance with environmental requirements is a key commitment of SCV Water to the community we serve. It also aligns with Strategy D.1.1 – Meet all applicable water quality regulations.

FINANCIAL CONSIDERATIONS

Funds for this project are included in the Lower Heron RMS CIP Budget for the current FY 2023/24.

RECOMMENDATION

That the Engineering and Operations Committee recommends that the Santa Clarita Valley Water Agency Board of Directors approve the attached resolution pursuant to a categorical exemption under CEQA Guidelines section 15301, and a categorical exclusion under NEPA, for the approval of the purchase of a DeNora ClorTec Onsite Sodium Hypochlorite Generation System for the Lower Heron Residual Management System (LHRMS) in the amount of \$220,000 and authorize the other expenditures for the project detailed above, for a grand total of \$610,500.

RESOLUTION NO. XXX

RESOLUTION OF THE BOARD OF DIRECTORS
OF THE SANTA CLARITA VALLEY WATER AGENCY
PURSUANT TO A CATEGORICAL EXEMPTION UNDER CEQA GUIDELINES
SECTION 15301, AND A CATEGORICAL EXCLUSION UNDER NEPA, FOR THE
APPROVAL OF THE PURCHASE OF A DENORA CLORTEC ONSITE SODIUM
HYPOCHLORITE GENERATION SYSTEM FOR THE LOWER HERON RESIDUAL
MANAGEMENT SYSTEM (LHRMS)

WHEREAS, this project complies with both the California Environmental Quality Act (CEQA) and National Environmental Policy Act (NEPA) under the following exemption and exclusion provisions. CEQA Categorical Exemption, 14 CCR Section 15301, Existing Facilities and NEPA Categorical Exclusion, Subpart D of 10 CFR Part 1021. B1.26 Small Water Treatment Facilities; and

WHEREAS, this project supports SCV Water's Strategic Plan Goal D – Ensuring the water is safe to drink and conducting our operations in a fashion that is sensitive to the environment and in compliance with environmental requirements is a key commitment of SCV Water to the community we serve. It also aligns with Strategy D.1.1 – Meet all applicable water quality regulations; and

WHEREAS, funds for this project are included in the Lower Heron RMS CIP Budget for the current FY 2023/24; and

WHEREAS, the Agency's Purchasing Policy and Bidding Policy allows for a sole source contract upon Board approval when a specific brand is the only article that will properly meet the Agency's needs and the item is one for which comparable quotations from multiple vendors cannot be secured; and

WHEREAS, it is in the Agency's best interest that the Board of Directors, on behalf of the Agency, authorize its General Manager to purchase a DeNora ClorTec Onsite Sodium Hypochlorite Generation System for the Lower Heron Residual Management System (LHRMS); and

NOW THEREFORE, BE IT RESOLVED, that the conditions in the Purchasing and Bidding Policy that are required in order to proceed with a purchase of this magnitude on a sole source basis are found to exist in this instance.

NOW, THEREFORE, BE IT RESOLVED, that the Santa Clarita Valley Water Agency's Board of Directors finds the Project exempt from CEQA pursuant to CEQA guidelines Section 15301, and from NEPA pursuant to NEPA guidelines Subpart D of 10 CFR Part 1021.

RESOLVED FURTHER that the Agency's Board of Directors does authorize the Agency's General Manager or its Chief Operating Officer to purchase a DeNora ClorTec Onsite Sodium Hypochlorite Generation System for the Lower Heron Residual Management System (LHRMS) in the amount of \$220,000 and authorize the other expenditures for the project detailed above, for a grand total of \$610,500.

STRATEGIC PLAN OBJECTIVES

This project supports SCV Water's Strategic Plan Goal D – Ensuring the water is safe to drink and conducting our operations in a fashion that is sensitive to the environment and in compliance with environmental requirements is a key commitment of SCV Water to the community we serve. It also aligns with Strategy D.1.1 – Meet all applicable water quality regulations.

RECOMMENDATION

That the Engineering and Operations Committee recommends that the Santa Clarita Valley Water Agency Board of Directors approve the attached resolution pursuant to a categorical exemption under CEQA Guidelines section 15301, and a categorical exclusion under NEPA, for the approval of the purchase of a DeNora ClorTec Onsite Sodium Hypochlorite Generation System for the Lower Heron Residual Management System (LHRMS) in the amount of \$610,500.

COMMITTEE MEMORANDUM

DATE: November 15, 2023

TO: Engineering and Operations Committee

FROM: Keith Abercrombie

Chief Operating Officer

SUBJECT: Recommend Approval of a Resolution pursuant to a Categorical Exemption

Under CEQA Guidelines Section 15301, and a Categorical Exclusion Under NEPA, Awarding a Contract for Beldove (Copper Hill) 2 Water Storage Tank

Coating Project to Polytech Industrial, Inc.

SUMMARY

Staff recommends that the interior lining of the Beldove (Copper Hill) Tank 2 be removed and replaced, and that spot paint repairs be made to localized areas of its exterior coating system to maintain the integrity and service life, based on a condition assessment and inspection by CSI Services, Inc. (CSI).

The Beldove (Copper Hill) Tank 2 is a welded steel, above ground water storage tank built in 1988. It is one of two water storage tanks on site. The interior linings are not the original coatings: relining of the tank interior was performed in January 2005. All interior steel surfaces and appurtenances are coated with a thin film epoxy lining. The internal roof lap seams and roof/shell chime are not caulked. The exterior tank and appurtenance paint system includes a urethane finish coat.

Inspection of the tank was completed in March 2021, which indicated that the interior tank lining has reached the end of its service life, and there are isolated locations with significant corrosion. Significant corrosion has developed on the edges of roof support structure, roof structure fasteners and bars, the upper interior ladder, and at an isolated area on the tank bottom. The exterior has rust on the center roof vent.

Staff received bids from four (4) qualified contractors and recommend awarding the contract to Polytech Industrial, Inc. as the lowest responsible bidder in the amount of \$514,467.60.

DISCUSSION

The Capital Improvement Program (CIP) includes periodic tank inspections and recoating/relining (as required), in accordance with AWWA D101-53 (79) Standards, to maintain the integrity and extend the service life of storage tanks.

The Beldove (Copper Hill) Tank 2 is a welded steel, above ground storage tank. The tank is approximately 105 feet in diameter by 32 feet high, providing a nominal capacity of 2 million gallons. There is one interior and one exterior ladder, each leading to the single roof access hatch. The tank rests within a steel grade band enclosing the lower tank chime. All the interior steel surfaces, including the roof, shell, support members, tank bottom and appurtenances are coated with a thin film epoxy. The upper interior chime is caulked, but the roof lap seams are

not. The exterior roof, shell, and appurtenances are painted with the original alkyd paint system. The tank lining has reached the end of its service life, and there are isolated locations with significant corrosion. Significant corrosion has developed on the edges of the roof support structure, roof support bars, and the upper interior ladder. The exterior has rust on the center roof vent.

The project will not result in great impact to existing public or private structures, facilities, mechanical equipment, or topographical features. This project complies with both the California Environmental Quality Act (CEQA) and National Environment Policy Act (NEPA) under the following exemption and exclusion provisions: CEQA Categorical Exemption, 14 CCR Section 15301. Existing Facilities and NEPA Categorical Exclusion, Subpart D of 10 CFR Part 1021. B1.3 Routine Maintenance.

Staff contracted with CSI for the coating technical specifications and engineering estimate. Staff issued a Request for Bids by posting to PlanetBids on October 9, 2023. Four (4) bids were received on November 2, 2023. Staff reviewed the bids and recommends awarding the contract to Polytech Industrial, Inc. as the lowest responsible bidder.

The engineer's estimated cost for the project was \$550,000. Bid results are as follows:

Contractor	Bid Amount
Polytech Industrial, Inc.	\$514,467.60
Simpson Sandblasting & Special Coatings, Inc.	\$582,897.00
Harbor Coating and Restoration	\$596,500.00
Capital Industrial Coatings	\$671,500.00

STRATEGIC PLAN NEXUS

This project supports Santa Clarita Valley Water Agency's Strategic Plan B.1.1 – Implement capital projects related to infrastructure reliability.

FINANCIAL CONSIDERATIONS

Funding for Beldove (Copper Hill) 2 Water Storage Tank Coating Project is provided through the CIP Storage Tank Improvements & Replacements budget and is included in the FY2023/24 Budget.

RECOMMENDATION

That the Engineering and Operations Committee recommends that the Santa Clarita Valley Water Agency Board of Directors approve the attached resolution pursuant to a categorical exemption under CEQA Guidelines section 15301, and a categorical exclusion under NEPA, awarding a contract for Beldove (Copper Hill) 2 Water Storage Tank Coating Project to Polytech Industrial, Inc. for \$514,467.60.

Attachment

RESOLUTION NO. XXX

RESOLUTION OF THE BOARD OF DIRECTORS
OF THE SANTA CLARITA VALLEY WATER AGENCY
PURSUANT TO A CATEGORICAL EXEMPTION UNDER CEQA GUIDELINES
SECTION 15301, AND A CATEGORICAL EXCLUSION UNDER NEPA,
AWARDING A CONTRACT FOR BELDOVE (COPPER HILL) 2 WATER STORAGE
TANK COATING PROJECT TO POLYTECH INDUSTRIAL, INC.

WHEREAS, all bid proposals submitted to the Santa Clarita Valley Water Agency (Agency) pursuant to the Agency's specifications for the Beldove (Copper Hill) 2 Water Storage Tank Coating Project, were received at the Agency's offices, in full accordance with the law and the Agency's customary procedures; and

WHEREAS, this project supports Santa Clarita Valley Water Agency's Strategic Plan B.1.1 – Implement capital projects related to infrastructure reliability; and

WHEREAS, the Board of Directors finds, after considering the opinion of staff, that the total bid of Polytech Industrial, Inc. for \$514,467.60 is the lowest responsible bid of four bids submitted, and that said bid substantially meets the requirements of said contract documents; and

WHEREAS, it is in the Agency's best interest that the Board of Directors, on behalf of the Agency, authorize its General Manager to accept the \$514,467.60.

NOW, THEREFORE, BE IT RESOLVED, that the Santa Clarita Valley Water Agency's Board of Directors finds this project complies with both the California Environmental Quality Act (CEQA) and National Environment Policy Act (NEPA) under the following exemption and exclusion provisions: CEQA Categorical Exemption, 14 CCR Section 15301. Existing Facilities and NEPA Categorical Exclusion, Subpart D of 10 CFR Part 1021. B1.3 Routine Maintenance.

RESOLVED FURTHER that the Agency's Board of Directors does authorize its General Manager to accept said low bid and does therefore authorize the Agency's General Manager or its Chief Operating Officer to issue a Notice of Award to Polytech Industrial, Inc., hereby found to be the "lowest responsible bidder" for the Beldove (Copper Hill) 2 Water Storage Tank Coating Project.

RESOLVED FURTHER that the Agency's General Manager or its President and Secretary are thereupon authorized, upon receipt of appropriate payment and performance bonds, appropriate certificates of insurance and an executed Contract Agreement from Polytech Industrial, Inc. for \$514,467.60, all of which must be approved by General Counsel, to execute the said Contract Agreement on behalf of the Agency.

RESOLVED FURTHER that the Agency's General Manager or Chief Operating Officer are thereafter authorized to execute and forward to Polytech Industrial, Inc., the appropriate Notice to Proceed.

RECOMMEND APPROVAL OF A RESOLUTION AWARDING A CONTRACT FOR BELDOVE (COPPER HILL) 2 WATER STORAGE TANK COATING

Engineering and Operations Committee December 7,2023

James Saenz Water Systems Supervisor

SCVWA STORAGE TANK INFORMATION

- 108 Storage Tanks
- Combined distribution storage of more than 165 MG
- Periodic general inspections Weekly
- Inspection and cleaning every 3 5 years (internal and external)

STEEL STORAGE TANK COATINGS

- Epoxy coatings are designed to protect the integrity of steel tanks.
- Exterior and interior coatings are designed to last between 20 – 30 years.
- AWWA M42 recommends inspections every 3 5 years

BELDOVE (COPPER HILL) TANK 2 OVERVIEW

- Constructed in 1988
- Condition assessment by CSI Services, Inc.
 - Assessments conducted in 2021
 - Interior relining conducted in 2005
 - · Reached the end of service life
 - Exterior coating is not original
 - · Slightly weathered
 - Recommendations spot repairs
- Bids received November 2, 2023
- Complete work in Quarter 4, FY 23/24

HISTORICAL PRODUCTION

and

GROUNDWATER LEVEL GRAPHS

OCTOBER 2023

Historical Production and Groundwater level graphs are posted monthly on the SCV Water Website and the most recent data can be found at the link below;

- https://www.yourscvwater.com/sites/default/files/SCVWA/yourwater/plans-and-reports/well-water-levels/Well-Water-Production-and-Levels-October-2023.pdf
- Groundwater level graphs for the 45 wells currently in operation show static water level depth below ground surface (bgs) from 1987 to the current month. Each well also has a second water level graph showing levels for the most recent five year period. Static Water Level refers to the level of water in a well under normal, non-pumping conditions. The graphs also show annual precipitation and historic high and low static water levels. Leading data gaps in the graphs indicate time frame before well became ACTIVE. Other gaps may appear during periods when water level soundings were not completed.
- The historical data tables show the production from each well in Acre-Feet from 1987 to present. Historical data labeled "NA" in the production table means that the particular well(s) were not in production at that time.

ITEM NO. 6

Santa Clarita Valley Water Agency Capital Improvement Projects (CIP) Construction Status Report As of November 13, 2023

Project	Contractor	Original Contract Amount	Change Orders to Date	% Change Orders	Current Contract Amount	Scheduled Completion	Estimated % of Work Completed	Status
Vista Canyon (Phase 2B) Recycled Water Tanks	Pacific Tank and Construction, Inc.	\$3,906,870	\$390,585	9.99%	\$4,213,175	September 29, 2023	100%	Construction is completed. Notice of Completion in progress.
Vista Canyon Recycled Water Main Extension (Phase 2B)	Ferreira Construction Co, Inc.	\$2,752,982	\$0	0%	\$2,752,982	October 31, 2023	100%	Project closeout is in progress.
Bridgeport Pocket Park	C.S. Legacy Construction, Inc.	\$373,148	\$0	0%	\$373,148	November 30, 2023	99%	Construction is complete. Project closeout is in progress.
Magic Mountain Pipeline Phase 4	FivePoint / Toro Enterprises	\$3,084,725	\$212,289	6.9%	\$3,297,014	March 1, 2024	98%	Construction is in progress.
Magic Mountain Pipeline Phase 5	FivePoint / Toro Enterprises	\$3,269,979	\$0	0%	\$3,269,979	March 1, 2024	96%	Construction is in progress.
Magic Mountain Pipeline Phase 6A	FivePoint / Toro Enterprises	\$7,168,845	\$0	0%	\$7,168,845	March 1, 2024	92%	Construction is in progress.
Magic Mountain Pipeline Phase 6B	FivePoint / Leatherwood Construction	\$4,568,687	\$0	0%	\$4,568,687	March 1, 2024	99%	Construction is in progress.
Dickason Drive Water Line Improvements	J Vega Engineering, Inc.	\$1,909,511	\$0	0%	\$1,909,511	March 1, 2024	15%	Material submittals are in progress.
Santa Clara & Honby Wells PFAS Groundwater Treatment Improvements Site Construction	Pacific Hydrotech Corporation	\$8,486,950	\$0	0%	\$8,486,950	March 28, 2024	78%	Construction is in progress.
ESFP Washwater Return Improvements	Pacific Hydrotech Corporation	\$17,526,700	\$0	0%	\$17,526,700	April 1, 2024	92%	Construction is in progress.

Project	Contractor	Original Contract Amount	Change Orders to Date	% Change Orders	Current Contract Amount	Scheduled Completion	Estimated % of Work Completed	Status
Saugus #3 & #4 Wells Construction (Replacement Wells)	Zim Industries, Inc.	\$12,751,494	\$0	0%	\$12,751,494	April 10, 2024	45%	Construction is in progress.
Pitchess Pipeline Modifications	Los Angeles County Metropolitan Transportation Authority	\$159,000	\$0	0%	\$159,000	May 1, 2024	0%	Pipeline modifications are scheduled to start February 2024.
Deane Pump Station at Sand Canyon Plaza (Cost Share)	Pacific Hydrotech Corporation	\$1,969,954 (SCV Water Fair Share)	\$0	0%	\$1,969,954	July 1, 2024	0%	Construction is scheduled to start in November 2023.
Deane Tank at Skyline Ranch (Cost Share)	Pacific Hydrotech Corporation	\$3,123,943 (SCV Water Fair Share)	\$3,326	0.11%	\$3,127,269	July 23, 2024	40%	Concrete foundation and walls are installed. Contractor is constructing roof.
RVWTP Diesel UST Replacement	Fleming Environmental, Inc.	\$1,388,771	\$0	0%	\$1,388,771	July 23, 2024	1%	Material submittals are in progress. Contractor's mobilization scheduled for December 2023.
Deane Pump Station at Skyline Ranch (Cost Share)	Pacific Hydrotech Corporation	\$381,645 (SCV Water Fair Share)	\$4,192	1.1%	\$385,837	November 19, 2024	15%	Contractor has mobilized and starting site grading.
Well 201 VOC Treatment Improvements	Pacific Hydrotech Corporation	\$7,726,700	\$0	0%	\$7,726,700	February 1, 2025	18%	Construction is in progress.
