****Construction Advisory****

SCV Water to Begin Bouquet Canyon Road Pipeline Work August 19

In coordination with the City of Santa Clarita's annual Road Rehab program, SCV Water will begin construction of a new pipeline on Bouquet Canyon Road near Newhall Ranch Road beginning Monday, August 19. Originally planned as part of a project to construct a new water treatment facility to address per- and polyfluoroalkyl substances (PFAS) and volatile organic compounds (VOCs), the pipeline will connect wells to the Rio Vista Intake Pump Station, located just south of the Lowe's shopping center.

Construction of the pipeline will be done during overnight hours. During construction, a minimum of one lane of traffic will be open in both directions on Bouquet Canyon Road.

PROJECT DETAILS:

Start Date: Monday, August 19, 2024

Anticipated End Date: Friday, August 30, 2024

Work Hours: 9:00 p.m. to 4:30 a.m.

This phase of the water treatment facility project is being expedited so it coincides with the City's ongoing Road Rehab work on Bouquet Canyon Road. As a result, the need to dig into the street and repave it again at a future date is eliminated.

For questions about the construction of the pipeline or the water treatment facility project at the Rio Vista Intake Pump Station, please email SCV Water Principal Engineer Orlando Moreno at omoreno@scvwa.org.

###

About SCV Water:

The Santa Clarita Valley Water Agency (SCV Water) is a full-service regional water agency located in the Santa Clarita Valley. SCV Water provides water service to approximately 75,000 business and residential customers. It was formed on January 1, 2018, when local water suppliers combined into one integrated, regional water provider. More information can be found at www.yourSCVwater.com.
