Billing Address	Job Contact Email

In accordance with the State of California Administrative Code, Title 17, and the Policies, Rules and Regulations of Santa Clarita Valley Water Agency, the use of this construction meter requires the owner/developer to install a backflow prevention device downstream of the meter. The device must be inspected by SCV Water personnel and tested in the presence prior to use. SCV Water assumes no liability for the functionality of the backflow prevention device or any downstream piping. Contact (661) 297-1600 to arrange for inspection.

By signing the application, the applicant acknowledges the above information is correct and will notify SCV Water if any changes occur. Applicant acknowledges terms and conditions related to the use of temporary construction meters outlined in the SCV Water Customer Service Policy: <u>Bit.ly/SCVWaterCustomerCarePolicy</u>.
