FOR IMMEDIATE RELEASE

**SCV Water to Install Waterlines to the
Santa Clarita Valley Sheriff's Station Project
on Golden Valley Road
*Construction to Begin the Week of April 22nd***

SCV Water is set to begin a waterline construction project in mid-April, to bring water service to the highly anticipated and much needed sheriff station site, located at 26201 Golden Valley Road.

SCV Water will be installing the waterline in the north bound lane of Golden Valley Road, between Robert C. Lee Parkway and Centre Pointe Parkway. Mesa Engineering, the Agency's contractor, will be installing 5,700 feet of 16-inch waterline, as well as new fire hydrants, valves and water service connections for the Sheriff's Station.

The project will provide water and adequate fire protection to the new Sheriff's Station and will also insure that water services continue to meet the needs of customers now, and in the future.

Construction on the waterline is set to begin the week of April 22 and continue through June. Work will take place Monday through Friday from 8:30 p.m. to 4:30 a.m. During this time, a portion of the northbound traffic on Golden Valley Road will be detoured to south bound of the street during the construction hours. Residents will be notified in advance of any water system shutdown.

The new Sheriff's Station will be twice the size of the current station located on Magic Mountain Parkway and will serve the Santa Clarita Valley's population of 293,000 residents.

While there may be some inconveniences to residents during this period, SCV Water will strive to minimize them. Please call the numbers below if you have any questions or concerns. Thank you for your understanding and cooperation during these important improvements.

###

About SCV Water:

The Santa Clarita Valley Water Agency (SCV Water) is a full-service regional water agency located in the Santa Clarita Valley. SCV Water provides water service to approximately 72,000 business and residential customers. It was formed on January 1, 2018 when local water suppliers combined into one integrated, regional water provider. More information can be found at www.YourSCVwater.com
